

JEFFERSON COUNTY BOARD OF EDUCATION
SCHOOL ALLOCATION STANDARDS FOR USAGE IN FY 2022-23
January 11, 2022

I. OPERATIONAL SUPPLIES (SECTION 6): 702 KAR 3:246(6)(1)

For FY 2022-23, Jefferson County Public Schools will allocate to each council a per-pupil amount based on prior year ADA or new-year enrollment projection, whichever is greater. The per-pupil amount for all schools will be established once the Base SEEK amount is established in the state's biennial budget in accordance with 702 KAR 3:246, Section 6, Item 1.

Specifically: "School councils shall receive a minimum allocation of three and one-half (3 ½) percent of the statewide guaranteed base funding level for Support Education Excellence in Kentucky (SEEK) based on prior year final average daily attendance."

For FY 2021-22, the Base SEEK was \$4,000; therefore, the **Section 6 per pupil funding amount was \$140**. The initial school allocations will be based upon upcoming FY enrollment projections until the prior year ADA becomes available.

The District will also adjust this allocation in August based on new enrollment projections provided by JCPS Demographics. In this manner, each school is guaranteed to receive this allocation of the greater of the prior year average daily attendance or the enrollment projections provided to Finance.

II. SUPPLEMENTARY OPERATIONAL CODES TO SUPPORT TECHNOLOGY IMPLEMENTATION & TEXTBOOKS/INSTRUCTIONAL SUPPLIES

In recognition of the increased reliance on technology to provide best instructional practices -- and the subsequent social space to utilize technology-- the District will provide an **additional operational budget standard to schools** with enrollments greater than 250 students the following:

- \$10,000 for technology hardware,
- \$10,000 for technology supplies and
- \$10,000 for furniture/fixtures.

Additionally, the District will provide **each school an additional \$35 per pupil for textbooks** or other instructional supplies needs.

III. NON-INSTRUCTIONAL OPERATIONAL CODES

The District will continue to analyze the adequacy of the non-instructional operational codes in accordance with 702 KAR 3:246, Section 6, Item 3.

Specifically: "Allocations for operating expenses, including utilities, or health and safety requirements of schools shall not be included in the allocations required by Sections 4, 5, 6, or 8 of this administrative regulation or this section. If funds are given to a school for these purposes, the funds shall be distributed in a separate fashion."

This regulation is fulfilled by the Jefferson County Board of Education by allocations provided in non-flex codes ending in 900XA. Custodial and building supplies are centralized and are covered by the *JCPS Operations* division and the department of *Property Management and Maintenance*.

IV. FEE WAIVER

At-Risk Fee Waiver will be allocated directly to a specific code, XXX1022 0675 900XA, identified for the school and the SBDM council. This allocation is determined by the number of the students who qualify for Free or Reduced Lunch at a rate of **\$25 per pupil for elementary, \$30 per pupil for middle school, and \$36 per pupil for high school.**

V. SECTION 7 (702 KAR 3:246) AND AIS/CSI/TSI

For FY 2022-23, Section 7 funds in JCPs schools will be distributed in accordance with the regulation alternative in 702 KAR 3:246 subsection C.

Specifically: "For specific instructional purposes based on student needs identified by the board from desegregated data. Money provided under this paragraph shall only be used by the council to address only the identified needs."

More specifically, Section 7 will provide for the following for JCPs schools:

- Support of a Mental Health Practitioner at all schools
- Assistance from an Academic Instructional Coach
- Additional support of an ECE Implementation Coach to facilitate ARC meetings and processes pertaining to IEPs
- District summer learning programs for JCPs students.

Those schools identified by the Kentucky Department of Education as Comprehensive School Improvement (CSI) or Targeted School Improvement (TSI) shall receive additional support as well. The CSI and TSI schools are identified jointly in JCPs as **Accelerated Improvement Schools (AIS)**. The additional supports for these schools include: (a) additional resources as a component of the Student-Weighted Staffing Formula as flexible focus funds to be directed by council, (b) five special professional development days, and (c) stipends to retain quality certified instructional staff.

VI. BUDGET CYCLE AND SAFETY NET

The initial staffing levels provided at the onset of the budget cycle in February preceding the budgetary year will be based upon the Jefferson County Board of Education standards provided herein fulfilling the March 1st statutory deadline. In March, schools can then submit their requested changes of staff, based upon SBDM decisions, to Finance. There will be an August adjustment based upon changes in enrollment projections fulfilling the statutory deadline of September 15th. The August adjustments will be both staffing and operational dollars.

A **Safety Net** exists for the benefit of schools in our staffing formula for the 5th Day Count. The Safety Net pertains only to loss of staffing allocation in August and equates to a maximum "hold harmless" of **0.5** classroom teacher allocation due to lower actual enrollment in August relative to projected enrollment from the initial March allocation. There is no Safety Net provision for Instructional Assistants, Itinerant Teachers nor Section 6 Operational allocations. The safety net does not apply if there was no net decrease in classroom teachers at the 5th Day Count. For elementary schools, the Kindergarten and Grades 1-5 enrollment adjustments in August will be added together to determine if the school is eligible for a safety net.

VII. STUDENT-WEIGHTED STAFFING FORMULA (FY 2022-2023) FOR CLASSROOM TEACHERS

Equity Goal for School Allocations

Create an equitable funding formula to meet the challenges of high poverty school students and staff.

Equity Strategy

To support the increased needs of high poverty school students and staff, JCPS uses the JCPS Needs Index to categorize four tiers for differentiated funding. **Tier I** represents the standard allocation for schools with the lowest relative student needs according to the JCPS Needs Index. **Tier II** represents moderate-need schools. **Tier III** represents high-need schools. **Tier IV** represents maximum-need schools relative to other JCPS schools.

JCPS Needs Index

The JCPS Needs Index has been well established for nearly a decade and has consistently demonstrated a strong correlation with academic achievement needs of children and schools:

$$\text{JCPS Needs Index} = 0.5 (\%FRL) + 0.3 (\%Mobility) + 0.15 (\%ECE) + 0.05 (\%ELL)$$

Definitions

- **Free or Reduced Lunch:** Students who qualify for educational benefits for either free or reduced lunch.
- **Mobility:** Students who move JCPS residence after the start-of-year headcount. Due to the fluid nature of this mobility index, the JCPS Needs Index is calculated using the prior three-year average.
- **ECE:** Students who meet any ECE disability category.
- **ELL:** Students who qualify for ELL services.

ELEMENTARY – Kindergarten through 5th Grade – The teacher allocation will be based on the following Elementary School Staffing Formula and student-to-teacher ratios:

Staffing formula Kindergarten = (Kindergarten enrollment)/24, rounded to nearest 0.5

Staffing formula Grades 1-5 = (Grades 1-5 enrollment)/divisor, rounded to nearest 0.5

| Tier Level | Description | JCPS Needs Index – ELEM | Gr 1-5 Student-to-Teacher Ratio | Formula Divisor for Gr 1-5 Classroom Teacher Allocation |
|------------|--|-------------------------|---------------------------------|---|
| Tier I | <i>Lowest relative</i> school need (Standard Allocation) | <34 | 24.0:1 | 24.0 |
| Tier II | <i>Moderate</i> school need | 34-41.9 | 23.5:1 | 23.5 |

Staffing formula = (General Ed enrollment)*7/divisor + (Self Contained enrollment)*3/divisor

| Tier Level | Description | JCPS Needs Index - MS | Student-to-Teacher Ratio | Formula Divisor for Classroom Teacher Allocation |
