PreK Pursuing Science

Help me give my students a head start on becoming Scientists! From STEM kits to Life cycles we hope to learn it all!

Change your classroom photo

Mrs. Spears

Grades PreK-2

Nearly all students from low-income households

This project will reach **21** students.

My Project

Getting an early start on STEM education is so important in today's world! Our students need materials that will allow them to explore different aspects of Science!

Allen County School District

Scottsville, KY

Grades PreK-2

Nearly all students from low-income households

We will be using STEM kits to explore motion and force, and Life cycle sets to learn more about how insects grow and change.

Applied Sciences

Environmental Science

Mrs. Spears will only receive her materials if this project is fully funded by June 25

The magnets, color changing glasses and prisms are all great items that our students do not have access to at home and they will learn so much exploring them.

Thank you for investing in our preschoolers as we pursue science with these materials!

Where Your Donation Goes
