Jessica Atallah - GMS

Ms. Atallah always works hard to give a great learning experience to her students. She is very creative and really tries to broaden the horizons of her students. One of her recent projects was a cultural, educational experience with India. Through a contact of hers, she was able to set up a virtual pen pal system with a Middle School in India. Students were able to converse back and forth using Flipgrid as the communication vehicle. Students were able to ask each other about school, fun time, Covid protocols, and other educational/school type questions. Our students found out that there are several things that are quite different from what they are used to in Indian culture, but also found out that there are several things that are the same. Ms. Atallah is very dedicated to the learning experiences of our students. This is just one example of how she does this.
