If the student, after reviewing the Superintendent's response, desires direct communication with the Board of Education, the student may present his/her written communication to the Superintendent for transmittal to the Board of Education, or notify the Superintendent ten (10) days prior to the meeting of the Board at which the student wishes the grievance presented. Students contacting Board members individually about a grievance will be advised to communicate with the entire Board.
2. If the Board decides to review the grievance, the student is given an opportunity to appear before the Board at the next regular meeting for relevant discussion of the student's communication. If the student does not wish to make a verbal presentation, the student's right to refrain from such activity will be respected.
3. The Superintendent or the grievant will present the communication to the Board of Education at its next regularly scheduled meeting.

3. Requires one dose of meningococcal (meningitis) vaccine for 6th grade entry for students 11-12 years of age or older.
4. Requires second dose of varicella (chicken pox) vaccine for 6th grade entry. (This applies to students who have not had the 2nd dose of Varicella according to the new guidelines at ages 4-6 years old.) Varicella series must be documented on the immunization certificate.

These items must be completed and a proper certificate for each item submitted to the school principal on the opening day of school. Correct forms are available at the Health Department, Floyd County School's website (www.floyd.kyschools.us) or at your private physician's office. Medical examinations and birth certificate applications are available at the Floyd County Board of Education.

Admission to High School

A student will be admitted to high school when that student has completed the elementary and middle school program of studies and has received a certificate of completion from a public, private, or parochial school signed by the administrator or teacher under whom the program was completed.

Also, a Td (tetanus diphtheria) immunization is normally given at thirteen years of age and is needed at the high school level (due ten years after the last DTP immunization). All immunization dates must be listed in order for the certificate to be valid.

Transfer Students

All transfer students seeking to enroll in the Floyd County Schools must provide the documents listed below to be enrolled.

1. A Kentucky Immunization Certificate
2. A Medical Examination on a KDE approved form
3. Proof of guardianship
4. Proof of residence
5. Official records from previous school

Students who transfer to Floyd County Schools from a home school or other non-accredited school will be assigned to the class or grade best suited for the student. This assignment may be based upon tests administered to the student by school personnel to determine grade placement or course credit. Previous credits earned by a student in a non-accredited secondary school will be awarded by the local school district by one (1) of the two (2) following methods:

- a. Pass an examination of similar nature and content to the examination used for other students receiving credit for a particular course within the school district
- b. Successful performance of the student in a higher level of the course when the courses are sequential in nature such as English, Mathematics, History and Science. Successful performance shall consist of achieving at least a C grade in the course by the 12th week of school.

*Transcripts will be updated within 30 days of enrollment to reflect current high school's GPA value. Floyd County transcript will reflect the grading scale determined by school based decision making council with specific high school to be used for official transcripts and class ranking.

General Information

Textbooks

Each school **The Superintendent** develops a plan to provide textbooks and instructional materials. Textbooks and instructional materials will be made available to all students. Students or parents will compensate the district for textbooks that are lost, damaged, or destroyed while assigned to the student.

Food Service

Nutrition in Floyd County Schools is provided and regulated in compliance with national, state and local guidelines. Standards for students' meals and snacks have been set to encourage healthy eating habits. Detailed information concerning specific guidelines is available to parents/guardians, staff, and students at each school.

Volunteers

Volunteers in Floyd County Schools provide important services that support school and district programs. Those interested in volunteering their time must meet certain qualifications and agree to abide by specific expectations. Principals and/or school councils will determine the need for volunteers. Those interested in participating in the volunteer program should contact principals or their designees.

Volunteers are expected to serve as positive role models for students thereby helping them develop a more positive attitude toward themselves, their schoolwork, and their fellow students; to support instructional staff by freeing them from certain tasks in order to allow them more time to

work directly with students; to respect school and district policies while always working under the direction of a principal or teacher; and exhibit ethical behavior, including compliance with all requirements concerning confidentiality.

Qualifications for specific duties will vary but volunteers should enjoy working with children and be able to relate to them in a positive manner. Volunteers should be patient, respectful, cheerful, and willing to follow directions. Requirements prior to beginning work include a criminal records check and attendance at an orientation session on policies and general guidelines of the volunteer program.

The District will conduct a state criminal records check and CAN check on all volunteers who have contact with students on a regularly scheduled and/or continuing basis, or who have supervisory responsibilities for students on a school site or on school-sponsored trips. Applicants with certain convictions shall not be authorized to volunteer.

Floyd County Career and Transition Process

Beginning in the sixth grade, Individual Learning Plans (ILPs) are utilized to coordinate student studies leading toward a career path. A variety of assessments and instructional activities are designed to provide students with guidance that will lead to a successful transition to adult life.

Vocational instructional programs do not discriminate on the basis of race, color, national origin, age, religion, marital status, sex, or handicap.

Citizenship Assessment

In 2017, the Kentucky General Assembly passed Senate Bill 159. The law reads that beginning in July 2018, a student must pass a civics test composed of 100 questions in order to graduate from a public high school with a regular diploma. Students are required to score 60% or higher and may retake the exam as many times as deemed necessary to pass the test.

Pre-College Curriculum

The Council on Higher Education has adopted a Pre-College Curriculum, which establishes the minimum pre-college preparation of students prior to admission to a public university in Kentucky. In addition to the pre-college curriculum, students are required to have completed high school and to have taken the ACT. The number of units required in the pre-college curriculum is the same as the number for high school graduation, but certain courses in the four basic areas are required. Consult with your school's guidance counselor for specific graduation year requirements.

In the event a student does not follow the Pre-College Curriculum, there are several options for admission to college. A student may be admitted to any of Kentucky's community colleges without having a minimum score on a college entrance examination. Each university has the discretion of allowing up to twenty percent of the entering freshman class to be admitted without having followed the program. Additionally, each university may set entrance criteria beyond the Pre-College Curriculum.

Dual Credit Secondary Level

Students enrolled in secondary dual credit courses must pay college tuition to the post-secondary institution. Students must consult with the counselor for complete program requirements before enrolling in college courses. Students will receive high school and college credit upon successful completion of the program.

Middle Level

Middle Level students enrolled in secondary courses will receive both middle and secondary credit upon successful completion **if the students demonstrate mastery of the middle level content** as specified in the *Program of Studies* before enrolling in the high school course. The following criteria also must be met:

- the content of the course offered at the middle level is the same as that defined in the *Program of Studies* for the high school course;
- the district has criteria in place to make reasonable determination that the middle level students are capable of success in the high school course; and
- the middle level course is taught by teachers with either secondary or middle level certification with the appropriate content specialization.

Early Graduation

The Early Graduation regulation is a result of Senate Bill 61 (2013) and is a companion to Senate Bill 97 (2013). To summarize the regulation, beginning in 2014-2015, Early Graduation will be possible for students who intend to move on an accelerated timeline through high school and graduate college ready before the typical four years of high school or age 18.

Student Progress

Student Assessments

In Floyd County Schools, assessments are used not only to assess student progress toward Proficiency and College and Career Readiness, but also to improve instruction. Teachers use the results of all tests to guide instruction and provide individual learning in their classrooms. Students are assessed formatively each day as a regular part of instruction. Formative instructional strategies are those that allow a teacher to quickly assess what students know, revise their instruction, and teach students what they have not yet mastered. Summative assessments are those that students take at the end of a unit of teaching, at the end of a course or semester, or at the end of the year. The chart below outlines Kentucky's state assessments, as well as other tests your child will take and when they will take them.

Grading

Grading reports will be issued every grading period. In order to establish a uniform grading system and insure that student work is evaluated on a standardized basis, the Floyd County School System has adopted the grading scale outlined below.

A	95-100	C	73-76
A-	90-94	C-	70-72

The grading scale and process for addressing an 'incomplete' may differ at SBDM schools when school councils adopt a different policy. The method used for computing class rank is determined by SBDM Councils.

Quality points

In order to establish a uniform system for assigning quality point, the Floyd County School system has adopted the equivalent scale outlined below:

A	4.00	C	2.00
A-	3.67	C-	1.67
B+	3.33	D+	1.33

Floyd County Multi-Tiered Support System

Floyd County Schools are committed to providing our students with a variety of opportunities to reach their fullest potential. Multi-Tiered Support System is a system that integrates assessments and intervention within a three-tiered system to maximize student achievement and to reduce behavior problems. With MTSS, schools identify students at risk of not achieving grade level goals, monitor student progress, provide evidenced-based interventions and adjust those interventions based on a student's responsiveness. MTSS is a more comprehensive approach to providing student supports and can incorporate not only the academics of Response to Intervention (RtI), but also behavioral and social and emotional supports. You may view the full MTSS Manual on the Floyd County Board of Education website.

Kentucky Educational Excellence Scholarship (KEES)

The KEES program provides scholarships to students who earn at least a 2.5 GPA each year they attend a certified Kentucky high school. The better they do in high school, the more they earn toward college. They may also earn awards for ACT/SAT scores and Advanced Placement (AP), International Baccalaureate (IB) or Cambridge Advanced International (CAI) test scores. Home school and GED graduates may earn awards based on their ACT scores.

High School Credit Reporting

Board Policy 8.11 requires that high school credit be awarded following successful completion of the course. The final grade for year-long classes will be calculated as follows:

- 1st grading period – 25%
- 2nd grading period – 25%
- 3rd grading period – 25%
- 4th grading period – 25%

The final grade for Block Scheduled Semester classes will be calculated as follows:

- 1st grading period – 50%
- 2nd grading period – 50%

Promotion and Retention

Each school will determine criteria for student progress through the school's program. The criteria will reflect mastery of curriculum. Successful completion of the primary program, as determined by methods set out in Kentucky Administrative Regulations, is a prerequisite for a child's entrance into the fourth grade.

Parents will be notified when their child is performing below expectations and/or achieving below expected outcomes.

In secondary schools, students will be graded in each subject based upon the student's academic performance as evaluated by the teacher. A student may repeat a course for credit only after receiving a failing grade.

