DATE: December 27, 2021  
RE: Comprehensive School Improvement Plans (CSIP)

Attached you will find Comprehensive School Improvement Plans for each school that run from January 2022-December 2022. Each CSIP was developed with input from a variety of school level stakeholders. In addition, all plans have either been approved by SBDM or will be approved at the January 2022 SBDM meeting. Phase I, II, and III school improvement documents are listed below:

- Continuous Improvement Diagnostic
- Needs Assessment
- School Assurances
- School Safety Report
- Professional Development Plan for Schools
- Comprehensive School Improvement Plan
- Executive Summary for Schools

Board approval is not needed as Comprehensive School Improvement Plans are only for Board review and comment only.
