Any student who is accepted into the K-5 expansion of the Pathfinder School will be provided with a computer and WiFi access if needed.

Core Instruction: Teachers and PLCs should use the [JCPS Curriculum Frameworks](#) to plan standards-aligned, inquiry and project-based units and lessons for grade-level instruction.

The district will support specific digital curricular resources listed in the **Digital Tools** section and the vetted instructional resources linked [here](#).

Tiered Supports/Interventions (Tier 2 and 3) should be provided to students. *Exact Path* and *Study Island* are a part of the Edmentum Suite and have been funded district-wide for tiered support/intervention. The district [MTSS website](#) provides additional context for instructional support for students to accelerate learning outcomes.

The [JCPS Teacher Backpack](#) houses instructional and curricular resources as a one-stop shop to provide consistency of use and selection of resources across the district. Examples for project-based learning are: [Adventure planning template](#) and [weekly plan](#).

Instructional Strategies & Methods

Recommendation: *Google Classroom* will serve as the instructional delivery learning management platform. Opportunities for synchronous learning experiences will be required. Lessons should be provided in whole group, small group, or individual settings. Lessons should be recorded to be made available for students to watch at a later time or to be provided to reinforce learning. Content and assignments should be made available for students to work on asynchronously.

Instructional methods should be designed to support deeper learning and equity outcomes. The Deeper Learning page can be found [here](#). A focus on interdisciplinary practices should occur to address various content standards collaboratively - which could be accomplished through the creation of [Choice Boards](#). Lesson design should use the district tools, such as the [ARE tool](#), to be responsive to student backgrounds and contexts. Instructional strategies supporting [students with disabilities](#), [English Learners](#), and [gifted supports](#) should be a part of planning. Learning experiences should be designed for deep engagement to promote thinking and the creation of artifacts/evidence of authentic learning.

[Here](#) are instructional shifts for supporting student-centered hybrid learning environments.

Assessment & Grading

Students should receive on-going, descriptive feedback on their work through the use of rubrics and goal setting conversations. Teachers will use the district-wide grading and progress/promotion standards.

Infinite Campus and *Mastery Connect* will be the systemwide tools used for communicating student performance and grading.
