

8/26/21

Board Members,

The attached inventory document contains an itemized list of old Math in Focus books kept at the Board of Education. The books and materials listed are old editions that are no longer used in Henderson County Schools.. We recently purchased updated editions of Math in Focus for grades K-8, so our teachers no longer need the old materials. I respectfully request that these items be approved for surplus.

Sincerely,

Crissy Sandefur
Director of Instructional Technology