Driver's Permit/License

The Kentucky Cabinet for Transportation in Frankfort requires that students obtain a form from their respective schools verifying and notarizing that they are in good academic standing. Nine (9) unexcused absences or failure to pass four (4) classes each semester or the equivalent of four (4) courses, will result in forfeiture/denial of driving privileges.

No Pass / No Drive

The "No Pass/No Drive" bill (KRS 159.051) is intended to support dropout prevention and to provide an incentive for students to stay in school and pass their courses.

The "No Pass/No Drive" statute results in the denial or revocation of a student's driver's license for academic deficiency, or dropping out of school as a result of excessive or unexcused absences. Academic deficiency is defined as a student who does not have passing grades in at least four courses, or the equivalent of four courses, in the preceding semester. A student is deemed to have dropped out of school when he/she has nine or more unexcused absences in the preceding semester. Any absences due to suspension shall be unexcused absences. Research Commission's web site at the following address:

Floyd County Virtual Academy

The Floyd County School District will introduce the Floyd County Learning Program during the 2021-2022 School Year. The program will service students in grades K-12 that reside within Floyd County or in a neighboring district that Floyd County has a reciprocal agreement. The Virtual Program will be limited to the first 500 students that meet the above criteria as well as other criteria associated with state and local policies and procedures.

Students in grades Kindergarten through 5th grade will receive in-person synchronous instruction from their assigned teacher(s) on a daily basis. Students in grades 6-12 will utilize the APEX Learning platform with the assistance of certified instructors providing synchronous instruction on a daily basis. The Floyd County School District will provide a computer for each individual student as well as any other material needed for successful implementation of the program. Students and families must agree to the Floyd County Schools Acceptable Use Policy. Students should have reliable internet. In the event that reliable internet is not available the District may provide internet if applicable.

The Virtual Learning program is currently designed to assist students that are hesitant to return to school following the COVID-19 Pandemic and will be for the entire 2021-2022 School Year; students may enter and leave the program at the end of a semester. For example, a student that enters the Virtual Program on the first day of the school year, must remain within the program until the end of the first semester.

The Virtual Learning Program expectations are:

- Students must meet standards/academic performance on or above grade level.
- Students must work to meet proficiency benchmarks in reading and mathematics.
- Students must complete all Benchmark Assessments as well as state assessments as outlined by local and state policies and procedures.
- Students must be in compliance with code of conduct and attendance expectations.
- Students must actively participate during live meets and maintain acceptable grades that ensure students are on track to graduate.
- Attendance shall be tracked by certified teachers as required within the Kentucky Board of Education Waiver related to Pupil Attendance.
- Truancy laws shall be followed within the Floyd County Virtual Learning Program. This includes normal absences as well as absences related to loss of Internet.

Note: Students not meeting the standards and requirements addressed within this narrative will be exited from the Floyd County Virtual Learning Program and will need to return to in-person instruction at the school in the attendance area they reside within.

For more information go to the Floyd County School of Innovation website or contact Christina Crase at 285-3634 or stacy.shannon@floyd.kyschools.us

Floyd County Public Schools will provide students a full-time online option. The Floyd County Virtual Academy is designed for students Kindergarten through twelfth grade. Course work is designed to simulate the content and instruction students receive through in-person instruction as closely as possible. The following provides the policies and procedures regarding this program.

Scope and Delivery of the Floyd County Virtual Academy

The Floyd County Virtual Academy will offer a virtual option to students in grades K – 12. To be a full-time student a student must meet specific requirements. The courses are made available through a partnership with a Learning Management System (LMS) that will be approved by the Floyd County Board of Education (K-5) and Apex (6-12) and will include a full Elementary program including all four core courses as well as electives. The Secondary students (6-12 grades) will be offered all core courses, electives, AP, Global Language, and Career and Technical Education courses; everything a student needs to earn a district approved diploma.

Each student will also be assigned to a Facilitator. The Facilitator will work with the student to make sure the student has everything they need to be successful in the courses. The Facilitator will provide important information about the school such as testing dates and locations. **Most Important:** The student is required to meet with the Facilitator either live or on the phone on a weekly basis to go over progress.

Students needing a Multi-Tiered System of Support (MTSS) will receive tiered individualized or small group instruction from either the Facilitator and/or Success Coach. The Success Coach will be a member of the staff at the student's home school that can meet with the student during or after normal school hours to provide the necessary support to close achievement gaps as well as provide scientifically researched intervention strategies.

The notification shall be given as soon as the medical condition becomes known and upon each subsequent enrollment by the student in a school.

Lice Policy

School personnel shall actively pursue the prevention and control of head lice in the District's schools by developing a consistent education, screening and follow-up program for all students. Principals and other designated school personnel trained to identify live lice shall screen students by using the following guidelines:

1. When students are observed/reported to have live head lice any time during the school year:
 - a. Entire classrooms may be checked for live lice as recommended by the Principal. In general, school-wide checks are not necessary.

2. Principals or district personnel shall offer parents of students identified as having live lice:
 - a. Visual evidence of live lice in the student's hair.
 - b. Verbal and/or written information/direction for hair treatment and household procedures.

5. The Superintendent/designee shall:
 - a. Establish education/information programs on head lice control methods for school personnel, community members, students, and parents.

Floyd County Attendance Policy

Students are expected to attend school regularly and on time. The Floyd County Board of Education believes that there is a direct relationship between good attendance and high achievement.

Attendance Regulations

Attendance will be calculated as follows:

- A tardy shall be recorded for a student who is absent less than 35 percent of the regularly – scheduled school day.
- A full day absence shall be recorded for a student who is absent more than 84 percent of the regularly-scheduled school day.
- A half-day absence shall be recorded for a student who is absent 35 percent to 84 percent of the regularly-scheduled school day.

A chart will be located in the office at each school and online at the Floyd County Schools website (www.floyd.kyschools.us) to help determine how a check-in or check-out will be recorded (as a tardy, half-day absence, or full-day absence).

Parents need to send a signed note to school anytime a child is absent - including tardies - within two days of the student returning to school after an absence. A note is required even if the parent noted the reason on the sign-in/out log at the time of check-in or check-out.

Parents are encouraged to keep track of their child's attendance through the **"Parent Portal"** online application (see school office for more details).

Excused Absence from School

Students who are absent from school are required to have a legitimate excuse. Within **two (2)** days of a student's return to school, he/she shall present a written and dated note signed by the parent(s)/guardian(s) or physician explaining the absence. If a note is not received **within two (2) days**, the absence shall be deemed unexcused. **A maximum of four (4) school days per semester may be excused with a signed note from a parent/guardian or doctor.** If there are more than four (4) days excused by a doctor, a form available at the school* must be completed by the doctor and returned for review by school officials. Parents anticipating a student's extended absence (five or more days) should contact the school for information on home/hospital instruction.

*If a student has a chronic or recurring illness that may cause more than 4 absences per semester, there is a doctor's form available to have on file with the school office. The form will only pertain to excuses from the doctor completing the form and will become effective on the date provided (not retroactively).

An excused absence or tardy is one for which work may be made up, such as:

1. Illness of the student;
2. Death or severe illness in the student's immediate family (three (3) days are allowed for the death of one's parent, grandparent, or sibling; one (1) day is allowed for the death of one's aunt, uncle, or cousin. Exceptions for extenuating circumstances may be approved by the Principal/designee);
3. Medical or dental appointments that cannot be made after school.

4. Unexpected Illness – If the school nurse, health aide, or Principal/designee determines that a student should not be in school, this will be considered an excused absence for the remainder of the day and will not be counted against the parent/guardian absence notes;
5. Lice – If the student is sent home, he/she will be excused for the remainder of that day (see the section on Lice for more information);
6. Court summons and subpoenas;
7. Religious Holidays and Practices approved in advance by the principal;
8. Driver's license test or examination;
9. One (1) day for attendance at the Kentucky State Fair; or
10. Other valid reasons as determined by the principal/designee**.

**The principal shall have the authority to grant additional days upon proof being present by a parent/guardian of illness requiring hospitalization, treatment by a doctor, or similar emergencies. With proper documentation, the following excused absences will not count as one of the four (4) parent/guardian/doctor excused days:

1. Court appearance (only for the portion of the day required and with documentation from the court); and/or
2. Driver's permit or license tests (only for the portion of the day required and with documentation from the examiner).

Education Enhancement Opportunities (EHO)

An Educational Enhancement Opportunity is a trip or an activity that may enhance a child's education. Students are allowed up to 10 days of excused absence per year for this purpose. The proposed activity must have *significant educational* value and be related to the core curriculum. To request an Educational Enhancement Opportunity, an application must be filled out and returned to the school principal for approval. This type of absence cannot occur during the school's State Testing or District-Wide assessments, unless there are extenuating circumstances approved by the principal. Decisions may be appealed to the Superintendent and then to the Board of Education.

Unexcused Absence from School

Make-up work shall be required for students with unexcused absences. All credit for Make-up work will be reduced by twenty percent (20%) for students with unexcused absences.

Suspensions

House Bill 43 states that out-of-school suspensions are unexcused absences. Projects or work assigned prior to a suspension and due during the time of suspension shall be accepted for credit. Long-term projects assigned during the suspension and due at a date after the conclusion of the suspension shall be accepted for grading if the work earns a passing grade. Students on suspension will be permitted to attend school to take a nine (9) week exam, and/or a semester/final exam, and required state assessment only during the time of day that the exam or assessment is administered.

Tardiness

1. A student is considered tardy if the student arrives to homeroom, classroom, or assigned area occurs after the designated starting time or leaves school prior to dismissal.
2. The process for determining whether tardiness is excused or unexcused is identical to that for excused and unexcused absences.

Check In/Check-Out Process

If a student is to be picked-up/leave early, the custodial parent(s)/guardian(s) or designee will report to the principal's office to sign for the student's release. Each school will maintain a daily entry/exit log of students signing in late or signing out early. Individuals must show photo identification in order to pick up the student.

All check-in/check-outs are unexcused until a note is presented upon the student's return to school. Non-emergency activities and appointments should be scheduled after school hours.

