Flocabulary® Privacy Policy

If you are purchasing subscriptions to Nearpod, please refer to Nearpod's Privacy Policy, [here](#).

1. Flocabulary's Commitment to Privacy

We take your privacy and the privacy of your students very seriously. This Privacy Policy explains how we use and process information that can be used to directly or indirectly identify an individual ("Personal Data") collected through the use of the Flocabulary website and platform. Please read this Privacy Policy and contact us if you have any questions.

Our commitment is guided by a few major principles:

We Empower Schools to Make Data Decisions

- Schools and districts can use Flocabulary without sharing any Personal Data from students. Or they can choose to set up student accounts and use Flocabulary to track their students' progress.
- The school or district's account manager can delete or correct Personal Data from students at any time.

Flocabulary is Committed to Maintaining a Safe and Compliant Platform

- We will only share Personal Data of students in accordance with this Privacy Policy.
- We use industry standard security practices, such as TLS encryption.
- We've signed the Pledge to Safeguard Student Privacy. Learn more [here](#).
- We've reaffirmed its commitment to privacy, by signing Pledge 2020.

This Privacy Policy explains the details of how we safeguard and use the information you give us. By using this site, you agree to our Privacy Policy.

2. Children's Use of Flocabulary

Only parents/guardians, schools, or districts that have obtained licenses and provided consent on behalf of students can create student accounts. For all other types of subscriptions and trials, Flocabulary does not knowingly collect Personal Data from children under the age of 16.

If you are a child under the age of 16, you must get permission from your school, parent, or legal guardian to use this website. If you wish to sign up for a free trial or subscribe to Flocabulary, your school, parent, or legal guardian must register for a trial or paid subscription to grant you access to the website.

If we learn that we have inadvertently collected Personal Data from anyone younger than 16 without the appropriate consent, we will take the necessary steps to delete it.

3. Mobile Application

When a user with a Lite, School, or District subscription uses our mobile application, the information collected will be handled in the same way as described in this policy. When our mobile application is used in a standalone mode (meaning a user has downloaded the app but has NOT started a free trial through the Apple App Store or Google Play store), we will only collect information to identify the device used, which we will use solely to facilitate the internal operations of Flocabulary. If a free trial is started, a free trial is converted to a paid subscription, or a subscription is renewed by a parent or by a child 16 or older, we collect only the minimum information necessary (a transaction identifier and email address for the application store account holder) to verify that payment was made through the applicable application store. We will also automatically collect non-personal information in the manner described in this policy, and that non-personal information will be linkable to the transaction identifier and email address.

4. What Information Do We Collect and How Do We Use It?

a. *Website Visitors.*

If you are an individual who visits our front-end website (for example www.flocabulary.com) only (a "Visitor") and do not log into the site, we may collect

certain information in furtherance of our legitimate interests in operating the Flocabulary services and business. Information collected automatically from Visitors may include the following:

- IP address associated with your computer;
- “clickstream data,” which includes information about your clicks on our website and which may also include information about your computer;
- web browser and operating system and information about the website you visited before coming to our site;
- mobile application information;
- identifiers such as an anonymized session identifier; and
- website traffic volume, frequency of visits, and type and time of transactions.

By collecting your IP address, which is necessary for the operation of this Site, we may indirectly collect information about your geographic location (which may be sufficient to identify the name of your city or town, and, in some cases, your street name)

b. Logged-In Users.

We will ask you to create a Flocabulary account to access certain portions of our site. When you create an account, we will ask for your consent to collect certain types of Personal Data. However, if you do not grant the requested consent to the processing of your Personal Data, the use of the Flocabulary website may not be possible. The Personal Data that we collect from logged-in users includes information that you voluntarily provide to us when you sign up for an account and information that is automatically collected when you are logged into the Flocabulary platform. The information collected depends on whether you are a teacher, school, parent or student. The provisions below describe what information we collect for each type of user.

(i) From teachers and administrators

1. Information you voluntarily provide.

- If you are a teacher or administrator signing up for an account on our website, we collect your first and last name, email address, role at your school, grade interests and subject interests. We'll ask you to enter the

state of your organization to select your school, and we remember the school you select so that we can properly give you access if your school has already purchased Flocabulary. Additionally, we ask you to set a password to keep your account secure. In districts that have enabled login through a third party account (such as a Google LLC or Clever Inc. account), you will connect using that account, we will use your email address registered with that third party as your username and you will not need to set a separate password.

