**RE: Quote 12474494**  
**This quote is valid until 01 Oct 2021**

Thank you for your interest in MathWorks products and services. Your quote includes pricing and ordering instructions.

There are two easy ways to place your order:

- **ONLINE:** View your quote at [mathworks.com/store/quotes](https://mathworks.com/store/quotes) and purchase by credit card (login required)
- **EMAIL:** Send a purchase order to [orders@mathworks.com](mailto:orders@mathworks.com). Be sure to include your quote number on your order.

Additional order and payment Information are included on the following pages of this quote.

If you have questions, please do not hesitate to contact me.

Sincerely,

**Monica Angers**  
Educational Support Representative  
Phone: +1-508-647-6819  
[mangers@mathworks.com](mailto:mangers@mathworks.com)

Explore [consulting](#) and [training](#) services that help you realize the full potential of MATLAB and Simulink products.

## Ordering and Payment Information

---

**U.S. or Canada orders please note:** Your order will be subject to standard Canadian GST/PST/QST or U.S. sales taxes which will be calculated using the "ship-to" address at the time the order is processed. The taxes shown on your quote are estimated. If the correct tax is not shown on your quote please make the adjustment when remitting payment or submitting your purchase order. If tax should not be added to your order please provide a tax exemption certificate or other appropriate documentation if you have not done so in the past. See "Tax Remittance Information" below for additional tax information.

### ONLINE

Pay by credit card in MathWorks Store at [mathworks.com/store](https://mathworks.com/store). Login to MathWorks account is required. If you do not have an account, use the "Create an account" option on the login screen.

### Telephone

Pay by credit or debit card by calling Customer Support at 508-647-7000

### Bank Transfer

**Account Name: The MathWorks, Inc.**

Account #: 112259509

Bank Name: JPMorgan Chase Bank N.A.,

Bank Location: New York, NY 10087

Account #: 112259509

Routing # (ACH and Fed Wire): 021000021

SWIFT/BIC (Non-US): CHASUS33

### Check

PO Box 21301, New York, NY 10087-1301

*Please reference quote number*

*Please reference quote number*

*Email remittance information to [receivables@mathworks.com](mailto:receivables@mathworks.com)*

### Purchase Order

See below for detailed instructions

### Purchase Order Requirements

---

E-Mail your purchase order as an attachment to [orders@mathworks.com](mailto:orders@mathworks.com) or mail it to:

Attn: Revenue Accounting and Controls

MathWorks Inc.

3 Apple Hill Drive

Natick, MA 01760-2098 USA

The following is required with your purchase order:

- Tax status – if tax exempt, please provide a valid tax exempt certificate or other appropriate documentation. If not tax exempt, please include tax on your P.O.
- Authorized approval for purchase (i.e., authorized signature if required, company letterhead, company stamp)
- MathWorks quote number
- Contact information if ordering a new license. See below.
- MathWorks payment terms: Net 30 days
- Delivery and invoice addresses
- P.O. number and/or other references required by your company purchase department
- Total amount of order

### Other Important Information

---

#### Contact Information

All MathWorks licenses require an administrator to serve as the main source of communication for the license. If your order includes a new license, please provide the name, address, phone, and email for the contact that will be responsible for administering the license.

#### Tax Remittance Information

Federal Taxpayer Identification Number (TIN): 94-2960235

Canada GST Number: 89827 4535 RT0001

British Columbia PST Number: PST-1452-0140

Quebec QST Number: 1228655321 TQ0001

Saskatchewan PST Number: PST-7414238

#### Ordering Information for the U.S. Government

Central Contract Registration Number (CCR): 131142747

Cage Code: 0C524

#### Certifications and Representations

#### Money-Back Guarantee

If you are not completely satisfied with your purchase, call within 30 days for a full refund.

### Academic Licensing

MathWorks is pleased to offer MATLAB®, Simulink®, and other MathWorks products at reduced prices to degree-granting educational institutions. The use of products licensed to institutions at Academic License pricing is restricted to on-campus computing facilities that are used solely in support of classroom instruction and research activities of students, faculty, and staff.

Institutions cannot use the products for commercial purposes. Research and development divisions and centers of universities, government agencies, and other not-for-profit organizations do not qualify for Academic License pricing. MathWorks offers reduced prices to degree-granting educational institutions as a service and asks your help in ensuring that the practice is not abused.

### Licensing Options

#### Academic Use

*Individual:* The Individual license is intended for use by a single named user. The products can be activated on up to four different computers, provided that the products are only accessible to and used by that single named user. A named user may not use a program on more than two computers simultaneously.

*Designated Computer:* The Designated Computer license is intended for use on a single, designated computer, provided the products are operated from that computer's console by one licensed user at any given time.

