RE: Placement of Foundation Christian Academy

Dear KHSAA Board of Control Members:

Foundation Christian Academy in Bowling Green is excited to become a full member of the KHSAA for the 2022-2023 sports season. Our athletics program is a relatively new addition to our school as we prepare to graduate our first students this year. Enrollment in grades 9-12 is forty eight students this year with a projected enrollment of 120 high school students by 2025-2026.

We would respectfully request to be placed into the 13th District. We do not feel it is feasible to have a six team district if it can be avoided. A six team district creates challenges in scheduling potentially ten regular season games and conducting post season tournaments in a timely manner. Our school would likely be more competitive against two of the smaller schools within the 4th region of Todd County Central and Russellville Independent.

Thank you in advance for giving this option consideration when discussing our placement within the 4th Region.

Sincerely,