- Your email address will be your username. We'll use your email address, as well as your school, role, grade and subject interests, to customize the updates you get about Flocabulary via email. You can always opt out of emails that you have already opted in to receive from us by clicking "unsubscribe." If you request a school trial or a consultation with our sales team, we will also ask for your phone number and job title so that a member of the Flocabulary team can get in touch with you to set up your trial or help you with a purchase.
- If you are purchasing a paid account, we will collect all the information necessary to process the order, including credit card information, billing information or shipping information (as applicable).
- Teachers and administrators with schoolwide or district accounts can invite other staff members at the school or district to create a Flocabulary account. To do this, they can enter the email addresses of the people they wish to invite or use other import mechanisms supported by Flocabulary. We only use these email addresses to send invitations, and will not send any other emails to these addresses.

2. Information we automatically collect. If you are a teacher or administrator logged into Flocabulary, we will automatically collect the same information that we collect from Visitors.

(ii) From parents

1. Information you voluntarily provide.

- If you are a parent, you may access the website by (1) creating an account using our mobile app or (2) purchasing an individual subscription. If you activate a school subscription, we will collect the same information from you as if you were a teacher or administrator. If you are a parent signing up for an account through our mobile app or an individual subscription, we collect the information you voluntarily provide to create an account. Only parents who have activated school subscriptions may invite others to create a Flocabulary account.

2. Information we automatically collect.

- If you are a parent logged into Flocabulary, we will automatically collect the same information that we collect from teachers or administrators.

(iii) From students

1. Students can't create accounts on their own.

- Unless a school or district has obtained a license, provided consent on behalf of students and chosen to allow for student account creation, we collect no personally identifiable information or Personal Data from students (other than parent or teacher selected usernames for certain legacy accounts). In cases where a school or district purchases Flocabulary, the first step is for teachers or administrators to create classes. Students can only sign up for Flocabulary after their school or district imports student roster information into Flocabulary or their teacher enters class information and instructs students to create an account with a provided code. Students cannot sign up and create a Flocabulary account unaffiliated with a class or a schoolwide or district license.

2. Student accounts created by teachers or administrators.

- Flocabulary is not offered directly to students on any basis, and school districts, teachers or parents must first sign up for primary accounts and then invite students to use Flocabulary through student accounts. When students create a student account on Flocabulary, they'll enter a code which will associate them with their school and teacher. These codes may only be generated by teachers or administrators and no student may create an account without a valid class code. To the extent not

already imported by teachers or administrators (either manually or using a third-party tool such as Google), we'll then collect the student's first and last name, and the student will set a username and password. In districts that have enabled login through a third party account (such as a Google or Clever account), the student will connect using that account, we will use the student's email address registered with that third party as the username and the student will not have a separate password. We collect the first and last name so that teachers can identify students on their class roster in the My Classes section of Flocabulary.com and administrators can identify students in the school management section. We collect the username so students can easily log in, as well as have unique identification for the website. Because the first and last name are for teachers' class management, they can instruct students to enter an initial or nickname instead of a first or last name, or another form of identification, if they'd prefer. The student's username and first and last name will not be shared with any Flocabulary users or third parties other than their teacher(s) and the account manager(s) at their school or district.

3. Student accounts created by parents.

- Only parents who activate a school subscription may invite students to use Flocabulary through the student account sign up process mentioned above. If a parent signs up for Flocabulary through the mobile app or an individual account, no additional sign up process is necessary. We may, however, ask for the grade level of a parent's child and other general information to customize the user experience on the mobile app or individual account. If you are a parent who has created an account through our mobile app, you may also limit your child's usage of the app by toggling "on" the Parental Controls. Toggling on the Parental Controls in the mobile app will hide all content dealing with mature subjects (including, but not limited to: violence, sex and tragedy) and restrict visible content to lessons deemed inappropriate for K-5 students.

4. How student accounts are used.

- When students have accounts, teachers will be able to assign multiple choice quizzes and other assignments to students in their classes. Students' quiz results and completed assignments or other

student-created work will be stored so that the student who took the quiz or completed the assignment and the teacher can review the results. Students will be able to review the results of their quizzes at any time. Flocabulary provides students with the ability to download an archive of the work they have created. Students may also generate their own content using Flocabulary applications. For example, in Vocab Cards, students write and draw in response to prompts about a specific vocabulary word. Further, in Lyric Lab, they write their own rap or poem about a lesson topic. Flocabulary may add additional applications from time to time and some of the content submitted through such applications may contain student-created work that includes personal information (such as voice recordings or video). Flocabulary will retain all student generated content in accordance with the security measures described in this Privacy Policy and may only be shared within the classroom to the extent authorized by a Teacher. Students may use the Flocabulary applications mentioned above with or without an assignment from their teacher. When the student is assigned the activity and submits their work, their teacher can see and review it. Otherwise the student who created the work is the only one who can view it. Certain legacy Flocabulary accounts may also include shared student usernames. These usernames are linked to information we collect about students' usage of the Flocabulary site, such as units visited and videos viewed.