*Concurrent:* The Concurrent license is intended for use by a specified number of concurrent users to run the product on any computer that is connected to a single network license manager. Installation of the products is limited to institution-owned computers or computers personally owned by faculty, research, and academic staff.

#### Classroom Use

Classroom licenses are restricted for use in on-campus teaching labs used solely for classroom instruction of students. Course instructors can use a copy of the software for course preparation only. Use of the products for any other purposes, such as research by faculty and staff, is not allowed. The Classroom licenses require a minimum quantity of 10 and offer a choice between two license options: Designated Computer or Concurrent.

### License Term

*Annual* licenses provide the right to use the software for a fixed duration, and MathWorks Software Maintenance Service is included in the license fee. To ensure uninterrupted service, you may renew your license prior to the conclusion of the license term. Otherwise the license and Software Maintenance Service will expire at the end of the term period.

*Perpetual* licenses provide the right to use the software indefinitely, and the first year of MathWorks Software Maintenance Service is included in the initial purchase price. After the initial 12 month period, an annual fee is required to renew your Software Maintenance Service.

### MathWorks Software Maintenance Service

The first year of Software Maintenance Service is included with new product licenses. You can continue uninterrupted service in subsequent years by renewing your subscription annually.

MathWorks Software Maintenance Service includes:

- The latest updates to your MATLAB and Simulink products – with releases twice a year
- Worldwide technical support from specialized engineers
- Online offerings such as MATLAB Mobile, MATLAB Online, and MATLAB Drive

Note:

- An active subscription is required to purchase add-on products.
- If your subscription lapses, renewal at a later date will incur fees for the forward service period, any applicable back maintenance fees for the lapsed period, and a reinstatement fee of 25% of the annual cost of Software Maintenance Service.

For more information, see [mathworks.com/services/maintenance](https://www.mathworks.com/services/maintenance).

### Ineligible Programs

Not all programs are eligible for deployment, compilation, distribution, or web access. See a list of ineligible programs at: [mathworks.com/products/ineligible\\_programs.html](https://www.mathworks.com/products/ineligible_programs.html).

### Additional Fees

The fees for the license are determined based upon the country where all licensed user(s) are principally located. Additional fees may apply to a transfer of the license, or the principal location of any licensed user, to another country.

# The MathWorks, Inc.

---

## Software License Agreement

### IMPORTANT NOTICE

THIS IS THE SOFTWARE LICENSE AGREEMENT (THE "AGREEMENT") OF THE MATHWORKS, INC. ("MATHWORKS") FOR THE PROGRAMS. THE PROGRAMS ARE LICENSED, NOT SOLD. READ THE TERMS AND CONDITIONS OF THIS AGREEMENT CAREFULLY BEFORE COPYING, INSTALLING, OR USING THE PROGRAMS. FOR INFORMATION ABOUT YOUR LICENSE OFFERING, CONSULT THE PROGRAM OFFERING GUIDE PRESENTED AFTER THE AGREEMENT.

THE AGREEMENT REPRESENTS THE ENTIRE AGREEMENT BETWEEN YOU (THE "LICENSEE") AND MATHWORKS CONCERNING YOUR RIGHTS TO INSTALL AND USE THE PROGRAMS UNDER THE LICENSE OFFERING YOU ACQUIRE.

YOU MUST ACCEPT THE TERMS OF THIS AGREEMENT TO COPY, INSTALL, OR USE THE PROGRAMS. IF YOU DO NOT ACCEPT THE LICENSE TERMS, THEN YOU MUST IMMEDIATELY STOP USING THE PROGRAMS.

IF YOU TERMINATE THIS LICENSE FOR ANY REASON WITHIN THIRTY (30) DAYS OF PROGRAM DELIVERY (THE "ACCEPTANCE PERIOD") YOU WILL RECEIVE A FULL REFUND FROM THE AUTHORIZED DISTRIBUTOR FROM WHOM YOU ACQUIRED THE PROGRAMS, OR FROM MATHWORKS IF YOU ACQUIRED THE PROGRAMS DIRECTLY FROM MATHWORKS.

