RE: Item for the November Board Work Session - Request to Add Hours to Special Ed Instructional Health Assistant Positions

Mr. Jason Baragary, Principal of Shepherdsville Elementary School, requests to increase the school's two Special Education Instructional Health Assistant positions by 30 minutes each, per day. The purpose of this addition would be to increase the level of supervision during arrival and dismissal of the MSD students. Funding would come from ESSER Learning Forward funds.

RE: Instructional Health Assistant Work Day

I would like to utilize ESSER learning forward funds to extend the workday of the two Instructional Health Assistants assigned to Shepherdsville Elementary by 30 minutes per position five days a week (1 hour per day overall).

We currently have two instructional health assistants assigned to SES. With the challenges and loss of instruction due to COVID-19 our students with disabilities would greatly benefit from more direct instruction. Allowing these staff members to extend their workday will create more opportunities for the certified teachers to provide direct and targeted instruction to those students.
