

CKEC Membership

We've frozen membership dues at the 18-19 enrollment and ADA calculation, since that's how districts are still being funded. The formula is:

Up to 1000 students = \$1000 base and $\$1.44 \times \text{SAAR 2018-19}$

1001 - 2000 students = \$2000 base and $\$1.44 \times \text{SAAR 2018-19}$

2001 + students = \$3000 base and $\$1.44 \times \text{SAAR 2018-19}$

Note: Fayette County pays an individualized rate due to its size.

I plugged in 2,506 as your enrollment (based on the 18-19 School Report Card), and I asked Kalem to send me the 18-19 ADA. It was 93.79%. Applying the formula, this makes the membership dues total come to **\$6,384**.