# The MathWorks, Inc. Software License Agreement

1. **CAPITALIZED TERMS.** Capitalized terms used in this Agreement and not otherwise defined in this Agreement shall have the definitions ascribed to them in Article 23 below.
2. **LICENSE GRANT.** The MathWorks Programs are licensed, not sold. MathWorks hereby grants to Licensee, subject to the terms of this Agreement, a nonexclusive license (the "License") to:
  - 2.1. install and use the Programs solely on Computers controlled by Licensee, in accordance with the License Offering acquired, and solely for Internal Operations;
  - 2.2. use the Programs as expressly allowed in the Program Offering Guide, for instance to deploy Applications, consistent with the terms of the License Offering acquired;
  - 2.3. provide reasonable access to online Documentation on Licensee's intranet, provided it is not accessible over the open Internet; and
  - 2.4. print portions of the online Documentation for reasonable use by Licensed Users.
3. **LICENSE RESTRICTIONS.** The License granted is subject to the express restrictions set forth below and any other restrictions set forth in any signed agreement between MathWorks and Licensee. Licensee shall not, and shall not cause or permit any other individual or entity to, directly or indirectly:
  - 3.1. modify or create any derivative work of a Program, except as expressly permitted in the Program Offering Guide;
  - 3.2. use a Program for any act which infringes copyright of a Program, for instance, by developing, producing, or testing a computer program containing a feature or functionality that is substantially similar in its expression to the expression contained in a Program;
  - 3.3. disassemble, decompile, or reverse engineer a Program, or attempt to gain access to its method of operation or source code;
  - 3.4. adapt, translate, copy, convert, use, test, benchmark, or determine the expression or design of, a Program or any materials derived from or generated by a Program, in order to make or distribute an application or software, a principal purpose of which, as reasonably determined by MathWorks, is to perform the same or similar functions as a Program or other MathWorks product or service or which replaces any component of a Program or other MathWorks product or service. Licensee shall not use a Program to compete with the products or businesses of MathWorks, including by distributing libraries or any form of an entire Program or Program Component;
  - 3.5. rent, lease, or loan the Programs, use the Programs for supporting Third Parties' use of the Programs, time share the Programs, or provide service bureau or similar service use;
  - 3.6. sell, license, sublicense, provide access, publish, display, distribute, disseminate, assign, or otherwise transfer to a Third Party the Programs or any copy thereof, or any license or other rights thereto, in whole or in part, without MathWorks' prior written consent, except as expressly permitted in the Program Offering Guide;
  - 3.7. alter, remove, or obscure any copyright, trade secret, patent, trademark, logo, proprietary and/or other legal notices or license files on or in copies of a Program or Program Component, including copies made for backup purposes;
  - 3.8. provide access (directly or indirectly) to any Program via a web or network interface, except as expressly permitted in the License Offering;
  - 3.9. copy, make available for copy, or otherwise reproduce the Programs except either (a) as may be required for their installation for the purpose of executing the Program in accordance with the License Offering, or (b) to make a reasonable number of copies solely for back-up purposes;
  - 3.10. access or use MathWorks products or services that Licensee is not currently licensed to access or to use;
  - 3.11. allow the Programs to be accessed or used by a Third Party except as expressly permitted in the Program Offering Guide;
  - 3.12. disclose or transfer the activation key, login credentials, and/or license file to a Third Party, or allow them to be used by a Third Party without written authorization from MathWorks or as permitted by the License Offering acquired;
  - 3.13. republish the Documentation, except as expressly permitted in Article 2 of this Agreement;
  - 3.14. create a server or automated system for the Transformation Programs without obtaining a license from MathWorks that expressly allows such use (see the Program Offering Guide);
  - 3.15. disable, circumvent, or workaround any technical limitations in the Programs;
  - 3.16. access, enable access to, modify, translate, use or otherwise make available temporary intermediate files produced by a Program;
  - 3.17. make any use of the License on behalf of or for the benefit of a Third Party or Affiliate in any manner that would constitute a violation of the License if such use were directly made by such person, or cause any Third Party or Affiliate to make any use of the License on behalf of or for the benefit of Licensee or an Affiliate in any manner that would constitute a violation of this License if such use were directly made by Licensee;
  - 3.18. acquire the License if a principal purpose of the acquisition is to transfer or assign the License to a Third Party or Affiliate unless expressly permitted by MathWorks;
  - 3.19. mechanize or automate the process of checking out or in license keys for one or more Programs, including by running a second session of a Program, running a Program to serve multiple users, or rebooting the License Manager, for a principal purpose of minimizing the License check out time of any Programs, or otherwise circumventing the intended License Manager operation;
  - 3.20. use a License Manager other than the one which was provided with the most recent version of the Programs Licensee is using;
  - 3.21. take any action that requires any portion of the Programs to be subject to end-user rights incompatible or inconsistent with the restrictions set forth in this Agreement;
  - 3.22. allow access to the Programs by an individual who is under 13 years old or otherwise is under the lawful age for providing consent without obtaining the advance written consent of a parent or guardian and storing such consent in a retrievable way;
  - 3.23. create an Application (a) providing capability similar to the capabilities of any of the Programs; (b) providing functionality or behavior similar to that of the MATLAB command line or scripting and programming capabilities; (c) allowing operation of the code generation capabilities of Programs; (d) providing access to an entire Program or a substantial portion of a Program; or (e) enabling evaluation of end-user code or expressions;
  - 3.24. distribute an Application that includes library header files from any of the Programs or any Program Component;
  - 3.25. distribute an Application that reads MAT-files (i.e., files in the MATLAB MAT data file format) using the MAT file API to Third Parties, unless such Application also allows such Third Parties to write MAT-files for the same data;
  - 3.26. distribute an Application without an Application License, unless the Application is solely for Internal Operations or is part of an embedded system that has no provision for licensing to its end-users;
  - 3.27. distribute an Application unless all copyright and proprietary notices for the Programs are duplicated and included with Licensee's own copyright notices for the Application, wherever they appear; and

