Bacon Farmer Workman Engineering & Testing, Inc. (BFW) is pleased to provide you with a proposal for Structural Design Services as requested.

SHELTER PEER REVIEW

LUMP SUM OF \$9,000.00

Description:

- This project includes an ICC 500-14 rated storm shelter which will have a footprint of approximately 13,750 square feet and the height will be approximately 32'. The shelter will be constructed of precast concrete walls and with precast concrete tee roof structure.

Design Scope:

- Review the contract documents for compliance with Chapters 3, 5, 6, and 7 of the ICC 500-14.
- Provide a signed and sealed report stating compliance or noncompliance. If found noncompliant, provide recommendations for modifications necessary for compliance.

Exclusions:

- Design and drawings of modifications, if any, required for compliance.
- Additional review of revised drawings if the original drawings were found to be noncompliant.

Deliverables will be provided in Portable Document Format (PDF) and stamped by a Structural Engineer. Thank you for this opportunity and we look forward to working with you on this project.

Regards,

Christopher M. Whiting, PE, SE
Professional Structural Engineer