Process to Address Unexcused Absences

1 st unexcused absence	Call from school to Parent(s)/Guardian(s)
3 rd unexcused absence	Letter from school to Parent(s)/Guardian(s) and Meeting at school with Parent(s)/Guardian(s) and Principal/designee
4 th unexcused absence	School or Director of Student Personnel make Home Visit
6 th unexcused absence	Referral to court due to habitual truancy

Co-Curricular Activities

Students may participate in co-curricular activities and be counted as being in attendance during the instructional school day.

Extra-Curricular Activities

Students who participate in extra-curricular activities (basketball, football, golf, dance, etc.) during the instructional school day will be counted absent for the part of the school day that the student is not in attendance. Absences resulting from school-related extra-curricular activities will be excused absences.

Exception: Effective with its passing on April 13, 2010, HB 327 allows student athletes competing in a regional or state tournament on a regularly scheduled school day to be counted present on the date or dates of the competition, for a maximum of two days per student per year.

Perfect Attendance

A student has perfect attendance if he/she has zero (0) absences and zero (0) tardies. Absences due to school sponsored/approved events will not count in determining perfect attendance.

Lice

The day that a student is sent home with lice will be considered excused. An absence on the second day may be excused if determined by the Principal/designee to have been necessary for treatment. Students are expected to return to school lice free on the second day (or no later than the third day if the second day was determined to be necessary for treatment). Any further absence will be unexcused.

Home/Hospital Instruction

If a student must be absent from school for five (5) or more consecutive days due to illness or surgery, he/she may be eligible for Home/Hospital Instruction. Also, if a student has a condition that requires ongoing treatments, he/she may qualify for Intermittent Home/Hospital Instruction. Please check with your school or the Central Office for more information.

Non-resident students must be in good standing with the previous district of attendance prior to their enrollment in the District's schools. Parents will be responsible for transporting their children to and from school.

1. The student shall comply with the District's attendance policy.
2. The student shall show appropriate academic progress as determined by his/her teacher(s) and the Principal (passing equivalent to four of the 6 classes); and
3. The student shall comply with the District's "Code of Conduct".

Any violations of this policy shall cause non-resident students to be immediately withdrawn from the Floyd County School System and returned to their home district.

Possession of Illegal Substances

For possessing, using or being under the influence of alcoholic beverages, narcotics, drugs, controlled substances, mind-altering substances, synthetic compounds/substances or look-alikes and/or possession of drug paraphernalia, while at school, on school grounds, or at school sponsored events on or away from school grounds, the disciplinary actions listed below shall be followed. In instances involving look-alike substances there must be evidence of the student's intent to pass off the item as a controlled substance.

A first offense will result in a ten (10) day suspension. Five days of the suspension may be waived if the family decides to seek an evaluation of the student's alcohol/drug use from a certified substance abuse counselor and completes any and all appointments with the counselor. This counselor must be acceptable to the school district.

A second offense will result in immediate suspension and recommendation for expulsion.

The student shall immediately be suspended for the sale or transmission of alcoholic beverages, narcotics, drugs, counterfeit controlled substances or look-alikes. The principal of the school will recommend the student for expulsion.

Weapons

Note: This policy applies to students, staff members, and visitors to the school.

Except as permitted by law, carrying, bringing, using, or possessing any weapon or a dangerous instrument (including ammunition) in any school building, on school grounds, in any school vehicle or at any school-sponsored activity is prohibited. Except for authorized law

enforcement officials, the board specifically prohibits the carrying of concealed weapons on school property.

Violation of this policy by students shall require that the Principal immediately make a report to the Superintendent, to the local authorities, and determine the appropriate disciplinary action.

Exceptions

An exception may be made for students participating in an authorized curricular or extracurricular activity or team involving the use of firearms and to those persons listed in KRS 527.070 (JROTC approved programs).

State Posting Requirements

The Superintendent shall post the following notice in prominent locations in the schools, including, but not limited to, sports arenas, gymnasiums, stadiums and cafeterias. The notice shall be at least six (6) inches high and fourteen (14) inches wide and shall state:

UNLAWFUL POSSESSION OF A WEAPON ON SCHOOL PROPERTY IN KENTUCKY IS A FELONY PUNISHABLE BY A MAXIMUM OF FIVE (5) YEARS IN PRISON AND A TEN THOUSAND DOLLAR (\$10,000) FINE.

State Reporting Requirements

The above criminal penalty shall not apply to those persons listed in KRS 527.070(3).

Employees of the District shall promptly make a report by telephone or otherwise, to the local police department, sheriff, or Kentucky State Police, if they know or have reasonable cause to believe that conduct has occurred which constitutes the carrying, possession, or use of a deadly weapon on the school premises or within one thousand (1,000) feet of school premises, on a school bus, or at a school sponsored or sanctioned event.

For state reporting purposes, a deadly weapon shall be defined as:

1. Any weapon from which a shot, readily capable of producing death or serious physical injury, may be discharged;
2. Any knives other than ordinary pocketknives and hunting knives;
3. Billy, nightstick or club;
4. Blackjack or slapjack;
5. Nunchaku karate sticks;
6. Shuriken or death star; and
7. Artificial knuckles made from metal, plastic, or other similar hard material.

For school purposes ordinary pocketknives, hunting knives, and ammunition are considered dangerous instruments and are, therefore, not permitted on school property.

Employees who receive information from a student or other person regarding conduct will report the conduct in the same manner as stated above.

Disciplinary Referral Procedures

Teachers' Disciplinary Actions

The teacher has the responsibility to stop behavior that interferes with the educational process, to preserve the rights of others, and to help student improves self-discipline.

A teacher is responsible for using appropriate measures to maintain discipline (i.e., verbal reprimands, notification to parent/guardian, conference with parent/guardian, development of behavior contract with student, referring the student for peer counseling, etc.). If the misbehavior continues, the student shall be referred to the principal/designee for further action. Serious offenses may require direct referral to the principal/designee.

The Referral Process

If classroom discipline does not succeed in correcting misbehavior or if the behavior requires assistance from other school personnel, the student shall be referred to a counselor, peer review group, or administrator.

When a student is referred, the steps listed below shall be followed:

1. The referring person will fill out a referral form, keeping a copy and sending the original and other copies to the appropriate administrator.
2. The student(s) will be referred to the school office to talk to an administrator.
3. The administrator will read the referral form to the student and allow the student to respond.
4. The administrator will decide what action shall be taken; inform the student of the action; and record the action on the form. The student shall receive a copy of the form.
5. The administrator will process the referral form with additional copies distributed as indicated on the form.
6. The administrator may require that the student take the form home to be signed by the student's parent(s)/guardian(s) and the signed form returned to the administrator.
7. The assigned administrator will maintain disciplinary records and those records will be accessible upon request to teacher(s), principal, counselor(s) and the student and/or parent(s)/guardian(s) of the student in compliance with the Family Privacy Act of 1975.

Counselors' Role in the Referral Process

Counselors will be utilized after repeated referrals or if a problem seems to stem from causes more serious than simple misbehavior. The counselor may conduct individual, group, and/or schedule peer mediation sessions with the student.

Administrators' In-school Interventions

Disciplinary Actions

When an administrator receives a referral on a student whose misbehavior has continued in spite of the teacher's efforts to correct it or whose misbehavior interferes with the learning environment, then the administrator is responsible, when appropriate, to use measures to maintain discipline that may include but are not limited to:

1. Withdrawing school privileges for a temporary or an extended period of time;
2. Changing the student's schedule (with parent(s)/guardian(s) notification);
3. Temporarily separating the student from other students;
4. Recommending an alternative placement;

5. Assigning the student to after-school detention;
6. Assigning in-school alternative education;
7. Establishing in-school counseling or evaluation, including referral to outside agencies;
8. Conferring with the parent(s)/guardian(s), teacher(s), counselor(s), or other staff members;
9. Denying the student access to school bus transportation (for bus misconduct); and/or
10. Placing the student on probation.

Disciplinary problems referred to the school administrator are usually handled by in-school measures short of suspension and/or recommendation for expulsion.

Parent/Guardian Conference

When a student's misbehavior continues despite repeated correction efforts, the administrator will call a conference to meet with the student, parent(s)/guardian(s), and appropriate school staff. The administrator shall schedule the conference in consultation with parent(s)/guardian(s). If telephone or personal contact with the parent(s)/guardian(s) has not occurred, written notice of the conference will be sent. A mutually acceptable method for the conference shall be agreed upon, if a conference at school or during school hours is not possible for the parent(s)/guardian(s). If multiple violations of the student behavior code occur at frequent intervals, a single conference to address these problems will be sufficient.

If the parent(s)/guardian(s) is unable to attend or chooses not to attend the scheduled conference, then the conference will take place in the absence of the parent(s)/guardian(s), and the administrator will report the conference results to the parent(s)/guardian(s).

The purpose of the conference will be to identify the source of the problem, to arrive at fair effective solutions, and to improve student behavior. During the conference, the student will have an opportunity to describe the problem(s) and suggest action(s) that would resolve the problem(s). Parent(s)/Guardian(s) and staff will have the same opportunity. The student's academic and disciplinary records will be available for review during the conference. Strict courtesy will be observed at all times by all participants in the conference. A summary of the results of the conference will be recorded on the student's disciplinary referral form.

Use of Reasonable Physical Force by Staff

School personnel, may under the authorization of the Board of Education (see KRS. 161.180), use reasonable physical force to restrain a student whenever immediate action is essential for self-defense, preservation of order, or protection of persons or property.

In-school Alternative Education

The removal of a student from class by the principal and the assignment to a location in another room on the school premises during school hours for a period not to exceed five (5) consecutive days will be considered in-school alternative education. During in-school alternative education, the student will be provided educational opportunities and proper supervision.

After due process procedures, a student may be assigned in-school alternative education as a disciplinary measure.

Detention

The principal/designee may establish a detention hall outside of the instructional day as an alternative disciplinary measure. A student's parent/guardian will be notified prior to the detention so that transportation may be arranged by the parent.

Disciplinary Probation

As an alternative disciplinary measure, a student may be placed on probation by the principal/designee. The terms and conditions of probation will be established in writing at the time it is granted. Written notice of probation will be given to the student and parent(s)/guardian(s) and a copy placed in the student's file. Should the student breach the conditions imposed, the result may be suspension or other appropriate disciplinary actions.

