In the event of termination for default, the Board may secure the required services from another contractor. If the cost to the Board exceeds the cost of obtaining the Services under this Contract, Contractor shall pay the additional cost. The rights and remedies of the Board provided in this Article shall not be exclusive and are in addition to any other rights and remedies provided by law or under this Contract.

ARTICLE XI
Disputes

Any differences or disagreements arising between the Parties concerning the rights or liabilities under this Contract, or any modifying instrument entered into under Article VIII of this Contract, shall be resolved through the procedures set out in the Regulations.

Project Overview

JCPS has requested support for pdCentral to cover the 2021-2022 academic year. In addition, JCPS has requested assistance with migrating data from pdCentral to TeachPoint. TeachPoint is the professional development platform that JCPS has chosen and intends to "go live" with it in March 2022.

Activities and Deliverables

Activities:

- Provide up to 60 hours of ad hoc support for the 2021-2022 academic year.
- Validate data mapping between pdCentral and the TeachPoint import file format.
- Develop an extract process to retrieve the desired data from the pdCentral database and generate the necessary import files for the TeachPoint system.
- To aid in a test migration, KiZAN will execute the extract process to build the yearly import files and provide the files to TeachPoint for import. KiZAN will assist with any questions related to the after the test migration has occurred.
- For the final data migration, KiZAN will again execute the extract process to build the yearly import files and provide the files to TeachPoint for import.

Deliverables:

- CSV files formatted for the TeachPoint system, of 6 years of pdCentral data. Files will be grouped by year.

KiZAN anticipates providing all the above project services remotely.

Project Assumptions

The below assumptions are applicable to the provided Statement of Work.

1. The extract process will create import files containing data for each year.
2. KiZAN will build import files for the most recent 6 years of pdCentral data.
3. This statement of work allows for a test migration, and then a final migration of data. Additional migrations will be handled by a change request.
4. KiZAN will make the files available to JCPS/TeachPoint. Importing the data files is the responsibility of TeachPoint.
5. Only the data that is already contained in the pdCentral database will be included in the import files.
6. Import of employee data will be the responsibility of JCPS IT.

Project Exclusions

None.

Status Reporting

KiZAN will provide daily status report emails daily on all days' project work is executed.
