

Mrs. Clark works very hard to create energetic, hands-on lessons for her students. She is amazing at building relationships with students and her classroom presence is outstanding. She has a servant's heart and will help fill any need that a teacher, club, or organization may have. She is also a team player that exhibits a fluid mentality. She is the first to volunteer for any task that many teachers run from like collecting money during registration, working prom and homecoming dances, and landscaping. She is also very forgiving when bad things happen around the greenhouse. She is a true representative of a GOLDEN LION teacher.
