

Whole Latte Love Teacher of the Month
May 2022

Emily Lawson

Mrs. Lawson is an amazingly talented gifted education teacher. She goes out of her way to get to know her students' strengths and interests and to provide opportunities and experiences to support their growth in these areas. She works extremely hard to do things with her students that would not be possible without the GT program. Her students have learned to sew on sewing machines, code on the computer, produce items in 3D printers, design circuits on circuit boards, and use clues to solve difficult mysteries and challenges.

Mrs. Lawson is determined to identify every student she possibly can who might benefit from the GT program. This year, with the help of her district committee, she identified students in dance, music, drama, visual arts, leadership, and primary talent pool! We have been very blessed to have Mrs. Lawson supporting our gifted and talented students and their teachers for the past four years. She is awesome!
