

## Nominations open for KSBA's First Degree college and CTE scholarships

Nominations are now open for KSBA's 2022 First Degree Scholarships. Once again, the association will provide four college-bound high school seniors each with \$2,500 scholarships for the pursuit of postsecondary degrees. As the name suggests, scholarship recipients will be the first in their immediate families to complete a postsecondary degree.

New this year, KSBA is excited to announce we will also be awarding at least 24 career and technical education (CTE) scholarships to Kentucky public high school students (one male and one female student in each of KSBA's 12 regions). CTE scholarships will fund Industry Certification assessments for students still in high school. Eligible nominees come from immediate families whose members (parents, guardians, siblings) have not previously earned a postsecondary degree.

In total, KSBA will award approximately \$22,000 in scholarships for students. The First Degree Scholarship program is made possible by the generous support of our members, partners and education leadership like you. If you wish to help KSBA strengthen our scholarship offerings, please consider a meaningful gift to the KSBA Educational Foundation.