Suspension and/or Expulsion Considerations

Prior to recommending suspension and/or expulsion, the following four factors should be considered:

1. Previous general conduct of the student involved;
2. Academic standing of the student;
3. Probability of recurring violation; and
4. Availability of alternative punishments or restrictions.

Suspension Procedures

A principal may suspend a student for offenses as outlined in this code.

1. Short-term suspensions are for a period of 1-5 days. A short-term suspension notice is sent to the student's parent(s)/guardian(s). Additionally, the parent(s)/guardian(s) will be notified verbally, if possible, and attempts to do so will be documented.
2. Long-term suspensions are for a period of 6-10 days and require consultation and approval of the Superintendent. Written notice is mailed to the student's parent(s)/guardian(s) and a copy mailed to the Superintendent. Additionally, the parent(s)/guardian(s) will be notified verbally, if possible, and attempts to do so will be documented.
3. A student placed on suspension is prohibited from entering the school or school grounds (except for a prearranged conference with an administrator), attending any day or night functions of the Floyd County Schools, or riding a school bus during the term of suspension. Violations of the conditions of the suspension will cause further disciplinary action to be taken. At all stages of the suspension process, students will be guaranteed informal due process rights.
4. Out-of-school suspensions are unexcused absences but projects or work assigned prior to a suspension and due during the time of suspension will be accepted for credit. Long-term projects assigned during the suspension and due at a date after the conclusion of the suspension will be accepted for grading if the work earns a passing grade. Students on suspension will be permitted to take a nine (9) week exam, and/or a semester/final exam, and required state assessment as arranged with the Principal/designee.
5. Except in the case of pre-expulsion suspensions, a suspension will be for a definite number of days and will not be extended without prior approval of the Superintendent.
6. Parent(s)/Guardian(s) of students who have been suspended will have a conference with the principal prior to the student being re-admitted to classes. This conference may be conducted by either electronic means or by personal visits to the school or other agreed location.
7. Students suspended during the testing window will participate in state assessment.
8. In cases that involve students with disabilities, the procedures mandated by federal and state law and set forth in local policies and procedures for students with disabilities will be followed.

Hearing Procedures

A hearing is required and will be conducted by the principal before a student is suspended. The process will include the steps listed below.

1. The student will be informed of the charges for the proposed suspension and provided an explanation of the evidence supporting the charges.
2. The student will be provided a reasonable opportunity to present his/her case.
3. The principal will report the decision to suspend, by telephone, if possible, or by mail, to the student's parent(s)/guardian(s) within one (1) school day of the informal hearing.

Expulsion

The Floyd County Board of Education may expel any student for misconduct as defined according to KRS. 158.150. If behavior problems are serious enough to warrant the initiation of the expulsion process, the procedures listed below will be initiated.

1. The principal convenes an informal hearing to determine the validity of the charge(s) against the student. If the charges are denied, an explanation of the evidence against the student must be made and the student given the opportunity to present their version of the facts relating to the charges.
2. Generally the notice and hearing should precede the student's removal from school, since the hearing may immediately follow the misconduct. If prior notice and hearing are not feasible, (as where the student's presence endangers persons or property or threatens disruption of the academic process, thus justifying immediate removal from school) the necessary notice and informal hearing should follow as soon as possible.
3. If the principal determines after the hearing that the student has committed an expulsion offense, the student and student's parent(s)/guardian(s) will be notified by registered mail prior to a formal hearing of the charges against the student with the time, date, and location of the formal expulsion hearing. An additional letter will be sent to the parent(s)/guardian(s) by the Superintendent with notification of the details (time, place, etc.) of the hearing.
4. The student and/or parent(s)/guardian(s) may request a closed or open hearing and must be advised that they have the right of legal counsel present at such hearing.
5. Students have the right of due process in all cases. All formal hearings regarding expulsion cases will be conducted during a special or regular board meeting.
6. In cases that involve students with disabilities, the procedures mandated by federal and state law and set forth in local policies and procedures for students with disabilities will be followed.

Student Appeal and Due Process

A student will not be suspended or expelled from school, until after the due process procedures listed below have been provided.

1. The student has been given oral or written notice of the charge or charges, which constitute cause for suspension.
2. The student has been given an explanation of the evidence of the charge or charges if the student denies them.
3. The student has been given an opportunity to present evidence and explanation of the facts relating to the charge or charges (FCBOE Policy 09.431).

These due process procedures will precede any suspension unless immediate suspension is essential to protect persons or property or to avoid disruption of the ongoing academic process. In

such cases, the due process procedures outlined above shall follow the suspension as soon as practicable but no later than three (3) school days after the suspension.

An appeal may be made, in writing, through administrative channels. Written appeals shall receive a written response. The channel of appeal is Principal, Superintendent's Designee, and Superintendent. The final level of appeal shall be to the Board of Education through the Superintendent's office.

Right to Counsel

All persons involved in any formal disciplinary process shall have the right to legal counsel at their own expense.

Description of Expulsion Process

1. Charges seeking expulsion are brought against a student.
2. A hearing is held to determine if evidence is sufficient to expel.

If evidence is insufficient to expel, the hearing ends with the charges being dropped.

If evidence is sufficient, student is expelled. The Board of Education must then determine whether educational services must be continued for the expelled student

3. The Board must determine:

- Whether 'clear and convincing' evidence exists showing that the expelled student poses a threat to the safety of other students or staff; *and*
- If the expelled student poses a threat, whether the student shall or shall not be placed in a state agency-funded program. (Placement in a state agency-funded program shall depend on availability of such programs and entrance criteria.)

If 'clear and convincing' evidence does not exist that the expelled student is a threat, the Board must direct the administration to provide the student with educational services in an appropriate alternative program or setting.

If 'clear and convincing' evidence exists that the expelled student is a threat and that the student can be placed in a state agency-funded program to receive appropriate educational services, then the district findings need to reflect that decision.

If 'clear and convincing' evidence exists that the expelled student is a threat and that the student cannot be placed in a state agency-funded program, then the district is not required to provide educational services to the student.

Enforcement Laws Pertaining to Proper Search

In the enforcement of this policy, principals may authorize, if they have reasonable suspicion, searches in compliance with applicable Board policies.

Student Searches

School officials have the right to search the student(s) or their property if the official(s) has reasonable suspicion that the student may be in possession of something that violates school rules or endangers others. The purpose of searching student(s), their belongings, lockers, desks, or automobiles is to protect the property and safety of the school. Student(s) have the protection, as do

all citizens, against unreasonable search and seizure of their property. Searches will be used when other techniques to remedy a situation have been exhausted or when there is perceived to be an immediate danger to life or safety.

1. A student will only be searched when there is reasonable suspicion that he/she is concealing evidence of an illegal act or of a school violation.
2. School officials may seize illegal items or other possessions reasonably determined by the proper school authorities to be a threat to the student's safety, or security, or a threat to the safety and security of others.
3. Items, which may be used to disrupt or interfere with the educational process, may be temporarily removed from the student's possession by a staff member. These items may be returned to the student by that staff member or through the office. Detection devices may be used to perform a search.
4. A general inspection of school properties such as lockers, desks, network systems owned by the district, etc., may be conducted on a regular basis. During these inspections, items which are school property may be collected. Detection devices and/or trained animals may be used to perform a search.
5. All items, which have been seized, will be turned over to proper authorities or returned to the true owner, depending on the situation.
6. The student will have the opportunity to be present when a search of personal possessions is to be conducted unless:
 - a. The student is absent from school.
 - b. School authorities decide that the student's presence could endanger the student's health and safety.

Transportation

Certain behaviors are expected of students in order to maintain an environment in which all students may travel safely to and from school. The principal is authorized to withhold bus-riding privileges in the case of habitual or serious conduct violations. The transportation rules governing behavior include, but may not be limited to, those listed below. Refer also to the **Bus Conduct Report** included in this handbook.

1. Each student will be at the assigned bus stop at the appropriate time so that the bus will not have to wait and the schedule will not be delayed. Students will wait off the traveled roadway until the driver has stopped the bus and signals the students to enter the bus.
2. When students must cross the roadway to enter/exit the bus, they will not proceed until signaled by the bus driver. These roadway crossings will be made approximately ten (10) feet in front of the bus in order that the bus driver may see them.
3. When students enter the bus, they will promptly go to their assigned seats and remain seated until the bus has come to a complete stop before leaving their seats to get off the bus.
4. Students will not extend their arms, legs, or heads out the bus windows while the bus is in motion and will not change seats while the bus is in motion.
5. Students will not create noise on the bus to the extent that it might interfere with the driver's ability to hear signals or emergency vehicles.
6. Students will not bring food or drinks, radios, cassette players, etc. or insects or animals on the bus without prior approval.
7. Students will observe the same conduct as in the classroom.

8. Students will be courteous and use no profane language.
9. Students are to keep the bus clean at all times.
10. Cooperation with the driver is essential to good behavior on the bus.
11. Students are not allowed to possess or use tobacco products on the bus.
12. Students are expected not to be destructive.
13. Bus drivers are authorized to assign seats and students are expected to comply as directed.
14. No balloons or any kind of glass containers are allowed on the bus.
15. A student may only transport items that he/she can hold in his/her lap.
16. No objects will be thrown within or out of the bus.
17. Students are not to engage in any other behavior determined to be detrimental to bus safety.

Student Drop-Off Procedure

All students will be dropped off at the designated bus stop unless the parent/guardian submits in writing permission for the student to be returned to the school if the parent/guardian is not at the designated bus stop.

In the event a student is returned to school, school officials will try to contact the parent/guardian. If the parent/guardian is not available, then the emergency designee may be contacted. If these efforts are not successful, then the school site officials or the Transportation Department will call the Sheriff's Office for assistance. The state regulation governing the transportation of preschool children in which the parent/guardian or person authorized by the parent shall be responsible for providing safe supervision to and from the bus stop and delivery to/receipt from the driver assistant remains in effect.

