RE: Storm Water Study Services for: Garrard Co. High School Site

Dear Superintendent Kevin Stull:

We have reviewed the storm water study proposals submitted by four Engineering Firms. All four proposals are attached for your review. The following is a summary of their proposals:

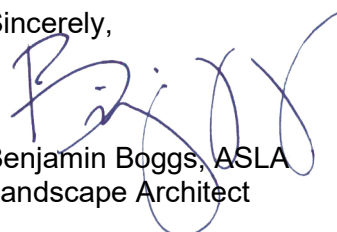

AGE Engineering Services: \$2,500.00
Geisler Domigan Engineers: \$3,000.00
Palmer Engineering: \$5,720.00
Vision Engineering: \$7,500.00

All four of the firms are qualified to provide the services required. Therefore, based on the information provided, the time to produce the work, and each of the Engineering Firm's specific familiarity with the respective site we recommend hiring AGE Engineering for the sum of \$2,500.00.

We spoke with Mr. Gooch of AGE about their proposal and price. He indicated his firm understand the scope of work. His firm prepared the site survey for this project.

Please have your Board Attorney review the proposals and advise our office accordingly so that we can issue Notices-to-Proceed for the work. If there are questions regarding this matter, please contact our office at 859-273-3700.

Sincerely,

Benjamin Boggs, ASLA
Landscape Architect
