

## ESTILL COUNTY SCHOOL SYSTEM

### SBDM/Request for Resources

Please complete the following form giving a brief narrative description/explanation to justify the request (s) and explain how the request (s) supports or connects to your school's Comprehensive Improvement Plan. Attach additional sheets as necessary.

Submit completed form to the Superintendent/Designee no later than April 15<sup>th</sup> of the upcoming school year.

School Making Request: Estill County High School Date of Request: 4-11-22

Name and Title of Person Making Request: Josh Yost, Principal

#### 1. REQUEST FOR TEACHERS

Number of Teachers Requested: 2 Reason for request: We need Art and Foreign Language positions to round out our curriculum offerings.

Explain how this connects to your school's current Comprehensive Improvement Plan:

Providing these courses allows required humanities courses for graduation as well as Foreign Language for a pre-college curriculum.

#### 2. REQUEST FOR INSTRUCTIONAL ASSISTANTS

Number Requested: \_\_\_\_\_ Reason for request: \_\_\_\_\_

Explain how this connects to your school's current Comprehensive Improvement Plan:

#### 3. REQUEST FOR OTHER STAFF

List Staff Requested (Such as Custodians) \_\_\_\_\_ Number Requested: \_\_\_\_\_

Reason for request: \_\_\_\_\_

Explain how this connects to your school's current Comprehensive Improvement Plan:

#### 4. OTHER REQUESTS (i.e. Instructional Resources/Programs, Equipment, Maintenance)

Reason for request: \$6,000 to provide Dual Credit Biology and US History classes through Morehead State University.

Explain how this connects to your school's current Comprehensive Improvement Plan:

This will allow us to help students have increased avenues to reach academic readiness as ECHS graduates.

See attached page.

## ECHS SBDM Request Attachment

### 4. Other Requests- Instructional Resources

ECHS would like to request that the interactive screens demonstrated by Virtual Technologies at a meeting with Mr. Simpson and district leadership be purchased for each of our classrooms. Technology for teachers has not been upgraded since the Smartboards were put into classrooms during the last renovation of the high school, approximately 15 years ago. Many of the existing Smart Boards no longer function correctly as the company does not provide updates for their product any longer, and projector bulbs burn out quickly and are expensive to replace. The interactive functions of the screen/computer demonstrated by Virtual Technologies has the ability to have interactive instruction going on in every classroom to better engage students and give teachers the tools they need to provide dynamic instruction in their classrooms for all students. These interactive boards also have a 10 year+ lifespan. Mr. Simpson said the cost would be roughly \$3000 per screen, but he is getting a quote for what it would cost for the school.

If it is not possible for each classroom to have them for next year, being able to purchase them for our core subjects (a total of 19) would be a tremendous help in upgrading the technology for our subjects that are assessed through the ACT and the KSA state testing.
