

Board Report

Jim Seward, District Technology Coordinator
May 2021

End-of-year

We are collecting all student and staff devices before the end of the year. Staff devices will be returned by June 11, 2021.

New Employees

We are adding Brian Baird to our Tech Team! Brian will be housed at BHS and Alex Thompson will be housed at Grandview. I am excited to have Brian join our team!

We are interviewing students for a summer tech position. The student will be working closely with our team for the months of June and July 2021. They will be an integral part of getting our district ready for the next school year.

One-to-One

We have ordered the majority of the devices for the next school year. They will be imaged and ready to go!!

TV/Interactive Displays

We have ordered the majority of the devices for the next school year. Once they are received, we will install as soon as possible. I will be working with the building administrators and CO to coordinate training for staff.

Summer

The Tech Team will be extremely busy this summer. New phone upgrades. New wireless upgrades. New UPS upgrades. Wiring projects. And we cannot forget the construction projects, to name a few.