# The MathWorks, Inc. Software License Agreement

- 3.28. make copies of the MATLAB Runtime accessible to any Third Party separate from or for use other than with an Application, or provide the MATLAB Runtime for service bureau or similar service use.
- 4. PROGRAM TRIAL EVALUATION; COMPLIMENTARY LICENSES.** Licensee agrees to use any Program provided to Licensee as a trial evaluation only for the period of the trial evaluation which may be controlled by a license key code, only to evaluate it individually for potential purchase of a license to the Program as an end-user, to conduct no business with it, to remove it and all result files produced from any of Licensee's Computers at the end of the trial evaluation period and to comply with all other obligations and restrictions in this Agreement. Licensee agrees to use any Program awarded to Licensee on a complimentary basis for student engineering competitions and similar competitions, course support, research, fellowship participation, and teaching assistance only for the specific purpose and period of the award, to conduct no business with it, and to comply with all other obligations and restrictions in the award letter and in this Agreement.
- 5. ADDITIONAL FEES.** The fees for the License are determined based upon the country where all Licensed User(s) are principally located. Additional fees may apply to a transfer of the License, or the principal location of any Licensed User, to another country, or to a contract for global use.
- 6. RETENTION OF RIGHT, TITLE AND INTEREST BY MATHWORKS AND ITS LICENSORS; THIRD PARTY LICENSORS.** The Programs are licensed not sold. The Programs, including Derivative Forms of the Programs and MATLAB Runtime, shall at all times remain the property of MathWorks and/or MathWorks' Licensors. Licensee shall have no right, title, or interest therein, except as expressly set forth in this Agreement. Licensee shall take appropriate action by instruction, agreement, or otherwise with any persons permitted access to the Programs, so as to enable Licensee to satisfy its obligations under the terms of this Agreement, including disabling access to the Programs, in the event of a transfer of the License. Licensee shall include the following notice in the About Box, or similar visible location, of any Application it distributes, and in the applicable documentation distributed with each copy of the Application: "MATLAB". © 1984-[INSERT YEAR MATLAB VERSION PUBLISHED] The MathWorks, Inc." Licensee agrees to employ the same security measures to protect the Programs, Derivative Forms, and MATLAB Runtime as it uses to safeguard Licensee's own proprietary intellectual property, but in no event less than reasonable care. Programs may include Third Party software licensed to Licensee under these terms or under separate terms of Licensors that are accessible within the relevant Programs in the *thirdpartylicenses.txt* file. Should such Third Party software be provided under the Lesser General Public License, Licensee may make modifications of the work identified in Section 6 of the Lesser General Public License for Licensee's own use and reverse engineering for debugging such modifications. Any Third Party services or data accessible through an interface in a Program are governed solely by the Third Party's terms of use or Licensee's own agreement with the Third Party.
- 7. SOFTWARE MAINTENANCE SERVICE.** During any Software Maintenance Service term, MathWorks shall provide its customary Software Maintenance Service for the Programs. As further described in the Program Offering Guide, Software Maintenance Service consists of: delivering subsequent releases of the Programs, if any, that are not charged for separately; exerting reasonable efforts to both (a) provide, within a reasonable time, workarounds for any material programming errors in the current release of the Programs that are directly attributable to MathWorks, and (b) correct such errors in subsequent releases, provided Licensee gives MathWorks sufficient information to identify the errors; and technical support for the current release. Technical support means assistance by telephone, web, and e-mail with the installation and/or use of the then-current release of the licensed Programs, including all available bug fixes and patches, and their interaction with supported hardware and operating systems ("Platforms"). Software Maintenance Service may include additional administrative support services for the licensed Programs and access to certain online features and services made available by MathWorks from time to time. Levels of support and services available may vary by License Offering. If Licensee's Software Maintenance Service expires, Licensee must pay applicable fees to resume lapsed Software Maintenance Service. MathWorks reserves the option to discontinue, in whole or in part, and at any time, offering Software Maintenance Service and/or technical support for any Program, feature of a Program, or Platform or to refuse to provide Software Maintenance Service to a Licensee whom it reasonably believes is in breach of this Agreement.
- 8. TERM AND TERMINATION.**
- 8.1. **Term.** This Agreement shall continue until the earlier of termination by MathWorks or Licensee as provided below or the expiration of the term of all Licenses granted hereunder
- 8.2. **Termination by Licensee.** Licensee may terminate a License at any time, for any reason. Licensee shall not be entitled to any refund if a License is terminated, except for License fees paid for any Programs for which the Acceptance Period has not expired at the time of termination.
- 8.3. **Termination by MathWorks.** MathWorks may terminate this Agreement and all Licenses granted hereunder by written notice to Licensee if Licensee breaches any material term of this Agreement, including failure to pay any License fees due, and Licensee has not cured such breach within sixty (60) days of written notification. MathWorks may immediately terminate this Agreement and all Licenses granted hereunder if, after requesting and failing to receive from the Licensee adequate assurances of compliance with the terms of this Agreement, MathWorks reasonably believes that Licensee is or is intending to breach any material term of this Agreement. MathWorks may immediately terminate upon notice this Agreement and all Licenses granted hereunder should Licensee breach the terms and conditions of Articles 2, 3, 6, and/or 10. If Licensee or any of its Affiliates commences or participates in any legal proceeding against MathWorks or any of MathWorks' Affiliates challenging or asserting any intellectual property rights in or against any of the Programs licensed hereunder, then MathWorks may, without waiving any other legal rights or remedies available to it, immediately terminate this License. The foregoing sentence only applies to (a) a Licensee who has as its principal business the holding of patents and who does not engage, either directly or through an Affiliate, in any material active business of making products that embody the patents or (b) a Licensee who engages, either directly or through an Affiliate, in a principal business of licensing or making available commercial off the shelf software to Third Parties. The provisions of this Article 8.3 apply to all Licenses, including Perpetual Licenses.
- 8.4. **Effect of Termination.** Upon termination for any reason, Licensee shall promptly return all but archival copies of the Programs in Licensee's possession or control, or promptly provide written certification of their destruction.
- 8.5. **Survival.** The following provisions survive any termination of this Agreement: Articles 1, 3, 6, 8-11, and 13-23.
- 8.6. **Effect of Termination on Applications.** Termination of this Agreement will not affect the terms of any Application Licenses for Applications that have been placed in use prior to the effective date of termination.
- 9. PUBLICITY.** Licensee may not use MathWorks' name, trade names, logos, or other trademarks of MathWorks or any of its Affiliates or Licensors in any advertising, promotional literature or any other material, whether in written, electronic, or other form, distributed to any Third Party, except in the form provided by MathWorks, and then solely for purposes of identifying MathWorks' Programs.
- 10. EXPORT CONTROL** The Programs are subject to U.S. export control laws and may be subject to applicable export and import laws and regulations in other jurisdictions. Notwithstanding any other term of this Agreement or Third Party agreement, Licensee's rights under this Agreement may not be exercised by Licensee or any Third Party in violation of such laws and regulations, nor may this Agreement be transferred to any party where doing so would result in such a violation. The terms of any limitation on the use, transfer or re-export of the Programs included in any Destination