Duty to Report Certain Conduct

The law requires the parent(s)/guardian(s) of a child who has been adjudicated guilty or previously expelled for homicide, assault, or violation of state law or school regulations relating to weapons, alcohol or drugs to notify a new school of that fact by a sworn statement given to the school at the time of registration.

The law also requires the school employees to report to the sheriff, local police or Kentucky State Police:

1. any felony occurring on school property; or
2. any misdemeanor or violation relating to:
 - a. carrying, possession or use of a deadly weapon on school property; or
 - b. use, possession, or sale of a controlled substance on school property.

Failure to promptly report a felony is a Class A misdemeanor, punishable by up to twelve (12) months in jail and a fine of up to \$500.

Criminal Violations

Students are accountable to their school in their role as students and to the law in their capacity as citizens. Serious violations of the criminal laws of the Commonwealth of Kentucky and of the federal government apply to the conduct of all persons on school property.

1. Due to the seriousness of certain offenses and their likelihood to create a serious risk of harm to school personnel, students, and/or school property, students committing these offenses, after due process, are to be suspended from school, pending a hearing before the local board of education in accordance with KRS 158.150.
2. School personnel are to report these offenses to the appropriate law enforcement agency and assist these agencies in investigating and prosecuting the offender.

3. In cases of assault and/or battery on a student or school employee, it is recommended that the assaulted persons press charges in circuit or district court.

Offenses that must be reported to other agencies are listed below.

If the Principal is suspected of child abuse, the employee will contact the Superintendent/designee who will also promptly report to the proper authorities for investigation.

The telephone number to be used to report abuse, neglect, or dependent status to the Cabinet of Health and Family Services is 888.268.2613. After making a report, the employee will notify the Principal of the suspected abuse, who then will promptly make a report to the proper school authorities for investigation. *Only agencies designated by law are authorized to conduct an investigation of a report of alleged child abuse. Therefore, the District shall not first investigate a claim before an employee makes a report to the proper authorities.*

Acceptable Use & Internet Safety Policy

CURRICULUM AND INSTRUCTION POLICY # 08.2323

Floyd County School District in compliance with the KETS Master Plan for Kentucky provides students and staff with electronic information and communication to enhance learning through electronic resources via means of Internet and E-mail.

PARENT OR LEGAL GUARDIAN CONSENT REQUIREMENTS

Regardless of the level, the student must sign a user's agreement and parental permission must be secured before Internet access can be provided. This policy acknowledges the fact that standards of behavior relating to morals and personal values are within the realm of the family. To the degree that a parent guides a child's exposure to television, videos, and music the parent should guide the child's exposure to the computer networks when giving permission for independent access or individualized study. The school cannot be held responsible if a student given parental permission for independent access intentionally accesses material, which his/her family considers objectionable. District and school acceptable use policies are intended to address "ethics," leaving issues relating to "morals" between the parent or guardian and child.

This document shall be kept on file as a legal, binding document, for the duration of their career here at Floyd County Schools unless otherwise dictated by policy change.

- Some Microsoft online services, such as e-mail, allow people of all ages to share personal information with others and that the permission granted hereunder the allows your child access to sign in and use these services. Giving or denying permission for your child to sign in and use Microsoft services will not affect his or her ability to use other websites."

- Parents shall be notified in writing (via Code of Conduct) that students will be held

accountable for violations of the student Acceptable Use Policy agreement and that disciplinary action may be taken.

- Measures designed to restrict minors' access to materials harmful to minors
 - To manage the student or staff member, who is determined or occasionally tempted to violate acceptable use policies, certain deterrents can be put in place:
 - Certain network management software packages allow the systems administrator to view or intervene and "take over" a user's screen. These packages are designed for problem diagnosis, to troubleshoot network problems, and to support help desk activities. Although they are not designed to scan network activity for inappropriate use, the district may decide to use them for that purpose on an occasional basis. Regardless, if the user is informed that such scanning is feasible that fact alone may deter inappropriate use.
 - With implementation of web filtering services, schools should familiarize parents, students, faculty, and staff with the information contained in web filtering logs. The fact that these logs contain detailed information about each Internet access, which can be traced to the individual user usually, serves as a powerful deterrent.
- **Cyber Bullying**
 - **CYBER BULLYING**-as defined is harassing, threatening, or any other type of communication via means of Internet or electronic mail, and telecommunications including cell phones that threatens a person or persons character or personal safety. You should report any form of "Cyber Bullying" to your teacher, principal, or supervisor as soon as possible.

 - All students will have access to the I-SAFE Curriculum from their counselor and/or district coordinator for a comprehensive approach to online safety. K-12 students will be exposed to a variety of topics including digital literacy, cyber citizenship, identity protection/reputation, cellphones/texting, cyber security and predator identification. All students will learn online safety, security and responsibility. All 5-12 students are required to take and pass their Digital Driver's License before taking home a device. Each school is responsible for ensuring that each child has access to the DDL.
 - The curriculum will be implemented through a tiered approach. Each school will receive comprehensive training on the implementation and management of the I-SAFE Curriculum and the Digital Driver's License. The school will then design and implementation model that best suites the needs of the school and ensures that all students receive training in all features of this program.
 - Assessment and reporting features of the ISAFE program will be conducted at the

school level from which school and district administrators can monitor the implementation of the program.

- Implementation of this program is a mandate of the FCC Child Internet Protection Act (CIPA), Senate Bill 230, and Schools and Libraries & RATE discount grant as well as other state and local policies. [-SAFE reports will track educators' usage of the *curriculum in their classrooms* and will provide valuable documentation for compliance *audits*.

VIDEO, AUDIO, MEDIA PRESENTATIONS

On occasion, it may be necessary for school administration to provide video/audio presentation containing visual representations and/or sound recordings of student/staff for public viewing. The means may include News Media, Public Television, New Letters, Radio, Training Videos, School Internet Web Pages, and other related school and or district projects to be used for instruction, research, and school administration.

By signing the agreement and/or parent permission form, the student or staff member has agreed to allow identification and or publication of their name, photographic or video image and/or voice for purposes of recognition, celebration, and or other school/district related events.

TELECOMMUNICATION DEVICES

PERSONAL TELECOMMUNICATION DEVICES

A personal telecommunications device is defined as a device that emits an audible signal, vibrates, displays a message, takes a picture, causes a disruption of the learning environment, or otherwise summons or delivers a communication to the possessor, including but not limited to a paging device, cellular telephone, mp3 player, hand held PC, or personal digital assistant.

Acceptable use for any personal telecommunications device shall be for instructional purposes only with the approval and supervision of school staff. Otherwise, students shall keep personal telecommunications devices out of sight and shall not activate nor use such devices either during the instructional day or while attending or participating in school-related activities held during the instructional day.

For these purposes, the instructional day shall be defined as the first bell of the day through the last bell of the day. The Board does acknowledge the authority of the school council to alter this definition to better serve the needs of individual schools. Device contents, while generally private, may be searched under certain circumstances including, but not limited to, reasonable suspicion of threat of safety, violation of confidentiality, or privacy rights of another individual.

Upon violation of this policy, students are subject to discipline as outlined in the Student Handbook and Code of Conduct. Floyd County Schools shall not be responsible for the loss, damage, or theft of any personal telecommunications device.

NOTICE OF POLICY

Notice of this policy, along with the disciplinary penalties for violation, shall be published annually in the district's Student Handbook and Code of Conduct.

Floyd County School System will not be liable for damages, loss, theft, or vandalism of such equipment.

Deterrents

To manage the student or staff member, who is determined or occasionally tempted to violate acceptable use policies, certain deterrents can be put in place:

- Certain network management software packages allow the systems administrator to

view or intervene and "take over" a user's screen. These packages are designed for problem diagnosis, to troubleshoot network problems, and to support help desk activities. Although they are not designed to scan network activity for inappropriate use, the district may decide to use them for that purpose on an occasional basis. Regardless, if the user is informed that such scanning is feasible that fact alone may deter inappropriate use.

- With implementation of proxy services, schools should familiarize parents, students, faculty, and staff with the information contained in proxy logs. The fact that these logs contain detailed information about each Internet access, which can be traced to the individual user usually, serves as a powerful deterrent.

Disciplinary Actions and Other Consequences

All users and all parents will be informed of the consequences of violating appropriate use policies. Consequences will be conveyed via Code of Conduct user agreement and during initial training. Generally the consequences will be one or more of the following:

- Loss of network access
- Disciplinary action (Code of Conduct)
- Legal action

Right to Request Teacher Qualifications

NOTICE TO PARENTS OF TEACHER'S QUALIFICATIONS/CERTIFICATION

Parents may request that the District provide information regarding the professional qualifications of their child's classroom teachers. In complying with such requests, the District shall provide the information designated by federal law. In order to obtain a form to make such a request, contact the school principal for form **01.6 AP.2**.

Schools receiving Title I funds shall notify parents when their child has been assigned to or has been taught for four (4) or more consecutive weeks by a teacher who is not "highly qualified", as defined by state and federal legislation.

School Wide Title I Program

The emphasis in school wide Title I program schools is on serving all students, improving all structures that support student learning, and combining all resources, as allowed, to achieve a common goal. School wide programs maximize the impact of Title I. The three core components listed below must be included in a school wide program.

1. A comprehensive needs assessment will be used to analyze academic data for the entire school. The results will be used to determine the subjects and skills for which teaching and learning need to be improved.
2. The data gathered during the needs assessment will be used to develop a plan describing how the school will improve academic achievement and address the identified needs throughout the school, but particularly the lowest achieving students.
3. The plan and its implementation shall be regularly monitored and revised as necessary based on student needs to ensure that all students are provided opportunities to meet Kentucky's challenging academic standards and ensure continuous improvement. Revisions to the plan should be based on the results of the evaluation.

In addition, when they have reasonable belief that a violation has taken place, Principals shall immediately report to law enforcement officials when an act has occurred on school property or at a school-sponsored function that involves student possession of a controlled substance on school property in violation of the law.

REPORTING

Employees of the District shall promptly make a report to the local police department, sheriff, or Kentucky State Police, by telephone or otherwise, if they know or have reasonable cause to believe that conduct has occurred which constitutes the use, possession, or sale of controlled substances on the school premises or within one thousand (1,000) feet of school premises, on a school bus, or at a school sponsored or sanctioned event.

