

Redrawing of School Board Member Divisions

Jefferson County Board of Education

April 26, 2022

Overview

Background:

- After 2020 Census, the General Assembly adjusted legislative and Congressional district boundaries (January 2022)
- After action by the General Assembly, the Jefferson County Board of Elections redrew and created new precincts (March 2022)
- JCBOE required by KRS 160.210 to redraw divisions to comply with new precinct boundaries and to be as “equal in population insofar as is practical” (April 2022)

► BOARD ZONE REDISTRICTING: PROCESS

1. Initial Assessment

1. How do the existing zones look with 2020 Census data?

2. Redistricting Scenarios

1. How can we adjust the existing zones to achieve balance?

3. Board Action

► CONSIDERATIONS FOR REDRAWING BOARD ZONES

Each division shall be drawn to be as "equal in population... insofar as is practical"

Drawn to comply with the Federal Voting Rights Act

Drawn to be contiguous

If possible, prevent situation of more than one current board member residing in the same division

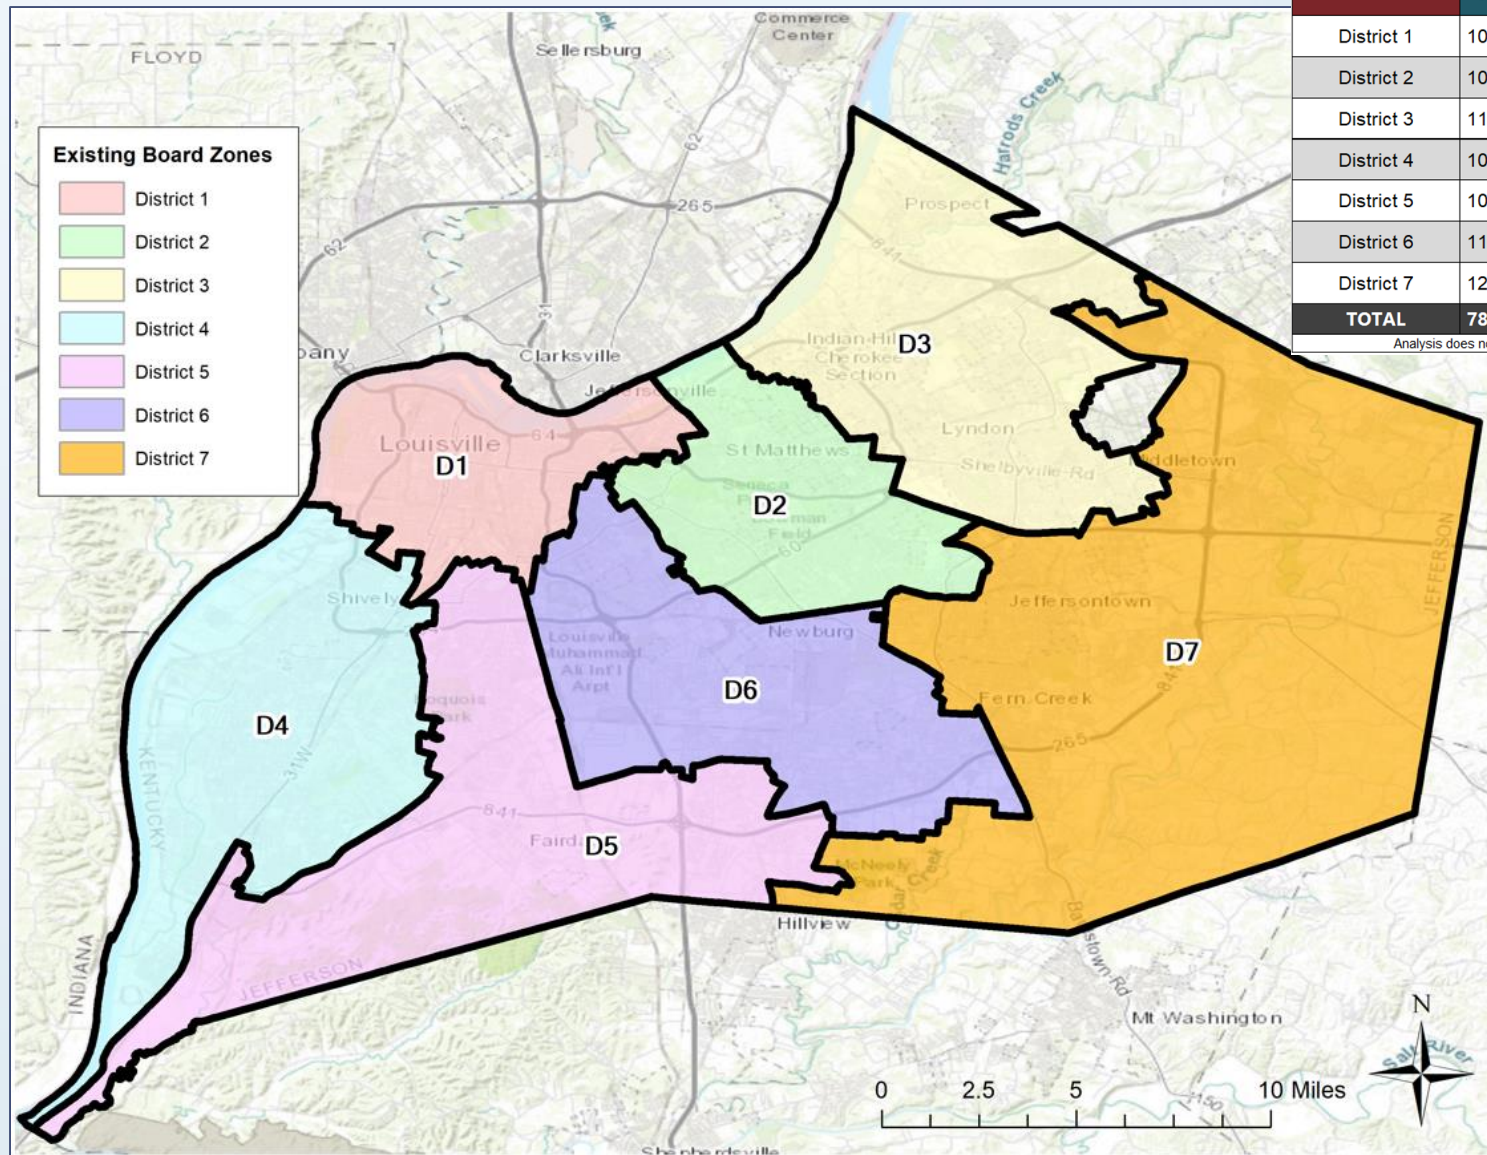

Respect the schools & facilities that each member represents, as much as possible

Ensure School Board Divisions comply with new precincts created by the Board of Elections
