Literacy Plan Executive Summary

Todd County Schools believes in our vision, that all our students can be confident, productive, engaged citizens in their local and global communities. We also believe that reaching this goal must be a collaborative community effort and is in fact, a collaborative community responsibility. The focus of all our efforts will be the development of language and cognitive skills from birth through Grade 12. When families, caregivers, education providers, schools, supplemental providers, faith-based groups, community organizations, and employers all join to focus on language and cognitive development, we can all be sure that we are raising the next generation of citizens.

To ensure our success, we are enlisting multiple programs and organizations--all of whom wrap-around our students from birth through Grade 12. There are five

fundamental elements to our plan, all of which are central to wrapping around our students the necessary language and literacy foundations.

- The district establishes a formal District Literacy Leadership Team (DLLT).
 This team meets monthly to monitor and review goals and progress.
- 2. The district established a formal Network Literacy Leadership Team (NLLT) which includes the district superintendent and leaders from each of the early childhood providers and partner organizations. This team meets quarterly to monitor and review goals and progress.
- 3. The district adopts a specific Kentucky Academic Standards-driven curriculum and assessment architecture. Todd County's vision is to have our district use common rubrics, aligned curriculum, common pacing and common assessments to monitor student progress. The focus is language and cognitive development, and critical thinking in a variety of disciplinary ways. The source of evidence is 'demonstrations of learning'--written artifacts that demonstrate students' ability to communicate their knowledge and expertise of a variety of content.
- 4. The district adopts data-driven inquiry cycles as the central monitoring and professional learning process. This entails collecting formative data and sheltering time and space for teachers to work in PLCs to review and learn from data, and using leadership tools that focus on standards evidence.
- 5. Early childhood providers increase the quality of early literacy instruction through participation in high quality training provided by the Governor's Office of Early Childhood, the Regional Training Center, and other appropriate early literacy training. Instructional materials and books are provided to childcare centers, preschool programs, and parents with a focus on language and vocabulary skills. Family events take place to demonstrate ways to incorporate early literacy into daily routines with their children at home. Reading logs with goal setting is used to increase exposure to books and language in the early childhood education setting, as well as the home setting.

Todd County Schools believes that if every child has increased exposure to books and literacy strategies from birth through age 5, and grades K-12 produce at least 4-6 authentic written demonstrations of learning yearly, that our entire county will be different. Our literacy plan will act as the catalyst to establish a critical feeder pattern in our county. We know we can change outcomes for all our students, and in doing so, bring remarkable results to strengthen our community.

1.Literacy Team & Plan

Literacy Plan Component	District Actions	Evidence
Literacy Team & Plan	Todd County Schools will: 1. Establish a District Literacy Leadership Team (DLLT), including the Superintendent, school principals, lead teachers, and assessment experts. DLLT meets monthly to assess data and progress monitor the district literacy plan. The literacy plan will be the foundation in the district's and schools' Comprehensive Improvement Plans.	The following evidence will be used for progress monitoring the grant implementation. Data includes, but is not limited to: 1. The district's Comprehensive Improvement Plan
	 Establish a Network Literacy Leadership Team (NLLT), including Superintendent, heads of all partner organizations. NLLT meets quarterly to assess data and progress monitor the Network plan (Year 2 GRREC). 	Each site's Comprehensive School Improvement Plan The district's Literacy Plan
	Host a planning session in the summer of Year 2 that includes time for the DLLT and the NLLT to plan, establish implementation indicators, and finalize site-specific implementation plans.	4. Each school's Literacy Plan5. Literacy coaching6. District's KAS Curriculum Architecture maps and
	4. NLLT will establish a marketing plan which communicates messaging and purpose to partner stakeholders and the local community. Messaging anchored in improving student outcomes by joining together to collaboratively do two thingsread to young children and ensure K-12 students write regularly. All focused on KAS as the means of articulating rigor, standards, and expectations for the entire county, not just the school system.	documents 7. Professional Learning Logs 8. Student work analysis in PLCs 9. DLLT meeting minutes 10. Other documents tbd: i.e., minutes, progress
	 the school system. 5. Both DLLT and NLLT will use the newly available ongoing formative student data, reading logs and KAS rubrics K-12, to analyze resource allocation and make modifications quickly. Hold quarterly meetings that will include plan modification recommendations with expected timelines. 	monitoring documents, collaborator documents
	6. DLLT and NLLT will invite and connect to local community leaders and organizations, including Rotary or other local service organizations, Chambers of Commerce, faith-based groups, department of Human Services to share and message the grant efforts taking place across the sectors in the county.	
	7. Appoint an FTE as project manager. This district position will be responsible for all grant organization, planning, coordination between the partners, and data reporting. This person will also serve as the local capacity expert, going through all the training to ensure that there is a knowledge capacity plan in place in the district and across the community once the grant is complete.	
	8. The DLLT will participate in stateside Virtual Quarterly Leader Meetings: supports school and district leaders in implementation management, building capacity, and	