DRUG TESTING PROGRAM PURPOSE

In this day and time, alcohol and other forms of drug abuse have grown to major proportions in our society. The middle and high school settings are not exempt from this phenomenon. Therefore, it is critical that educators and parents continually look for ways to institute programs that encourage a drug-free lifestyle for their students/children. It is to that end that this program is created to provide

Use of Alcohol, Drugs and Other Controlled Substances

the appropriate action plan to address and foster a drug free environment for the entire County middle and high school community.

Each semester at least one (1) educational seminar on alcohol and drug abuse shall be conducted by qualified substance abuse educators. These seminars shall be accessible to all County middle and high school students but shall be required for all athletic and extracurricular team members and for students who will be driving or parking on school property.

TRAINING IN DRUG AWARENESS

County middle and high school teachers will be given an opportunity to receive training in drug awareness. Part of the training will enable each teacher to incorporate drug awareness information into his/her current curriculum. A keener teacher awareness of drug abuse signs and symptoms, as well as methods of referral, will be a direct result of training. Instructional units on drug abuse, such as those currently taught in our health courses, will be enhanced by this teacher education component. When substance abuse is suspected, teachers will confidentially consult with the Principal and counselor.

SEMINARS FOR PARENTS/GUARDIANS

Educational seminars for parents/guardians that will address alcohol and other forms of drug abuse will be established in conjunction with other school programming. The central purpose of these sessions will be to provide parents/guardians with necessary information to parent toward drug prevention.

ALCOHOL AND DRUG SAFETY POLICY

All student athletes/extracurricular participants/drivers and their parents/guardians must read this policy and accompanying procedures and must acknowledge, in writing, that they have read the policy and procedures, understand the policy and procedures, and agree to be bound by the terms and conditions contained in the policy and procedures.

STATEMENT OF NEED

All athletic and extracurricular team coaches/sponsors and the administration of County middle and high schools recognize that the unlawful use of alcohol and other drugs seriously impairs the health, safety, education, and future success of middle and high school students engaged in that use. It is also recognized that the unlawful use of alcohol and other drugs is a potential problem for all middle and high school students.

Athletic teams and extracurricular activities covered by this policy shall apply to all middle and high school varsity and sub varsity athletic and extracurricular activities including, but not limited to, baseball, boys basketball, girls basketball, cheerleading, cross country, football, softball, tennis, track, volleyball, wrestling, academic teams, archery and clubs. All students who participate in these activities are covered under this policy. All students who drive a vehicle onto school grounds are also covered by the policy. The subsequent addition of any extracurricular activity, varsity or sub varsity sport shall immediately be subject to this policy.

Use of Alcohol, Drugs and Other Controlled Substances**STATEMENT OF PURPOSE**

This policy is intended to support the comprehensive educational policies and programs of the District in educating students and their parents/guardians as to the dangers inherent in the unlawful use of drugs. The policy is further intended to provide encouragement to middle and high school students who voluntarily choose to participate on athletic teams, in extracurricular activities, and/or to drive or park on school property to avoid such use and to strive to benefit from effective rehabilitation when such use has occurred.

Administrators shall not use information obtained in the course of administering the policy for disciplinary purposes other than those set forth herein. This policy is not designed to be used, nor shall it voluntarily be used in any manner, to provide a source of information for law enforcement agencies for the prosecution of the student or to limit the student's participation in the school activities other than the limitations imposed by this policy. Without a specific written authorization from the tested student or parent/guardian, if the student is under eighteen (18) years of age, the administrator shall not release any student's test results to any person other than those described within this policy (Superintendent or his/her designee, Principal, Assistant Principal, Counselor, DPP) or as required by law or a lawfully issued subpoena or court order.

In order to accomplish its purposes, this policy established a program for procedures to deter the unlawful use of drugs and alcohol and to provide for suspension and termination of participation on the teams when deterrence is unsuccessful. To determine compliance with the policy, it provides a testing program to identify student participants who are unlawfully using drugs. For these students in this policy provides incentives for rehabilitation through possible reinstatement to the specific athletic team or extracurricular activity involved.

Consistent with its purposes, this policy also seeks to achieve the following objectives:

1. To protect District students from impairing their health, safety, education, and future success through the unlawful use of alcohol and other drugs;
2. To protect District students and their opponents from potential injury during competition resulting from the unlawful use of alcohol and drugs;
3. To protect District students from the potential stigma of unsubstantiated allegations of unlawful use of alcohol and other drugs;
4. To assure students, parents, teachers and the community that the health, safety, education, and future success of the student participants are the primary concerns of the District.

IMPLEMENTATION AND REVIEW

All student participants and their parents/guardians must sign the "Student and Parent/Guardian Consent to Perform Urinalysis for Drug Testing" form before the student shall be permitted to try out for any athletic team, become a member of an extracurricular activity at the middle and high school levels, or be authorized to drive or park on school property. A Substance Abuse Prevention Committee (Committee) shall be established and shall review and evaluate the effectiveness of the drug testing policy on an annual basis.

Use of Alcohol, Drugs and Other Controlled Substances**APPLICABILITY**

This policy applies to all students choosing to participate in any extracurricular activity, including students/players at the varsity and sub varsity levels, and to students who drive or park on school property. Parents/Guardians may voluntarily place their child into the volunteer pool which tests ten percent (10%) annually at the expense of the Floyd County Board of Education. Parents must sign the consent to test form with an agreement for mandatory drug counseling program for all students who test positive.

TESTING PROGRAM

Testing shall be accomplished by the analysis of urine specimen obtained from the student participants. Collection and testing procedures shall be established, maintained, and administered to ensure:

1. Randomness of selection procedures;
2. Proper student identification;
3. Identification of each specimen with the appropriate student participant;
4. Maintenance of the unadulterated integrity of the specimen;
5. Integrity of the collection and testing process, as well as the confidentiality of test results (The specific testing process shall be on file at the testing laboratory approved by the Board.)

SUBSTANCES TESTED

Student participants' urine specimen shall be tested for substances which will be determined after consultation with the drug testing company.

FREQUENCY

The first year of implementation, all students participating in extracurricular activities shall be subject to random testing to include fifty percent (50%) of the total number of student participants. The second year and each year thereafter this population will be subject to random testing to include sixty percent (60%) of the total number of student participants annually.

SANCTIONS**FIRST VIOLATION**

1. A student testing positive will be suspended for the next six (6) consecutive interscholastic/extracurricular events or the next six (6) weeks of the season, whichever is greater in time. Student drivers shall be denied permission to drive and/or park on school property for the next six (6) consecutive weeks of school. The suspension will begin on the date that the results are received. If necessary, the suspension shall carry over to the student's subsequent participation on another athletic team/extracurricular activity and/or any activity not required by the school for educational purposes, and/or the following season.

Use of Alcohol, Drugs and Other Controlled Substances**FIRST VIOLATION (CONTINUED)**

If a student is reinstated to the athletic team/extracurricular activity or driving privileges following the first violation, the student's participation in another activity shall not be restricted solely because of the existence of the first violation, as long as the student has completed the period of suspension and was appropriately reinstated to the prior activity. If the student elects not to seek reinstatement to the activity after a first violation (either because of the student's own election or because the season has concluded prior to the expiration of the student's own election or because the season has concluded prior to the expiration of the student's period of suspension) the student is still required to serve the unexpired portion of the previous suspension.

SECOND VIOLATION

1. Before reinstatement to the activity after a second violation, the student participant must successfully complete recommendations that resulted from the chemical dependency assessment as evidenced by a written statement to the effect issued by a treatment counselor. The student must submit to a new drug test administered in accordance with the same procedures utilized for random drug testing. A positive result shall be treated as a third violation.
2. If a student is reinstated to the activity following a second violation, the student's participation in another activity shall not be restricted solely because of the existence of the second violation, as long as the student has completed the period of suspension and the required chemical dependency program and was appropriately reinstated to the prior activity. If the student elects not to seek reinstatement to the activity after the second violation (either because of the student's own election or because the season has concluded prior to the expiration of the student's period of suspension) the student is still required to serve the unexpired portion of the previous suspension. The student must complete all forms required for participation on another extracurricular activity. A student serving a suspension for one (1) sport/activity may try out for a second sport or join a second activity if the student provides a negative drug test result from the testing laboratory under contract. If the student makes the team, prior to participation, the student must serve the unexpired portion of the previous suspension.

THIRD VIOLATION

The student participant or driver shall be excluded from participation in any extracurricular activity for the remainder of the student's eligibility. A third violation shall disqualify the student's involvement in all extracurricular activities (varsity and sub varsity) or from driving/parking on school property for the remainder of his/her enrollment in the District.

NOTICE TO PARTICIPANTS

Prior to tryouts for an athletic team or joining an extracurricular activity, the Head Coach and/or activity sponsor shall provide all students choosing to participate in the athletic team/extracurricular activity and their parents/guardians with a written copy of this policy. Parents of students who park

Use of Alcohol, Drugs and Other Controlled Substances

on school property shall also be provided a copy. Each student who chooses to participate and a parent/guardian of that student shall be required to sign a statement indicating that they have received, read, understand and fully agree to be bound by the terms, conditions, and procedures under the policy.

Prevention Program

The Superintendent shall establish a comprehensive and on-going drug-free/alcohol-free prevention program for all students which shall include notice to students and parents of the following:

1. The dangers of drug/alcohol abuse in the schools;
2. The District's policies and related procedures on drug-free/alcohol-free schools;
3. The requirement for mandatory compliance with the District's established standards of conduct, including those that prohibit use of alcohol, drugs and other controlled substances;
4. Information about available drug/alcohol counseling programs and available rehabilitation/student assistance programs; and
5. Penalties that may be imposed upon students for drug/alcohol abuse violations.

Telecommunication Devices**PERSONAL TELECOMMUNICATION DEVICES**

Personal telecommunications device is defined as a device that emits an audible signal, vibrates, displays a message, takes a picture, causes a disruption of the learning environment, or otherwise summons or delivers a communication to the possessor, including but not limited to, a paging device, cellular telephone, MP3 player, hand held PC, or personal digital assistant.

