

Elizabeth Turner - English teacher and Teacher Leader at GCHS
Jennifer Caldwell - Science teacher and Teacher Leader at GMS

National Board Certification is the most respected professional certification available in education and provides numerous benefits to teachers, students, and schools. As part of the certification process, teachers spend hundreds of hours doing educational research, planning instruction, analyzing student work, and reflecting upon next steps. Lessons are recorded and submitted along with a portfolio containing several 12–15-page entries detailing professional expertise. In addition, content area tests are taken to prove high levels of knowledge in each specialized area. This is an extremely rigorous process and very hard to achieve. We are so proud of Mrs. Caldwell and Mrs. Turner for achieving this impressive educational accomplishment.
