GCHS athletic department would like to request permission to pursue seeking new scoreboards for both the baseball and softball programs. The existing scoreboards have been in place since the athletic fields have been established and are not in good working order. Maintenance has attempted to make repairs repeatedly on the existing boards and due to parts no longer being available, repairs have been difficult to maintain.

We would like to work through Electro-Mech Scoreboard Company, which is where our football/soccer and basketball/volleyball boards were purchased. We have an existing relationship with them. This company will work to meet with a committee consisting of the high school principal, athletic director, baseball and softball head coaches and maintenance electrician to choose scoreboards that are cost effective, yet meet the needs of the programs. Electro-Mech will then seek donations on behalf of Gallatin County High School to secure the cost of the scoreboards and at no cost to the school.
