Lesson Plans

This trip will have assignments from each discipline in Discovery School. For instance, in ELA this hits the KAS RL.(7, 8, and 9-10).7 standard where the guiding principle is: Students will integrate and evaluate content presented in print/non-print forms of text found in diverse media and formats. It also hits the KAS RL.(7, 8, 9-10).9 standard where the guiding principle is: Students will analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take. They will have an on demand based on these two standards. Math crossing with STEM is going to use ratios to create a scale rendering of a scene (with accompanying script) to be recreated in Minecraft or printed with the 3d printer. This is a high interest novel for our students, so the chance to see it in person also serves as an excellent way to expose them to the theatre. Trinity High School is providing the tickets for free.