	ensuring sustainability. 9. The DLLT will use specific common <i>Leadership Protocols</i> within the PERKS document that formalize the processes of measuring systemic improvement on literacy instruction and codifying student growth towards specific literacy learning goals.
Implementation Indicators	Implementation indicators will be established by the DLLT and the NLLT during the planning week prior to the start of the Year 2 school year. All implementation indicators will utilize KY PERKS and field recommendations and criteria.

2. Aligned Curriculum

Literacy Plan Component	District Actions	Evidence
Aligned	Todd County Schools will: 1. Adopt a KAS-driven Curriculum Architecturesee below. This Architecture is organized to be cohesive across all	The following evidence will be used for progress monitoring the grant implementation. Data

Curriculum

grade levels and subject areas and is designed to give students multiple opportunities to practice thinking work to the rigor of KAS about all types of content--English, Social Studies, and Science. Because all students will be practicing the same standards quarterly, teachers and schools have the opportunity for scoring calibration, collegial instructional support, and data-driven inquiry.

- 2. Implement literacy strategies learned through a Kentucky preferred provider in Year 2.
- 3. Adopt data-driven PLC cycles to review the formative assessment data weekly among teachers, monthly among the DLLT, and quarterly among the NLLT.
- 4. Within the data-driven inquiry cycles, teachers will follow a PLC cycle approved by the SBDM and presented to the local Board of Education. This repeated cycle of intentional planning of instruction targeted at students' reading, writing, speaking, and listening across disciplines will serve as professional learning, intervention and assessment alignment, and resource allocation review.
- 5. Early childhood providers implement early literacy strategies based on KYES and back mapped from KAS Kindergarten standards.
- 6. The NLLT will assign an academic liaison between early childhood and the school district. This committee will ensure that there is alignment between the KAS Curriculum Architecture and KY Early Childhood Standards. In addition, this committee will be responsible for coordinating and aligning collaboration, planning, and training of teachers, staff, and community members.

includes, but is not limited to:

- The district's Comprehensive Improvement Plan
- Each school's Comprehensive School Improvement Plan
- The District's Literacy Plan
- Each school's literacy Improvement Plan (PERKS)
- School Professional Learning Plans--site and individual
- District's KAS Curriculum Architecture maps and documents
- Interim data (Star and Cert)
- Student summative data (KAS Assessment, ACT)
- Teacher learning tracked through professional learning logs
- Tracking sheets and KAS rubric scores for students' literacy gains
- District sets of student work for each unit of instruction on the Literacy Plan
- DLLT meeting minutes
- Other documents tbd: i.e., minutes, progress monitoring documents, collaborator documents...

Implementation Indicators

Implementation indicators will be established by the DLLT and the NLLT during the planning week prior to the start of the Year 2 school year. All implementation indicators will utilize KY PERKS and field recommendations and criteria.

A) Todd County Schools KAS Curriculum Architecture

	Q1	Q2	Q3	Q4
Theme	Connections (Context)	Comparisons	Perspectives	Evaluations
KAS Goal Standard	R2: Students will determine evidence, including summ	opment; cite specific textual ions drawn from the text.		
KAS Common Literacy Focus Standard	R3: Students will analyze how and why individuals, events, and ideas develop and interact over the course of a text.	why individuals, and ideas develop eract over the content presented in print/non-print forms of text found in diverse shape the content and		R8: Students will delineate and evaluate the argument, specific claims, and evidence in a text, assessing the validity, reasoning, relevance and sufficiency.
		ELA / English		
Disciplinary Focus	Analyze Development and Interaction of Characters and Story Elements	Analyze How Textual Elements Produce Meaning or Effect (with comparison across texts in some grade levels)	Analyze Point of View or Purpose	Evaluate Arguments
ELA Product	Literary Analysis	Comparative Rhetorical Analysis	Literary or Rhetorical Analysis	Evaluation
Text Type	Literature	Literature or Literary Non-Fiction	Literature or Literary Non-Fiction	Literary Non-Fiction
Writing Mode/ Standard	l/E	I/E	Arg	Arg
		Science		
Disciplinary Focus	Plan and Conduct Observations or Experiments	Interpret and Integrate Diverse Media to Research a Topic	n/a	Evaluate the Argument in a Scientific Text
Science Product	Lab Report	Poster Presentation or Infographic	None	Scientific Analysis or Literature Review
Text Type	Data from Observations or Experiments, Informational Text	Texts of Diverse Media and Format, e.g., Charts, Graphs, Images, Maps, Models	n/a	Scientific Arguments, e.g., Predictions, Proposals, Engineering Designs, etc.

