Support Staff of the Month***

Karolin Simpson

Mrs. Simpson is an extremely special and valuable member of the GMS school family. She works as an instructional assistant for special needs students but impacts everyone in the school. Mrs. Simpson returned from being out after a very serious medical condition and jumped right back in to help support all the students and teachers at GMS each day. She begins and ends every day by serving as a bus monitor with her students and fills any role she is asked to fill at GMS. She always has a smile, and you will never hear her complain about anything she is asked to do. The students and teachers at GMS love Ms. Simpson and her calming, positive presence and we are all exceptionally grateful to have her as part of our school team!
