- Training, logistics and preparations are underway in all of our schools as the 2022 assessment window is really starting to heat up. At the time of this meeting, we will have concluded Brigance K screenings, ACCESS testing for all of our ELL students, two MAP windows, the first Alt. Assessment testing window, and earlier this week, our district Juniors will have taken their ACT. Focus and preparation is now shifting to get our staff and students ready for a full-blown spring assessment window, the likes we have not experienced truly since the ‘18/’19 academic year. As a district, we are excited to see the growth our students will show after nearly a full year of in-person instruction.