¹ For 6-12 ELA, R4 may be substituted; the product will change to a literary or rhetorical analysis rather than a comparative analysis.

Writing Mode	I/E	Arg	n/a	I/E		
	Social Studies					
Disciplinary Focus	Causation	Interpret and Integrate Diverse Media to Research a Topic	Analyze Point of View/Perspective in Sources	n/a		
Social Studies Product	Causal Analysis	Multimedia Research Report	Primary/Secondary Source Analysis	None		
Text Type	Primary and Secondary Sources	Maps, Photos, Timelines, Political Cartoons, Informational Text	Primary and/or Secondary Sources	n/a		
Writing Mode	Arg	l/E	l/E	n/a		

B) Literacy Units Overview

Literacy units overview offer *at least* 2-4 writing assignments per grade level (K-12) in English, Social Studies, and Science and add scaffolded rigor to any curriculum in any scope and sequence. These assignments require discipline-specific reading instruction based on Kentucky Academic Standards pairs, student and teacher self-reflections, and targeted discipline-specific writing instruction (for informative/explanatory or argumentative writing).

Each unit will include:

- Assessment: a KAS standards-driven, writing-in-response-to-reading task that calls on students to write an authentic disciplinary product
- KAS Standards Focus Cluster: one reading, one writing, and one content standard are highlighted and provide the focus for the task and instruction
- Texts: copies of the grade level complex text/s needed to respond to the task (including the primary text/s and any supporting text/s needed for background knowledge)

- Enduring Skills: the list of enduring, disciplinary skills students will acquire in order to complete the task
- Instructional Plans: detailed instructional plans and activities to support students in acquiring the assignment's skills
- Handouts and Resources: all handouts and resources that will be used throughout the instruction.
- Product Example: a complete, grade-level appropriate writing sample that teachers and students can use to understand the features of the assignment

C) Assessment & Calibration Rubrics

Rubrics: normed and calibrated rubrics are adaptable so educators can select specific rows, combine specific rows from several rubrics, or use an entire rubric. All assignments feature the following rubrics, as applicable:

- Argumentative Writing Rubrics
- Informational Writing Rubrics
- NGSS Science Disciplinary Rubrics
- C3 Social Studies Disciplinary Rubrics
- CCSS Reading Standards Rubrics

3.Instruction & Intervention

Literacy Plan Component	District Actions	Evidence
Instruction & Intervention	Todd County Schools will: 1. Implement a Kentucky preferred provider training in English, Science, and Social Studies.	The following evidence will be used for progress monitoring the grant implementation. Data includes, but is not
	2. The Elementary literacy instructional program will actively engage all students by using effective, varied, and research-based practices to improve student academic performance through a 90 minute literacy block using the 5 components of literacy.	Imited to: The district's Comprehensive Improvement Plan
	 Intermediate elementary and secondary school's literacy instructional program will actively engage all students by using effective, varied, and research-based practices to improve student academic performance. All content area teachers are expected to address the core standard of the KAS ELA R2 standard in each unit. Writing proficiencies are monitored quarterly grades K-12 	 Each school's Comprehensive School Improvement Plan The District's Literacy Plan Each school's Literacy Plan

	through the PLC process. 5. Implement the reading log system for Birth through age 5. (See description below) a. The NLLT will make these resources (books, logs, etc.)	 Student formative data from analyzing common assessments and other pertinent assignments Student interim data
	available to early childhood providers and families as part of this grant. 6. Assign a project manager to manage book acquisition and	(STAR and Cert) Student summative data
	 Assign a project manager to manage book acquisition and professional learning log sheets, training, and data monitoring. 	(KSA Assessment and ACT)
	Tier I interventions will be addressed through normal classroom instruction.	School Professional Learning Plansschools and individual
	Tier II and Tier III Reading intervention instruction will be offered to identified students K-12.	District's KAS Curriculum Architecture maps and documents
		Tracking sheets and KAS rubric scores for students' literacy gains
		Student assignments for each unit on the Literacy Plan
		Reading logs
		DLLT meeting minutes
		Other documents tbd: i.e., minutes, progress monitoring documents, collaborator documents
Implementation Indicators	Implementation indicators will be established by the DLLT and the week prior to the start of the Year 2 school year. All implementative PERKS and field recommendations and criteria.	

