EXECUTIVE SUMMARY

MISSION STATEMENT

Lincoln Trail Elementary School's mission statement is as follows: "In partnership with our families and community, Lincoln Trail Elementary builds the foundation for lifelong success."

The mission statement reflects the vision of "Helping Children Succeed." It was through that vision and the continued pursuit of bringing success to every student that the district has adopted the phrase "Making the Ordinary...Extraordinary." Through our interactions with parents, students, staff members and community stakeholders we demonstrate our beliefs as follows:

- "Success for all – whatever it takes"
- "School, parent and community engagement, collaboration and communication are winning combinations"
- "Investing in our students is investing in Hardin County's future."

The mission statement for Lincoln Trail Elementary drives the improvement plan and classroom instruction on a day-to-day basis.

NEEDS ASSESSMENT

Lincoln Trail Elementary met all 12 goals of NCLB for Spring 2009. The KASC transition index has Lincoln Trail listed at "Already 100+".

Due to the above goals being met, Lincoln Trail will continue with Learning Styles, Higher Order Questioning skills, Thoughtful Education Strategies, continuous assessment, ESS Daytime Waiver, technology emphasis on student learning, addressing the needs of the students immediately as the need arises, and re-teaching and remediation to any student who needs this based on formative and summative assessments that show non-mastery.

Goal and Strategy Development

Our mission statement was developed and approved by SBDM in January of 2006. This drives the development of our CSIP at LTE.

The school reviewed multiple sources of data prior to revising the School Improvement Plan. Data was provided to each stakeholder prior to revisions of CSIP. Stakeholders reviewed specific data and recommended priority needs to be addressed in the 2009-10 CSIP. Needs assessments involved analyzing student performance data and practices, utilizing data driven decisions and identifying GAP in student achievement tied to academic performance.

Implementation and Impact checks were conducted after NCLB and IPR were disaggregated. After the data was disaggregated a gap in Students with Disabilities was noted. A small gap existed between Free and Reduced Lunch students, also. From that information strategies and activities for SB 168 are noted throughout the plan.

In our review of last year's plan for 2008-2009, the 2009 NCLB and Kentucky's Interim Performance Report (IPR) results and the assessments done at the local school level, we have seen positive growth in our subpopulations by NCLB standards. We need to continue to get instructional assistance delivered to the individual student if academic achievement is to be achieved by all. For students, this means identifying individual abilities and skills and tailoring their educational experience accordingly. For teachers, this means determining instructional strengths and growth areas through a data-based review of the performance of their students and creating professional development plan that will lead to individual student and classroom improvements.

EVALUATION OF PLAN

The effectiveness of the 2009-10 plan will be evaluated by using implementation and impact checks. Data Disaggregation will be a driving force.

Progress on the plan's strategies will be shared with the various stakeholder groups throughout the year and posted on the web for easy access to all stakeholders. Any necessary adjustments to the strategies will be made based on the review of impact checks in order to increase the opportunities for all students to experience success. It is our belief that the plan is an ongoing, living document that demands responsiveness to the needs of our students and community, therefore making its success dependent on the constant monitoring of all of its goals and strategies to ensure applicability to current events and information.

STAKEHOLDER INVOLVEMENT

We believe that any plan's success is directly linked to the involvement and subsequent contribution of every member that the plan affects.

Prior to the posting of any revision to the plan, every stakeholder group was given a copy of the plan to review and offer suggestions.

The plan will be available to the public to allow for any student, parent, or community member access to its content, ensuring equity and understanding of each goal and strategy via the Internet.
