Memo to the NKCES Board

Regional School Programs request approval of an updated job description for the position of “Custodian” which includes an increase in the number of contracted days from 182 to 215. An increase in days will allow the custodial position to work during periods of time when school is not in session, allowing a more appropriate opportunity for the duties of the job to be fulfilled.

The following change is being proposed for the RSP Custodian Position:

- Increase contracted days for the job description of “Custodian” to 215 days per contract year