A) Birth-Age 5 Early Literacy

In all the research and practitioner data around changing the landscape of communities and schools, one thing is clear beyond a doubt. Children who have language-rich lives from Birth to school age are better prepared for school, more likely to be on-level readers by the critical stage at the end of 1st grade and are mostly likely

to be on grade level by the all-important bridge between the end-of-3rd grade and transition into 4th grade.2

Thus, Todd County will adopt a simple solution--ensure that all children entering school for kindergarten have exposure to high quality early literacy instruction through staff and parent training with a focus on language and vocabulary skills and have ongoing access to age appropriate books. Book logs and goal setting will be used to increase exposure to books across settings. This foundation, aligned with KYECS and the Head Start Child Development and Early Learning Framework, will ensure that those children are best and fully prepared to tackle school-based challenges and be successful building toward rich and productive lives as active, engaged citizens.

4. Professional Learning

Literacy Plan Component	District Actions	Evidence
Professional Learning	Todd County Schools will: 1. Implement data-driven inquiry cycles through PLCs with classroom teachers, instructional leaders, literacy specialists, support staff, ICT and SPED teachers, and admins.	The following evidence will be used for progress monitoring the grant implementation. Data includes, but is not limited to:
	2. PLCs will meet weekly for each grade level team and yearly for vertical teams to conduct data review, student work analysis. Focus on explicit, comprehensive literacy instruction that includes reading, writing, speaking, and listening means across and between different content areas and grade level progressions.	 The district's Comprehensive Improvement Plan Each school's Comprehensive School Improvement Plan
	 Each PLC designated cycle will begin with one member's description following a protocol of a student piece of work and questions/ learnings arising from that work. Within the data-driven inquiry cycles, teachers will follow the PLC cycle. This repeated cycle of intentional 	 The District's Literacy Plan Each school's Literacy Plan Professional Development Plansschool and individual for teachers from schools

² Trelease, J. (2013). *The read-aloud handbook*. Penguin.

- planning of instruction targeted at students' reading, writing, speaking, and listening across disciplines ensures that teachers have time to analyze student work, reflect on and evaluate the efficacy of instruction and intervention, and plan for improved instruction, interventions, and targeted differentiation.
- 5. This collaborative process will also ensure that each member of PLCs has the chance to share expertise, learn from others, and model for others. In addition, because all learning is centered on student work, and implications for instruction and intervention following student work results, all work is necessarily job embedded. Learning comes from the work teachers do daily, in combination with transparency around data, success, and areas of growth.
- 6. PLCs will adopt common:
 - a. Instructional Cycle Protocols: ongoing agendas and meeting protocols to support educator growth and reflection for each writing assignment instructional cycle
 - Student Work and Data Cycles: cycles to support individual and group analysis of student work and the subsequent differentiation required because of that student work analysis
- 7. All PLC members will participate in the following professional learning. Self-pacing and mastery format support continuous, individualized professional growth.
 - a. *Curriculum Training:* Kentucky preferred provider literacy training designed to support teachers in recognizing standards-aligned, authentic to the discipline writing assignment tasks and instruction.
 - b. Student Work Rubric Calibration: collaboration with KDE on developing student work rubrics that support educators in calibrating their writing rubric scores to the scores of other educators using authentic student work samples.
- 8. Representative educators will attend national & statewide Institutes as follows:
 - a. Content Literacy Academies: Academies will be conducted throughout the year with a Kentucky preferred provider that supports educators in distinguishing between writing in the disciplines and writing across the curriculum in ELA, Social Studies, and Science.
 - b. Student Work: rubric calibration and real-time student work analysis support

- and education providers
- PD Attendance Logs
- Formative data collection designed in each unit
- Student interim data (STAR and CERT)
- Student summative data (KSA Assessment and ACT)
- Tracking sheets and KAS rubric scores for students' literacy gains
- District sets of student work for each unit on the Literacy Plan
- DLLT meeting minutes
- Professional Learning Logs
- Other documents tbd: i.e., minutes, progress monitoring documents, collaborator documents...

	 c. Student Work: real-time student work analysis through PLCs 9. Early childhood staff will attend training offered by a Kentucky preferred provider and the Regional Training Center. Using information gleaned from these training, early childhood staff will focus on best practices in read-aloud, explicit instruction for shared reading, best practices for oral reading comprehension support including questions, modeling, acting and voice intonation. This information will be shared with families.
Implementation Indicators	Implementation indicators will be established by the DLLT and the NLLT during the planning week prior to the start of the Year 2 school year. All implementation indicators will utilize KY PERKS and field recommendations and criteria.

