

Merrick Taylor

Merrick Taylor has grown tremendously as a student and in her work ethic while attending GCHS. Merrick works very hard in class and strives to do her best. She is always willing to help those students who seem to struggle with their classwork. Although Merrick is undecided on what college she will attend when she graduates high school, she does plan on going to college. I'm sure Merrick will be successful wherever she attends college and whatever she decides to major in.

Kylee Tudor

I have known Kylee practically her entire life. I have always been struck by her kindness, warmth, and sense of humor. However, over the past months, I have been blessed to get to know Kylee as a student in my classroom. Needless to say, I have been impressed! Kylee stands out amongst her peers for her leadership, tireless work ethic, and commitment to service.

Kylee is a leader in many aspects inside and outside the school building. She is a member of the Fellowship of Christian Athletes and Health Occupational Students of America programs here at Garrard County High School. As a student-leader, Ms. Tudor is relentlessly positive and joyful.

Despite her obviously full plate, Kylee still finds time to serve her community. In addition to being a committed volunteer through her church, she seeks out opportunities to help others in her community. Ms. Tudor especially exhibits a care for the elderly members of our community, spending a notable amount of time at the local long-term care facility

Kylee is a young lady of uncommon grace, warmth, and kindness, and she enriches the lives of all who know her, as well as Garrard County High School.
