RE: Landscaping Project at Central Office
April Board Agenda Items

I am requesting the Board's approval for the removal of all the current landscaping in front of the Central Office Building. We have partnered with Bullitt Central High Schools Agriculture Department to replace the landscaping with a modern look for easy maintenance, moving forward. BCPS Maintenance Department will be in charge of all the demolishing/ removal of current landscaping. We are excited to form a partnership with the students at Bullitt Central High School and allow this hands-on learning opportunity.

Estimated completion time is approximately 2 weeks, pending weather conditions. Funding for this project will be from the Support Service budget.

Please let me know should you have additional questions.