A) Professional Learning Hour Breakdown by Cohort

5. Literate Environment

Literacy Plan Component	District Actions	Evidence
Literate Environment	 Todd County Schools will: Ensure each classroom for children 0-5 has access to high quality books and e-books appropriate for readaloudin schools, early childhood centers, libraries, doctor's offices, and other sites for Birth to age 5 children. Provide training for early childhood staff and families in best practices in read-aloud and reading comprehension during read aloud (i.e., questioning, word play). NLLT will establish a marketing campaign to promote literacy in Todd County targeting all children ages birth to grade 12. Utilize national resources, such as the <u>Campaign for Grade Level Reading</u> or the family toolkits available at <u>Read by 4th</u> to join the national effort to ensure every child is reading on grade level by the end of 3rd grade. The NLLT will make these resources available to early childhood providers and families as part of this grant. Early childhood classrooms will be set up as language labs-with language play, knowledge, and acquisition as the core. All early childhood support will be aligned to KYECS and the Head Start Child Development and Early Learning Framework. 	The following evidence will be used for progress monitoring the grant implementation. Data includes, but is not limited to: The district's Comprehensive Improvement Plan Each school's Comprehensive School Improvement Plan The District Literacy Plan Each school's Literacy Plan Professional Learning Logs # of books and e-books purchased/provided Quantity and type of training provided Quantity and type of materials disseminated Student writing samples/proficiencies DLLT meeting minutes Other documents tbd: i.e., minutes, progress monitoring documents, collaborator documents
Implementation Indicators	Implementation indicators will be established by the DLLT and week prior to the start of the Year 2 school year. All implement PERKS and field recommendations and criteria.	

6.Multiple Assessments

Literacy Plan Component	District Actions	Evidence
Multiple Assessments	Todd County Schools will: Rubrics are used to measure student assignments. Calibration with KDE (Secondary level) will be held in the fall of 2022. Teachers will ensure curriculum-embedded formative	The following evidence will be used for progress monitoring the grant implementation. Data includes, but is not limited to:
	assessments are included in units. Curriculum-embedded assessments add the additional benefit of providing ongoing daily data.	The district's Comprehensive Improvement Plan
	3. PLCs are charged with monitoring formative assessment data.4. In addition, intervention coaches sit on the DLLT and will	Each school's Comprehensive School Improvement Plan

Implementation
Indicators

Implementation indicators will be established by the DLLT and the NLLT during the planning week prior to the start of the Year 2 school year. All implementation indicators will utilize KY PERKS and field recommendations and criteria.

7.Partnerships

Literacy Plan Component	District Actions	Evidence
Partnerships	 Todd County Schools will: Partner with early childhood providers and community organizations to implement the reading log system. The NLLT collaborates to ensure implementation fidelity, collaboration, and progress monitoring. NLLT collaborates for marketing, training, and materials dissemination to families, homes, early childhood centers, doctor's offices, faith-based organizations, and no-profits. Through the NLLT, share successes and challenges in building book listeners, and strategize for ongoing continuous improvement of the system. Recommend family members for the NLLT and/or NLLT sub-committees to ensure family and community involvement. Provide information, training, and community building activities throughout the year to ensure family involvement in building book readers and listeners, and to message commitment to the entire county. Encourage common use of national tools such as those provided by the <u>Campaign for Grade Level Reading</u> or the family toolkits available at <u>Read by 4th</u>. The NLLT will make these resources available to early childhood providers and families as part of this grant. The DLLT will encourage other community organizations such as Rotary, service groups, Chambers of Commerce, town council to become involved in the NLLT. 	The following evidence will be used for progress monitoring the grant implementation. Data includes, but is not limited to: The district's Comprehensive Improvement Plan Each site's Comprehensive School Improvement Plan The District Literacy Plan Each school's Literacy Plan Websites: school, district, partner DLLT meeting minutes NLLT membership lists NLLT book list collaboration Training materials Communication materials, including fliers, pamphlets, emails, webpages Reading log sheets # books and ebooks acquired Other documents tbd: i.e., minutes, progress monitoring documents, collaborator documents
