Henderson County Schools

Letter of Intent/Submission for Approval – Procurement of GESC

Greg Dunbar,

This letter is to inform KDE of Henderson County School's intent to procure a Guaranteed Energy Savings Contract (GESC). The goals to be achieved in this project include identification and implementation of energy conservation measures within the context of a GESC, which reduce operating costs, improve environmental conditions, improve M&O within the facilities, and reduce the carbon footprint and other negative environmental impacts. The scope will evaluate solar PV opportunities around the district and potentially tackle HVAC items at other facilities as outlined in the DFP and additional planned construction initiatives. Aligning the scope of GESC with current planning and future life cycle costs will ensure a more comprehensive approach for all facilities within Henderson County Schools.

The District intends to procure the guaranteed energy savings project through the cooperative purchasing agreement administered by the Kentucky Purchasing Cooperative (KPC).

We look forward to working with you on this project.

Sincerely,

Dr. Bob Lawson
Superintendent
Henderson County Schools
