

***Garrard County Schools and Whole Latte Love Teacher of the Month  
February***

Beth Trimble is one of those teachers that you can honestly say goes above and beyond what you expect a teacher to do for the students and the school. She is involved in all aspects of day-to-day activities, plus extracurricular activities as well. She is a veteran teacher that her peers look to for leadership, she serves as the lead Science teacher in our building, serves on the SBDM committee and leads her grade group. For many years she helped coach our Academic team, leading the Future Problem Solving Team and assisting with the Quick Recall. She is an outstanding Science teacher, but when she was asked to move grades and teach math, she was willing to do that also. Mrs. Trimble is a great team member and LES wouldn't know what to do without her. Thank you Mrs. Trimble for all that you do!