Acceptable use for any personal telecommunications device will be strictly for instructional purposes with the approval of and under the supervision of school staff.

Devices shall not be used in a manner that disrupts the educational process, including, but not limited to, use that:

- a. Poses a threat to academic integrity, such as cheating;
- b. Violates confidentiality or privacy rights of another individual. This includes, but is not limited to, taking photographs, video, or audio recordings of others without the permission of the Principal/designee and the affected individual(s). An exception may be made for events considered to be in the public arena (e.g. sporting events, academic competitions, or performances to which the general public is admitted) where the activity does not materially disrupt the event, prevent others from observing the event, or otherwise violate legal rights. School social events for students, activities sponsored by student clubs, and activities during the school day that are not open to the public are not considered to be in the public arena;
- c. Is profane, indecent, or obscene;
- d. Constitutes or promotes illegal activity or activity in violation of school rules; or
- e. Constitutes or promotes sending, sharing, or possessing sexually explicit messages, photographs, or images using any electronic device.

These restrictions shall not be interpreted to prohibit material protected under the state or federal constitutions where such material does not otherwise materially or substantially disrupt the education process or intrude upon the rights of others.

Otherwise, personal telecommunications devices **shall be kept out of sight and shall not be used, turned on, nor activated** by students during the school instructional day or school-related activities held during the instructional day. For this purpose, the instructional day is defined as the first bell of the day through the last bell of the day. *However, SBDM Councils may set definitions to facilitate time appropriate needs.* Device contents, while generally private, may be searched under certain circumstances including, but not limited to, reasonable suspicion of threat of safety, violation of confidentiality, or privacy rights of another individual.

Upon any violation of this policy, students are subject to discipline as outlined in the Student Code of Conduct. A violation also may result in a report being made to law enforcement.

Floyd County Schools will not be responsible for loss, damage, or theft of any personal telecommunications device.

Use of Physical Restraint and Seclusion

Use of physical restraint or seclusion by school personnel is subject to 704 KAR 007:160. However, nothing in this policy prohibits the exercise of law enforcement duties by sworn law enforcement officers.

DEFINITIONS

- *Physical Restraint* means a personal restriction that immobilizes or reduces the ability of a student to move the student's torso, arms, legs, or head freely.
- *Seclusion* means the involuntary confinement of a student alone in a room or area from which the student is prevented from leaving, but does not mean classroom timeouts, supervised in school detentions, or out-of-school suspensions.

PHYSICAL RESTRAINT

All School Personnel

Use of physical restraint by all school personnel is permitted when a student's behavior poses an imminent danger of physical harm to self or others in clearly unavoidable emergency circumstances. In such situations, staff who have not had core team training may physically restrain students, but shall summon core trained school personnel as soon as possible.

In all situations involving use of physical restraint (including restraint by core trained personnel):

- The student shall be monitored for physical and psychological well-being for the duration of the restraint.
- Personnel shall use only the amount of force reasonably believed necessary to protect the student or others from imminent danger of physical harm.

Core Trained Personnel

School personnel who have undergone core team training may also use physical restraint after less restrictive behavioral interventions have been ineffective in stopping misbehavior as noted below:

In nonemergency circumstances when a student's behavior poses an imminent danger of physical harm to self or others;

2. As provided in KRS 503.050 (including when personnel believe physical restraint is necessary to protect themselves against the use or imminent use of unlawful physical force);
3. As provided in KRS 503.070 (including when personnel believe physical restraint is necessary to protect a third person against the use or imminent use of unlawful physical force);
4. To prevent property damage as provided in KRS Chapter 503 (including when personnel believe physical restraint is immediately necessary to prevent intentional or wanton property destruction, theft, or a felony involving the use of force); and
5. As provided in KRS 503.110 (including when personnel believe physical restraint is necessary to maintain reasonable discipline in a school, class, or other group, and the force used is not designed to cause or known to create a substantial risk of causing death, serious physical injury, disfigurement, extreme pain, or extreme mental distress).

Use of Physical Restraint and Seclusion

SECLUSION

Seclusion may be implemented only if: the student's behavior poses an imminent danger of physical harm to self or others; less restrictive interventions have been ineffective in stopping the imminent danger of physical harm; the student is monitored visually for the duration of the seclusion; and staff are appropriately trained to use seclusion.

PARAMETERS

The Board has established this policy and related procedures addressing use of physical restraint and seclusion that are designed to promote the safety of all students, school personnel, and visitors. As required by 704 KAR 007:160, school personnel and parents shall be made aware of how to access this policy and related procedures. Methods of notification may include, but are not limited to, publication in the District's local code of acceptable behavior and discipline and District employee handbooks.

TRAINING

Training of personnel on use of physical restraint and seclusion shall be provided as required by 704 KAR 007:160:

- All school personnel shall be trained annually to use an array of positive behavioral supports and interventions and as further required by 704 KAR 007:160.
- A core team of selected school personnel designated to respond to dangerous behavior and to implement physical restraint of students shall receive additional yearly training in the areas required by 704 KAR 007:160. (Exception: Core team members who are school resource officers or other sworn law enforcement officers are not required to undergo this training.)

REQUIRED PROCEDURES

The Superintendent/designee shall develop procedures to be followed during and after each use of physical restraint or seclusion to include the following:

1. Documentation of the event in the student information system;
2. Notice to parents; and
3. A process for the parent or emancipated youth to request a debriefing session.

NOTIFICATION REQUIREMENTS

The Principal of the school shall be notified as soon as possible when seclusion or physical restraint is used, but no later than the end of the school day on which it occurs.

Following each incident of physical restraint or seclusion of a student and if the student is not an emancipated youth, the parent of the student shall be notified of the incident either verbally or through electronic communication as soon as possible within twenty-four (24) hours of the incident. If the parent cannot be reached during that time frame, a written communication shall be mailed via U. S. mail.

If death, substantial risk of death, extreme physical pain, protracted and obvious disfigurement or protracted loss or impairment of the function of a bodily member, organ, or mental faculty results from use of physical restraint or seclusion, the Superintendent/designee shall notify the Kentucky Department of Education and local law enforcement within twenty-four (24) hours.

Use of Physical Restraint and Seclusion

DEBRIEFING SESSION

If the parent or emancipated student requests a debriefing session following use or parental notification of the use of physical restraint or seclusion, individuals who are to participate shall be those specified by state regulation.

A requested debriefing session shall occur as soon as practicable, but no later than five (5) school days following receipt of the request from the parent or emancipated youth, unless a meeting is delayed by written mutual agreement of the parent/emancipated student and the school.

The debriefing session shall address elements specified by state regulation, and all documentation used during the session shall become part of the student's education record.

PARENT COMPLAINTS

Parents may submit a complaint regarding the physical restraint or seclusion of their child using the Board's grievance policy and procedures. On receipt of a complaint, the District and school shall investigate the circumstances surrounding the physical restraint or seclusion, make written findings, and, where appropriate, take corrective action.

The Superintendent/designee shall review and respond to any statement received from a student's licensed physician that the student is not to be subjected to physical restraint.

DOCUMENTATION

All incidents involving physical restraint or seclusion shall be documented by a written record of each use by the end of the next school day, and the documentation shall be maintained in the student's education record. In addition, each entry shall be informed by an interview with the student and include information required by 704 KAR 007:160.

Specified data related to incidents of physical restraint and seclusion shall be reported in the state student information system.

At the end of each school year, the Superintendent/designee shall review data on District use of physical restraint and seclusion to identify any recommendations to be made to the Board for policy and procedure revisions.

Harassment/Discrimination

DEFINITION

Harassment/Discrimination is unlawful behavior based on race, color, national origin, age, religion, sex (including sexual orientation or gender identity), or disability that is sufficiently severe, pervasive, or objectively offensive that it adversely affects a student's education or creates a hostile or abusive educational environment.

Discrimination based upon race, color, national origin, age, religion, sex or disability can consist of harassment which creates a hostile environment. Examples of harassment/hostile environment include offensive conduct such as racial or ethnic slurs, racial or gender based "jokes", derogatory comments or other verbal or physical conduct based upon an individual's race, color, descent, national or ethnic origin, age, religion, sex or disability. Prohibited discrimination also includes any distinction, exclusion, restriction or preference based on race, color, descent, national or ethnic origin, age, religion, sex or disability of a student which has the purpose or effect of nullifying or impairing the recognition, enjoyment or exercise on an equal footing of educational opportunities, human rights and fundamental freedom.

The provisions of this policy shall not be interpreted as applying to speech otherwise protected under the state or federal constitutions where the speech does not otherwise materially or substantially disrupt the educational process, as defined by policy 09.426, or where it does not violate provisions of policy 09.422.

PROHIBITION

Harassment/Discrimination is prohibited at all times on school property and off school grounds during school-sponsored activities. This prohibition also applies to visitors to the school who may come into contact with employees and students. (Acts of harassment/discrimination based on sex may be committed by persons of the same or the opposite sex.)

The Superintendent shall provide for a prompt and equitable resolution of complaints concerning harassment/discrimination.

DISCIPLINARY ACTION

Students who engage in harassment/discrimination of an employee or another student on the basis of any of the areas mentioned above shall be subject to disciplinary action, including but not limited to suspension and expulsion.

GUIDELINES

Students who believe they or any other student, employee, or visitor is being or has been subjected to harassment/discrimination shall, as soon as reasonably practicable, report it. In each school building, the Principal is the person responsible for receiving reports of harassment/discrimination at the building level. Reports of harassment/discrimination may also be made directly to the Superintendent or the District Harassment/Discrimination Coordinator. Complaints of harassment/discrimination, whether verbal or written, shall lead to a documented investigation and a written report. The term "REPORT" as used in this policy includes reports of harassment/discrimination which are made either orally or in writing.

Harassment/Discrimination**GUIDELINES (CONTINUED)**

All reports made to the Principal or Harassment/Discrimination Coordinator shall be communicated by them to the Superintendent, or where applicable to the Board Chairperson, in writing within one (1) working day of receipt. Employees who observe prohibited behaviors or with whom students share a complaint shall notify the Superintendent, Principal or the Harassment/Discrimination Coordinator.

