NEW OLD MILL ELEMENTARY SCHOOL – CONSTRUCTION UPDATE

OVERALL SCHEDULE UPDATE:

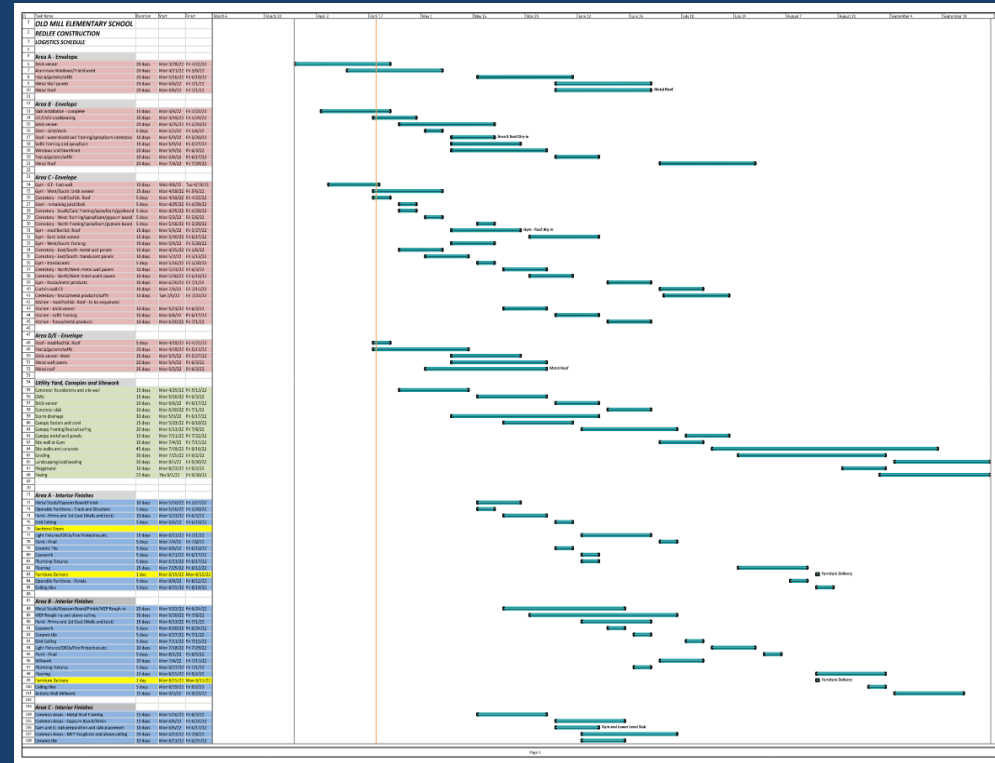

Substantial Completion is still anticipated on September 30, 2022 (after the gym floor installation is complete).

- Gym floor slab was poured on Friday.
- Monday (today) the metal roof installation will begin.
- No change on switchgear delivery date - No updates from supplier – June 17th.
 - Tempered air will be the next major hurdle for interior construction to commence.*

A follow-up meeting between BCPS and Redlee has not yet been scheduled to discuss contract changes to the Substantial Complete Date.

The noted substantial completion date in the contract with the Contractor is June 1, 2022 (next Wednesday).

Prior to that date – does the Board approve of the Design Team initiating a discussion with Redlee to establish a new substantial completion date via a change order to the contract and discuss how liquidated damages may be enforced relative to this new date?