Control Statement or other document provided by MathWorks for the purpose of export control shall prevail over any term in this Agreement. It shall be Licensee's responsibility to comply with the latest United States or other governmental export and import regulations with respect to all use of the Programs and Applications.

- 11. FEDERAL ACQUISITION.** This provision applies to all acquisitions of the Programs and Documentation by, for, or through the federal government of the United States. By accepting delivery of the Programs or Documentation, the government hereby agrees that this software or documentation qualifies as commercial computer software or commercial computer software documentation as such terms are used or defined in FAR 12.212, DFARS Part 227.72, and DFARS 252.227-7014. Accordingly, the terms and conditions of this Agreement and only those rights specified in this Agreement, shall pertain to and govern the use, modification, reproduction, release, performance, display, and disclosure of the Programs and Documentation by the federal government (or other entity acquiring for or through the federal government) and shall supersede any conflicting contractual terms or conditions. If this License fails to meet the government's needs or is inconsistent in any respect with federal procurement law, the government agrees to return the Programs and Documentation, unused, to MathWorks.
- 12. EUROPEAN UNION SOFTWARE DIRECTIVE.** For any Licensed User properly licensed to use the Programs within the European Union, any contractual provisions of this Agreement contrary to laws implemented pursuant to Article 6 of Directive 2009/24/EC of the European Parliament and of the Council of 23 April 2009 on the legal protection of computer programs or to the exceptions provided for in Article 5(2) and (3) of such Directive shall be null and void solely to the extent decompiling, disassembling, or otherwise reverse-engineering of the Programs is necessary to enable the Licensee to achieve the interoperability of an independently created program with the Programs or any other permitted objectives specified by such laws implemented under such Directive (collectively, the "Permitted Objectives"), consistent with the Directive, provided that any such information gained is used solely for such Permitted Objectives and solely in the European Union.
- 13. TAXES, DUTIES, CUSTOMS.** Absent appropriate exemption certificates or other conclusive proof of tax exempt status, Licensee shall pay all applicable sales, use, excise, value-added, and other taxes, duties, levies, assessments, and governmental charges payable in connection with this Agreement or the Licenses granted hereunder, excluding taxes based on or measured by MathWorks' income, for which MathWorks shall be solely responsible.
- 14. ASSIGNMENT.** Licensee may not assign or otherwise transfer this Agreement or any License hereunder, by operation of law or otherwise, without the written consent of MathWorks. Licensee agrees that MathWorks may withhold such consent if it reasonably believes that Licensee is in breach of this Agreement or that the proposed assignment or transfer will cause a breach of this Agreement. In the case of any permitted or other lawful assignment or transfer, the terms of this Agreement including any License hereunder shall be binding upon, and inure to the benefit of, the transferee or assignee.
- 15. LIMITATION OF LIABILITY.** The Programs should not be relied on as the sole basis to solve a problem or implement a design whose incorrect solution or implementation could result in injury to person or property. If a Program is employed in such a manner, it is at the Licensee's own risk and MathWorks and its Licensors explicitly disclaim all liability for such misuse to the extent allowed by law. MathWorks' and MathWorks' Licensors' liability for death or personal injury resulting from negligence or for any other matter in relation to which liability by law cannot be excluded or limited shall not be excluded or limited. Except as aforesaid, (a) any other liability of MathWorks and its Licensors (whether in relation to breach of contract, negligence or otherwise) shall not in total exceed the amount paid to MathWorks under this Agreement in the twelve month period preceding the claim in question, for the Program with respect to which the liability in question arises; and (b) MathWorks and its Licensors shall have no liability for any indirect or consequential loss (whether foreseeable or otherwise and including loss of profits, loss of business, loss of opportunity, and loss of use of any computer hardware or software). Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above exclusion or limitation may not apply to Licensee. Licensee agrees that prior to using or distributing any Application, it will thoroughly test and validate the Application and will be solely responsible for any problems or failures.
