

### **Abby Keith**

In class, Abby is conscientious about her work and can be counted on to submit top-notch work no matter how easy or difficult the assignment might be. She is ranked at the top of her class and doesn't hesitate to take upper level classes to better prepare herself for life after high school. Abby is currently one of my most exceptional students, it is a pleasure to witness the growth she has attained academically. She is driven to work to her potential not just in the big things but even the smallest tasks. Abby is a pleasure to work with, her focused pursuit of each and every one of her goals has helped her to have great success. Perhaps most importantly, Abby is a compassionate person. She never forgets those around her, and regardless of who they are Abby treats everyone with respect and kindness.
