Lesson Plans

This trip will allow students to network with their peers and FFA Members from across the state as many chapters attend the North American Championship Rodeo on Friday night. An important component of any organization new or established is building a positive culture and relationships among members.

Students will be exposed to an area of agriculture that may not always be recognized as "agriculture." The rodeo industry is a large part of the recreational opportunities provided through agricultural opportunities. From this experience we will have the chance to discuss animal welfare v. animal rights issues, which is a topic addressed in both Principles of Agriculture and Animal Science Courses.
