

Congratulations to Sydney Putnam for being chosen to attend the Governor's School for Entrepreneurship. Sydney is a freshman at GCHS.

GSE is a three-week program designed to allow high school students to enhance their natural entrepreneurial tendencies. Students are grouped into teams and challenged to design a new or improved product or service. They write business plans and pitch their ideas to a panel of judges. Sydney is excited to combine her love for science with business. She would like to focus on creating sustainable products that benefit both consumers and the environment. Her new adventure begins this summer at Northern Kentucky University. Congratulations Sydney!