- 16. LIMITED WARRANTY/LIMITATION OF REMEDIES.** MathWorks warrants that MathWorks, on its own behalf or through its Licensors, has the right to grant the License rights hereunder. MathWorks warrants that the physical media provided shall be free from defects in material and workmanship for a period of ninety (90) days from delivery, or it will be replaced by MathWorks at no cost to Licensee. MathWorks further warrants, for a period of one (1) year from delivery or for the term of the License, whichever is less, that each copy of each Program will conform in all material respects to the description of such Program's operation in the Documentation. In the event that a Program does not operate as warranted, Licensee's exclusive remedy and MathWorks' sole liability under this warranty shall be the correction or workaround by MathWorks of major defects within a reasonable time. Should such correction or workaround be impractical, MathWorks may, at its option, terminate the relevant License and refund the initial License fee paid to MathWorks for such Program. All requests for warranty assistance should be directed to The MathWorks, Inc., 3 Apple Hill Drive, Natick, MA 01760-2098, U.S.A.
- 17. DISCLAIMER OF WARRANTIES.** Except for warranties expressly set forth in Article 16 of this Agreement (or as implied by law where the law provides that the particular terms implied cannot be excluded by contract), any and all Programs, Documentation, and Software Maintenance Service are delivered "as is" and MathWorks makes and the Licensee receives no additional express or implied warranties. MathWorks and its Licensors hereby expressly disclaim any and all other conditions, warranties, or other terms of any kind or nature concerning the Programs, Documentation, and Software Maintenance Service (including, without limitation, any with regard to infringement, merchantability, quality, accuracy, or fitness for a particular purpose or Licensee's purpose). MathWorks also expressly disclaims any warranties that may be implied from usage of trade, course of dealing, or course of performance. Except for the express warranties stated in Article 16 of this Agreement, the Programs, Documentation, and Software Maintenance Service are provided with all faults, and the entire risk of satisfactory quality, performance, accuracy, and effort is with Licensee. MathWorks does not warrant that the Programs and Documentation will operate without interruption or be error free. Some states and countries do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to Licensee. The warranty in Article 16 gives Licensee specific legal rights and Licensee may also have other rights which vary from state to state and country to country. Licensee accepts responsibility for its use of the Programs and the results obtained from their use. MathWorks shall have no support or warranty obligations, and disclaims all liability, for Applications developed or distributed by Licensee. Licensee will defend, indemnify, and hold harmless MathWorks and its Licensors, officers, directors, employees, agents and resellers from and against any damages, liabilities, costs and expenses (including reasonable fees of MathWorks' attorneys) arising out of any Third Party claim or demand based on or arising from, out of or in connection with (i) the creation, use, or distribution of any Applications by Licensee or any of its Affiliates or (ii) the use of the Programs by Licensee or any of its Affiliates in breach of this Agreement.
- 18. GOVERNING LAW; JURISDICTION.** This Agreement shall be interpreted, enforced and construed and governed in all respects by the laws of the State of Delaware, United States of America, without regard to its conflicts of law provisions. Both parties consent to the jurisdiction of the federal and state courts located in the State of Delaware and consent to the service of process, pleadings and notices in connection with any and all actions initiated in such courts. The parties agree that a final judgment in any action or proceeding in Delaware shall be conclusive and binding and may be enforced in any other jurisdiction. To the extent that the acceptance of a contractual term contained in this Agreement is prohibited by reason of Licensee's sovereign immunity or any foreign, federal or state constitution, law, treaty, or regulation, the conflicting term of this Agreement shall be superseded only to the extent required. If any provision of this Agreement

