RE: Request to Install Concrete Pad

Facilities and Grounds Department request BOE permission to install a concrete pad at BCHS. The 30'x75' pad will be located behind the baseball complex and be used to facilitate a batting cage. Both the baseball and softball teams will have access and an opportunity to use the batting cage. If approved, athletic booster funds will be used to cover the cost of the project.

I recommend the Board approve this request. If you have questions, please feel free to contact me at (502) 639-3454.

RE: Concrete Slab

Bullitt Central Baseball/Softball is looking to have a 75' x 30' concrete pad poured on the backside of the baseball softball complex that will house a portable batting cage to be used by the baseball and softball teams. It will be located between the field complex and the earthen berm that runs parallel to the interstate. Booster funds will be used to cover the cost of the labor and materials. Some materials will be donated by parents.
