Section 12(n) to the NSLA (42 USC 1160(n)), requiring school food authorities (SFA5) to purchase, to the maximum extent practicable, domestic commodity or product.

- "Domestic Commodity or Producer are defined as an agricultural commodity that is produced in the United States and a food product that is processed in the United States using substantial agricultural commodities that are produced in the United States.

"Substantial" means that over 51 percent of the final processed product consists of agricultural commodities that were grown domestically.

Products from Guam, American Samoa, Virgin Islands, Puerto Rico, and the Northern Mariana Islands are allowed under this provision as territories of the United States.

The Buy American provision (7 CFR Part 210.21(d)) is one of the procurement standards SFAs must comply with when purchasing commercial food products served in the school meals programs.

Domestic commodity or product means an agricultural commodity that is produced in the US and a food product that is processed in the US substantially (at least 51 percent) using agricultural commodities that are produced in the US.

2. Competitive proposals reveal the cost of a domestic product is significantly higher than a non-domestic product.

ALL products that are normally purchased by Distributor as non-domestic and proposed as part of this solicitation must be identified with the country of origin. Distributor shall outline their procedures to notify School when products are purchased as non-domestic. Any substitution of a non-domestic product for a domestic product (which was originally a part of the solicitation), must be approved, in writing, by the Food Service Director, prior to the delivery of the product to the School. Any non-domestic product delivered to the School, without the prior, written approval of the Food Service Director, will be rejected.

Distributor must affirm their willingness to assert their best and reasonable efforts to ensure compliance with this federal rule.

- The contractor must separately identify for each cost submitted for payment to the school food authority the amount of that cost that is allowable (can be paid from the nonprofit school food service account) and the amount that is unallowable (cannot be paid from the nonprofit school food service account);

or

- The contractor's determination of its allowable costs must be made in compliance with the applicable Departmental and Program regulations and Office of Management and Budget cost circulars;

- The contractor must identify the amount of each discount, rebate and other applicable credit on bills and invoices presented to the school food authority for payment and individually identify the amount as a discount, rebate, or in the case of other applicable credits, the nature of the credit. If approved by the State agency, the school food authority may permit the contractor to report this information on a less frequent basis than monthly, but no less frequently than annually;
- The contractor must identify the method by which it will report discounts, rebates and other applicable credits allocable to the contract that are not reported prior to conclusion of the contract; and
- The contractor must maintain documentation of costs and discounts, rebates and other applicable credits, and must furnish such documentation upon request to the school food authority, the State agency, or the Department.
- Prohibited expenditures. No expenditure may be made from the nonprofit school food service account for any cost resulting from a cost reimbursable contract that fails to include the requirements of this section, nor may any expenditure be made from the nonprofit school food service account that permits or results in the contractor receiving payments in excess of the contractor's actual, net allowable costs.