# The MathWorks, Inc. Software License Agreement

shall be otherwise unlawful, void, or unenforceable, that provision shall be enforced to the maximum extent permissible. In either case, the remainder of this Agreement shall not be affected. The parties agree that neither the U.N. Convention on Contracts for the International Sale of Goods nor the Uniform Computer Information Transactions Act, or any version thereof, in any form ("UCITA"), shall apply to this Agreement. To the extent that UCITA is applicable by reason of its adoption in a state, the parties agree to opt out of the applicability of UCITA pursuant to their Opt-Out provision(s).

**19. COMPLIANCE WITH LICENSES.** Licensee agrees to notify MathWorks promptly upon discovery of any failure to comply with this Agreement. Licensee agrees that, no more than once every twelve (12) months or within a reasonable time after a transfer, in addition to any other remedies at law or in equity, MathWorks or its authorized representative shall, upon reasonable prior notice, have the right to inspect Licensee's and Licensee's Affiliates' records, systems, and facilities, during normal business hours, to verify that Licensee's and its Affiliates' use of the Programs is in conformity with valid licenses and otherwise complies with this Agreement. If a verification discloses that Licensee's or any of its Affiliates' use is not in conformity with a valid license, Licensee shall immediately take all necessary steps to cure any past defaults, including paying any unpaid license fees, to bring Licensee's or any of its Affiliates' use into conformity.

**20. LICENSE MANAGEMENT AND USAGE INFORMATION.** The Programs contain technology for license management and for the prevention of unlicensed use. When Programs are activated, installed, or first used by a Licensed User, and periodically for license management and product improvement purposes, information about the License, use of the Programs, and the Computer will be transmitted to MathWorks. This data includes the License information, Computer identification, and location. Some License Offerings also require the MathWorks Account information and the operating system user name for the Licensed User. See MathWorks privacy policy at [www.mathworks.com/privacy](http://www.mathworks.com/privacy).

**21. HEADINGS.** The inclusion of headings is for convenience of reference only and shall not affect the construction or interpretation of this Agreement.

**22. ENTIRE AGREEMENT.** This Agreement contains the entire understanding of the parties and may not be modified, amended, or superseded except by a written agreement signed by MathWorks and Licensee. In the event of any conflict between this Agreement and any purchase order executed by Licensee (whether executed before or after this Agreement), this Agreement shall prevail.

**23. DEFINITIONS.** The definitions are an integral part of this Agreement.

23.1. **"Affiliate"** means a legal entity which is controlled by, or controls, or is under common control with Licensee. Control means (i) beneficial ownership of at least fifty percent (50%) of the voting securities of a corporation or other business organization with voting securities, or (ii) a fifty percent (50%) or greater interest in the profits and capital of a partnership or other business organization without voting securities, provided that no other individual or entity other than the Licensee also has an equal fifty percent (50%) ownership or interest in the legal entity. Notwithstanding the foregoing, unless MathWorks provides its express written consent to treat the entity as an Affiliate, an Affiliate shall not include any entity to which MathWorks has expressly refused to license (or grant access under a license to) its software products or any entity that had a license for MathWorks software products that MathWorks expressly terminated.