5. Limits on collection of Personal Data from student accounts.

- We do not ask or require students to provide Personal Data beyond that which is reasonably necessary to use Flocabulary. We do not share any student login information with any third party and information collected from students is never used or disclosed for any third-party advertising or any kind of behaviorally targeted advertising.

6. Information we automatically collect.

- If a student is logged into Flocabulary, we will automatically collect the same information that we collect from Visitors.

7. Deleting Student Accounts.

- Flocabulary will promptly correct or delete student information at the request of a parent or an authorized representative of the student's school or district. You can send a deletion request to privacy@nearpod.com

c. How we automatically collect information.

We use the following tools to collect and track the automatically collected information described above, including:

(i) Cookies and Similar Technologies.

- To provide you with a continuous experience on our site, we may automatically collect your information using cookies and similar technologies. A cookie is a data file sent to your browser from a web server and stored on your computer's hard drive that allows us to recognize your browser when you return to our website, to remember your preferences and to provide you with content that may be of interest to you based on your progress within our site. To the extent any automatically collected information from cookies and similar technologies is combined with Personal Data, it will be treated as Personal Data and protected accordingly under the terms of this Privacy Policy.
- To learn more about browser cookies, including how to manage or delete them, look in the Tools, Help or similar section of your browser, or Click [Here](#).
- Additionally, our video player may store local shared objects, also known as Flash cookies, on your computer. Local shared objects cannot be managed in the same way as browser cookies. Visit this [link](#) for information on managing Flash cookies.
- We may use the technologies described above in connection with the advertising of our services to parents, teachers and administrators on other websites and tracking the results from such advertising. We don't allow these third parties to advertise directly on our website.

(ii) Analytics.

- We use third-party analytics service providers to assist us in collecting and understanding website usage information. We use information from these services to help us improve our website and the services we provide to our users.

(iii) Email.

- We place a tiny image, also known as a pixel tag, in the emails we send, and this tells us when you have opened the email. Our team uses this information to improve emails we send to you, and best tailor them to your needs.

By using our website, you agree to our use of these tracking technologies.

We do not track our users across third party websites. As a result, we do not currently honor “do not track” signals transmitted by users' web browsers. To learn more, Click [Here](#).

d. *Anonymized Data.*

We frequently aggregate Personal Data in a way that makes it impracticable to use that data to identify a particular person; we also sometimes maintain individual data records with personal identifiers removed, and maintain it in a manner in which it is impracticable to relink it to any particular individual. In this Privacy Policy, we refer to such data as “Anonymized Data” and do not consider it to be Personal Data.

5. How We Use Your Information

We use Personal Data and any other information collected through the website for the following reasons:

- administer the site;
- improve the quality and types of services that we deliver;
- communicate with parents, teachers and school districts by responding to your requests, comments and questions;
- diagnose technical problems;

- send users emails regarding service, technical and other administrative matters. These communications may also include information regarding changes in services, new service offerings and important service-related notices, such as security and fraud notices. Such communications will only be delivered to parents, teachers and school districts and will never be delivered to the site's student users.
- send users alerts to notify them about upcoming assignments and Flocabulary services related to their activity on the site "Notification Alerts". These Notification Alerts may be sent to all users of the site, excluding students.
- billing, account management and other administrative matters; and
- as required by applicable law or regulation.

We use this information to help us diagnose technical problems, administer the site and improve the quality and types of services that we deliver. We may also collect, track and analyze information in aggregate form that does not personally identify users.

6. How We Share Your Information

We will not sell or rent any of your or your students' information to any third-party for any purpose, and we do not track users outside of our website. There is no third-party advertising on Flocabulary.com.

We will not share your information in any way not outlined in this Privacy Policy. Except as noted below, we do not share any Personal Data with third parties for advertising, marketing or other purposes.

We share information that we collect in the following circumstances:

- as instructed by a school administrator, school or district in relation to information about their users, for example to let administrators know which teachers are using Flocabulary;

- with teachers who are the managers of a class so they can see information about the students in that class;
- with our service providers (including hosting, customer communication and analytics providers) so they have access to the data they need to help us to operate the website effectively and communicate with you — they must comply with confidentiality and data security provisions consistent with this Privacy Policy as necessary to protect our rights or property or that of others, protect the safety of our users, investigate fraud or respond to a government, judicial or other legal request, or to comply with the law.
