

**Curriculum, Instruction, and Assessment  
Board Agenda  
Wednesday, May 18, 2022**

**PROFESSIONAL DEVELOPMENT**

- Teachers will receive 6 professional learning hours this summer for meeting as a department or grade level and revising and updating curriculum documents.
- A focus for the summer learning will be vocabulary and creating a guaranteed, viable curriculum in which specific vocabulary is covered in each grade level/class. We will use Marzano's vocabulary as a guide throughout this process.

**ASSESSMENT**

- LES and DHS completed the KSA assessment last week. We still have a few make up tests to give this week. Hopefully all testing will be finished by Friday.
- We have signed up for the District ACT again next year. We will take the ACT online instead of paper/pencil.
- The third round of STAR testing has been completed at both buildings.

**FEDERAL PROGRAMS**

- Declaration of Participations were due for Title II, III, and IV.
- I have been in contact with the private school principals about Title I funds.
