

GMS Archery Recognition – Regional Champions

The Garrard Middle School Archery Team finished the 2022 regular season having won seven of the nine tournaments in which they competed. They ended the season as the 10th Region Champions as a part of the National Archery in Schools Program (NASP). The team followed up this performance placing 7th in the State Tournament in Bullseye out of 156 teams middle school teams. Our 3D team also competed at state, where you shoot foam animals instead of paper targets, and finished 3rd in the state. We would like to recognize Austin Osborne who placed first middle school male in the region and finished 3rd place middle school male in both bullseye and 3D and bullseye at State. Abby Fathergill who placed third at region and 9th at state in Bullseye and Kylee Kobernick and Abby Bailey who finished 6th and 10th respectively in 3D at state. The entire team has worked extremely hard all year and it shows in the results. This team has represented Garrard County and GMS with dignity, honesty, and integrity at all times.

Thank you to Coach Joy Fathergill and Karen Travis
