

Regional School Programs: Home of the Scorpions

Amy Razor
Executive Director

Stephanie Turner
Principal

Misti Carr
Student Services Coordinator

RSP Request to add position:

On August 31st, the superintendents who participate in the Regional School Programs met to discuss options to address the growing needs in our region. As part of the brainstorming to meet student needs and provide support, additional districts have requested to join Regional School Programs. Since this is out of normal protocol, the participating districts were asked to come to consensus around next steps. We also discussed expanding the program with a partnership to include more intensive therapeutic services with Children's Home of NKY.

The following positions are requested to support the success and services for students in the program contingent upon participation adjustments to Regional School Programs:

- Regional School Programs are requesting a teacher and a para-educator based on a request to add Boone County School District to the regional School Programs.
- Regional School Programs are requesting a MSD teacher and a para-educator based on a request to add Owen County School District to the regional School Programs.

Based on any approved adjustments, the cost structure would provide the funding for these positions. This could include any combination of the following listed below

If adjustments are not made, or approved, these positions would not be filled.

Resources ~ Support ~ Partnerships