23.2. **"Application"** means binary executable software that runs independently of the Programs, consisting of one or more software files that Licensee has created by either (a) using a Program to compile or translate Licensee created Source Code or (b) incorporating or linking any part of any compiled Source Code, library file, or other Program Component provided with the Program. An Application must contain original code developed by Licensee and must provide substantial functionality

not contained in, or provided by, the Program Components that are incorporated into such Application. If a software file created by a Licensee incorporates Program Components, but does not meet the requirements of the previous two sentences, then it is a Derivative Form (as defined below). An Application may contain Linked Object Code which, if such Object Code was not Linked to the Application and was a standalone file, would otherwise have been deemed a Derivative Form.

23.3. **"Application License"** means a license for an Application that contains terms and conditions that (a) are at least as restrictive as the terms and conditions of this Agreement; (b) explicitly exclude MathWorks and its Licensors from all liability for damages or remedies; (c) do not provide a warranty for any Program; (d) do not transfer or convey any use or deployment rights for any Program without MathWorks' consent; and (e) prohibit the removal of any copyright, trademark, logo, proprietary rights, disclaimer or warning notice included on or embedded in any part of the deployed Application. Further, if Licensee's Application is generated with the MATLAB Compiler, then Licensee's Application License shall include or incorporate by reference the terms of the MATLAB Runtime License included in a text file at [MCR Install Directory]\[version\_number]\MCR\_license.txt located within the installation for the MATLAB Runtime.

23.4. **"Computer"** means either (i) a single physical hardware system containing a single motherboard running an operating system, or (ii) a virtual machine running an operating system.

23.5. **"Derivative Form"** means one or more software files that Licensee has derived from one or more Program Components (including without limitation by incorporating, translating, or modifying, in whole or in part, any Program Component), and which, if modified or copied without MathWorks' authorization, would constitute a copyright infringement or breach of the Agreement. A software file created by Licensee which qualifies as an "Application" under the above definition shall not be deemed a Derivative Form.

23.6. **"Documentation"** means the user guides, if any, accompanying delivery of a Program or made available at [mathworks.com/help](http://mathworks.com/help), as may be updated from time to time, including the bug reports made available at [mathworks.com/support/bugreports](http://mathworks.com/support/bugreports) and the Program Offering Guide. Documentation may be delivered in any medium or language.

23.7. **"Internal Operations"** means the use of a Program by employees, consultants, student interns, and software administration contractors of Licensee or an Affiliate on behalf of the Licensee or Affiliate.

23.8. **"License Manager"** means the license management software provided for use with the Program(s).

23.9. **"License Offering"** means the specific rights, restrictions, and obligations under which Licensee may install and use a Program for the applicable License term as further described in the Program Offering Guide.

23.10. **"Licensed User"** means an individual authorized by MathWorks, Licensee or an Affiliate to use the Programs for Licensee's Internal Operations, to the extent permitted by the License Offering acquired.

23.11. **"Licensee"** means you, whether an individual or an entity, to whom MathWorks grants the License, and who is responsible for complying with the contractual obligations of this Agreement and ensuring that anyone permitted access to the Programs also complies with such obligations.

23.12. **"Licensor"** means the person who, or entity which, grants a license to MathWorks to redistribute that person's or entity's intellectual property.

23.13. **"Linked"** means an executable or loadable file created by a compiler or linker program combining Object Code module files.

23.14. **"MATLAB Runtime"** means MATLAB Runtime support libraries and

other files for deployment of Applications.

- 23.15. **"Object Code"** means the code created by a system compiler from source code; also called "machine-readable code." Object Code can be Linked with an appropriate linker to resolve address references and may be combined with other Object Code for targeted execution on a specific processor. Object Code includes "Object Code libraries" and "shared libraries," which are groupings of Object Code for specific purposes.
- 23.16. **"Perpetual License"** means the right to use the License indefinitely provided that the Licensee always remains in compliance with the terms of this Agreement.
- 23.17. **"Program"** means the software licensed hereunder, including Program Components, Documentation, enhancements, and error corrections. Each product licensed hereunder is a separate Program.
- 23.18. **"Program Component"** means any portion of, or file provided with, a Program.
- 23.19. **"Program Offering Guide"** means the Program Offering Guide for this release, presented after this Agreement.
- 23.20. **"Source Code"** means human-readable code written in a higher-level language such as C, C++, Java, MATLAB, MDL, SLX, VHDL, Verilog, or Fortran, which must be translated or compiled into machine-readable code before it can be executed by a computer. Source Code also includes header files and other human-readable files necessary for a Program to be compiled in the higher-level language.
- 23.21. **"Third Party"** means any person or legal entity that is not MathWorks, the Licensee, or an Affiliate.
- 23.22. **"Transformation Program"** means a Program whose primary purpose is to transform input files into output files without user interaction, including Programs used for the principal purpose of compiling, translating, or generating Source Code and Programs used for the principal purpose of verification, validation or inspection of design or Source Code, or report generation. See the Program Offering Guide for a full list of Transformation Programs.
