

Board Report

Jim Seward, District Technology Coordinator
December 2021

Construction

We continue to work hand-in-hand with other leaders during this construction project. Network/phone cables have been installed for the new office at Grandview. New IP phones have also been ordered.

Monthly Support

We have seen an uptick in the amount of damage being reported by students. Water damage, cracked screens, power cords etc. We are fortunate enough to have a small supply of loaner devices to cover these issues.
