CEIS Participation

Todd County (551) Public District - FY 2022 - ARP IDEA - Rev 0 - CEIS Participation

CEIS Status: Not Required

The table below includes read-only information specific to your district's ARP IDEA allocations (columns A through C) and the impact these allocations have on establishing the amount of ARP IDEA funds set aside to implement either voluntary Coordinated Early Intervening Services (CEIS) or required Comprehensive Coordinated Early Intervening Service (CCEIS). The amount in Column D is 15% of your district's total ARP IDEA allocations. If your district is required to implement CEIS, this is the amount of ARP IDEA allocations that **MUST** be set aside for this purpose.

If your district is voluntarily implementing CEIS, this is the maximum amount of its ARP IDEA allocations that may be set aside for this purpose, though you may set aside less. The entire amount set aside to implement CEIS may be transferred from the ARP IDEA Basic allocation in column A. However, if the district chooses to support CEIS using ARP IDEA Preschool funds in column B, then the maximum amount of these funds that may be used is reported in column E whether the district is required to implement CEIS or implementing it voluntarily. ARP IDEA Preschool funds supporting CEIS/CCEIS should always be less than the amount of ARP IDEA Basic funds supporting CEIS/CCEIS.

ARP IDEA Checklist

Todd County (551) Public District - FY 2022 - ARP IDEA - Rev 0 - ARP IDEA Checklist

This checklist is a means of communication between the KDE and Districts regarding the allowability and allocability of the items submitted in the funding application. Please follow the steps below to ensure that the funding application contains items that are in compliance with program requirements.

- After the District submits the application, the KDE will review the application and mark each section as OK, Not Applicable, or Attention Needed. If the application contains no items that are marked as Attention Needed, the application will be approved.
- If the application contains items that are marked as Needs Attention, the application will be returned to the District with a status of not approved. The District will review the checklist for items that are marked Attention Needed and make the necessary changes to those items. Only the checked items in the sections marked Attention Needed are to be corrected and/or explained. Each section marked Attention Needed also has a place where the KDE may provide notes to explain items needing attention. The District should check for notes and additional comments.
- Once the District has made the necessary adjustments, the District will resubmit the application for approval. If the KDE determines that the item has been corrected, Attention Needed will be changed to OK by the KDE Reviewer. If the items needing attention still have not been corrected, the application will be returned again to the District with a status of Not Approved.
- Applications that contain no items that are marked Attention Needed will be approved.
