Three Flagpole Project Formal Quote for Customer Review, for a possible project in Northern Kentucky.

Two : 50ft x 10" base diameter x .188" wall thickness external rope halyard silver satin finish flagpoles w/matching flash collar and wire core rope and cleat lock boxes for security, with a 10x15 nylon flag, with a single flag windspeed of 115 MPH. This is a good choice flagpole for a 2nd flag size of 5x8 or 6x10.

One : 40ft x 8" base diameter x .156" wall thickness external rope halyard silver satin finish flagpole w/matching flash collar and wire core rope and cleat lock box for security, with an 8x12 nylon flag, with a single flag windspeed of 110 MPH. This is a good choice flagpole for a 2nd flag size of 5x8.

Since these are special order flagpoles, it would take at 3 weeks for delivery from our supplier to our shop. We can store the flagpoles and all equipment until you are ready to begin with the installations.

We would need a 50% deposit prior to placing the order.

With any flagpole purchase, your first flag (in stock, non-custom flag) is included and replacement flags through NFC would be 50% for your customer. This includes US flags, State Flags, and possibly even the municipality flag - IF we make it at NFC.

And you would have the choice of either a gold globe at the top or a silver globe. Gold is more common, traditional, while often people will choose silver for the uniform color of the flagpole, the flash collar and the globe at the top.

When the time comes, if you choose to proceed with NFC, we can work with you on your plans for the base of the flagpoles, whether you choose to leave the concrete base below grade in a landscape area, or choose to have the base above grade with a square concrete base 4-6" above grade.

We would like the opportunity to leave the spoils on site from the excavation. IF we have to haul it away, our excavator would charge an additional \$200 for each flagpole.

<u>Item</u>	<u>Part Number</u> <u>Description</u>	<u>Revision</u>	<u>Quantity</u>	<u>Price</u>
1	A840-INSTALLATION 40ft x 7" x .156", 2 piece Bronze aluminum, external halyard, Flagged Wind Speed Rating 91 mph		1	\$8,101.750 /EA