Employees who believe prohibited behavior is occurring or has occurred shall notify the victim's Principal, who shall immediately forward the information to the Superintendent.

The Superintendent or the Chairperson of the Board, as the case may be, shall provide for the following:

1. Investigation of allegations of harassment/discrimination to commence as soon as circumstances allow, but not later than three (3) working days of receipt of the report, regardless of the manner in which the complaint is communicated to a District administrator. The investigation shall be performed by the Harassment/Discrimination Coordinator or another formally trained investigator acting under his direct supervision. The investigation of allegations involving the Superintendent shall be conducted by a formally trained investigator or attorney not employed by the School District. Investigations shall include the right of the complainant to present witnesses, documents and other evidence in support of the complaint. A written report of all findings of the investigation shall be completed within thirty (30) calendar days, unless additional time is necessary due to the matter being investigated by a law enforcement or governmental agency.

The Superintendent/designee may take interim measures to protect complainants during the investigation.

2. A process to identify and implement, within five (5) working days of the submission of the written investigative report, methods to correct and prevent reoccurrence of the harassment/discrimination, including disciplinary action where appropriate. If corrective action is not required, an explanation shall be included in the report.
3. A process to be developed and implemented to communicate requirements of this policy to all students, which may include, but not be limited to, the following:
 - written notice provided in publications such as handbooks, codes, and/or pamphlets; and/or
 - such other measures as determined by the Superintendent/designee.

Method(s) used shall provide a summary of this policy, along with information concerning how individuals can access the District's complete policy/procedures and obtain assistance in reporting and responding to alleged incidents. Students, parents or guardians, as appropriate, will be directed to sign an acknowledgement form verifying receipt of information concerning this policy as part of the Board-approved code of acceptable behavior and discipline.

Harassment/Discrimination**GUIDELINES (CONTINUED)**

4. Age appropriate training during the first month of school to include an explanation of prohibited behavior and the necessity for prompt reporting of alleged harassment/discrimination; and
5. Development of alternate methods of filing complaints for individuals with disabilities and others who may need accommodation.

NOTIFICATIONS

Within twenty-four (24) hours of receiving a serious allegation of harassment/discrimination, District personnel shall attempt to notify parents of both student victims and students who have been accused of harassment/discrimination.

In circumstances also involving suspected child abuse, additional notification shall be required by law. (See Policy 09.227.)

In applicable cases, employees must report harassment/discrimination to appropriate law enforcement authorities in accordance with law.¹

PROHIBITED CONDUCT

Depending on the circumstances and facts of the situation, and within the definition of harassment/discrimination contained in this policy, examples of conduct and/or actions that could be considered a violation of this policy include, but are not limited to:

1. Any nicknames, slurs, stories, jokes, written materials or pictures that are lewd, vulgar, or profane and relate to any of the protected categories listed in the definition of harassment/discrimination contained in this policy;
2. Unwanted touching, sexual advances, requests for sexual favors, and spreading sexual rumors;
3. Instances involving sexual violence;
4. Causing a student to believe that he or she must submit to unwelcome sexual conduct in order to participate in a school program or activity or that an educational decision will be based on whether or not the student submits to unwelcome sexual conduct;
5. Implied or overt threats of physical violence or acts of aggression or assault based on any of the protected categories;
6. Seeking to involve students with disabilities in antisocial, dangerous or criminal activity where the students, because of disability, are unable to comprehend fully or consent to the activity; and
7. Destroying or damaging an individual's property based on any of the protected categories.

CONFIDENTIALITY

District employees involved in the investigation of complaints shall respect, as much as possible, the privacy and anonymity of both victims and persons accused of violations.

Harassment/Discrimination

WRITTEN REPORT

Upon the completion of the investigation, the investigator(s) shall submit a preliminary written report, including the names and addresses of those interviewed and a summary of the information obtained, to the Superintendent who shall prepare a final written report containing the facts obtained as a result of the investigation and his/her conclusions as to whether harassment/discrimination has occurred. If harassment/discrimination has been found to have occurred, the final written report shall provide in detail the methods to be utilized in correcting the situation and preventing its reoccurrence, including but not limited to, disciplinary action where appropriate.

In the event that the Superintendent's alleged conduct was the subject of the investigation, the Board shall consider the preliminary written report in executive session and prepare and adopt by majority vote a final written report containing the facts obtained as a result of the investigation and its conclusions as to whether harassment/discrimination occurred as well as specific remedies designed to correct the situation and prevent its reoccurrence, including but not limited to, disciplinary action where appropriate. The findings and conclusions of Board, as well as the remedies contained the final report, shall be final. The written report, upon completion, shall be furnished to the interested parties, including the complainant, by personal delivery or by registered or certified mail, return receipt requested.

APPEAL

Upon the completion of the investigation and submission of the written report to the parties involved, any party may appeal in writing all or any part of the findings, conclusions and remedies, if any, including any discipline proposed by the Superintendent to the Board of Education within ten (10) working days of receipt of the report. If no appeal has been filed within ten (10) working days following receipt of the Superintendent's written report, the Superintendent's findings, conclusions and proposed remedies shall be come final. Upon appeal, the Board of Education may affirm the Superintendent's findings, conclusions and proposed remedies in whole, or in part or may make its own findings and conclusions and fashion its own remedies as it deems necessary or appropriate under the circumstances. In cases where such actions are necessary, the following provisions shall apply:

1. Restrictions imposed on the student shall represent the least restrictive alternative available and appropriate to remedy the threat.
2. Supporting material shall be documented in and kept with the student's juvenile court record.

3. The student and/or parent/guardian may appeal actions taken to the Superintendent or to the Circuit Court with appropriate jurisdiction.¹

PERFORMANCE-BASED CREDITS

In addition to Carnegie units, students may earn credit toward high school graduation through the District's standards-based, performance-based credit system that complies with requirements of Kentucky Administrative Regulation. Procedures for the developing and amending the system shall address the following:

1. Conditions under which high school credit will be granted under the system that allow students to demonstrate proficiency and earn credit for learning acquired outside the normal classroom setting, outside of school, or in prior learning;

Performance-based credit may be earned while the student is still "in school," but the instructional setting will look different from a traditional "seat time" environment.

2. Performance descriptors and their linkages to State content standards and academic standards;

At the high school level, performance descriptors and evaluation procedures shall be established to determine if the content and performance standards have been met.

3. Assessments and the extent to which state-mandated assessments will be used;
4. An objective grading and reporting process; and
5. Criteria to promote and support school and community learning experiences, such as internships and cooperative learning, in support of a student's ILP. Such experiences shall be supervised by qualified instructors and aligned with State and District content and performance standards.

The high school student handbook shall include complete details concerning specific graduation requirements.

In keeping with statutory requirements, the District shall accept for credit toward graduation and completion of high school course requirements an advanced placement or a high school equivalent course taken by a student in grades 5, 6, 7, or 8 if that student attains performance levels expected of high school students in the District as determined by achieving a score of "3" or higher on a College Board Advanced Placement examination or a grade of "B" or better in a high school equivalent.²

SENIOR RECORD REVIEW

By the end of the first semester, each senior's record shall be reviewed to determine eligibility for graduation. Written notification of ineligibility for graduation shall be provided by the Principal to both the student and parent.

TRANSITIONAL CLASS REQUIREMENTS

All students that have not met the Council for Post-Secondary Education's college readiness requirements in math based on the ACT scores during their junior year or by other approved assessments, will be required to take transitional math courses, as determined by the placement assessments, during their senior year.

Graduation Requirements

OTHER PROVISIONS

The Board may grant different diplomas to those students who complete credits above the minimum number as established by the Kentucky Board of Education. In addition, the Board may award a diploma to a student posthumously indicating graduation with the class with which the student was expected to graduate.

The Board, Superintendent, Principal, or teacher may award special recognition to students.

Consistent with the District's graduation practices for all students, an alternative high school diploma shall be awarded to students with disabilities in compliance with applicable legal requirements. In addition, former students may submit to the Superintendent a request that the District provide them with an alternative high school diploma to replace the certificate of attainment they received at time of graduation from the District.³

A student who is at least seventeen (17) years of age and who is a state agency child, as defined in [KRS 158.135](#), shall be eligible to seek attainment of a High School Equivalency Diploma.

The Board may substitute an integrated, applied, interdisciplinary, occupational, technical, or higher-level course for a required course if the alternative course provides rigorous content.

EARLY GRADUATION CERTIFICATE

Students who meet all applicable legal requirements shall be eligible for early graduation in relation to receipt of a graduation diploma and an Early Graduation Certificate. Students wishing to follow an early graduation pathway shall notify the Principal of their intent prior to the beginning of grade nine (9) or as soon thereafter as the intent is known, but within the first thirty (30) school days of the academic year in which they wish to graduate. A Letter of Intent to Apply shall be entered into the student information system by October 1 of the year the student declares intent to graduate early.⁴

Students working toward receipt of an Early Graduation Certificate shall be supported by development and monitoring of an ILP to support their efforts.

To graduate early and earn an Early Graduation Certificate, a student shall:

1. Score proficient or higher on the state-required assessments; and
2. Meet the college readiness exam benchmarks established [013 KAR 002:020](#) for placement in credit-bearing courses without the need for remediation.

A student who has indicated an intent to graduate early may participate in the student's state administration of the college readiness exam prior to the junior year, if needed. Students who meet all applicable legal requirements shall be awarded a diploma and an Early Graduation Certificate.

Graduation Requirements

GRADUATION CEREMONIES

Students shall have completed the necessary requirements to earn a diploma before they may participate in the graduation exercises.

The Superintendent or the Principal, with the written approval of the Superintendent, may deny any senior the privilege of participating in any or all of the graduation activities if the senior's conduct is such that it will discredit the graduating class or school.

Graduation exercises at individual secondary schools shall be held no earlier than the evening of the last day of school in the school term.

TRANSCRIPTS

Each graduating senior is entitled to three (3) free copies of his/her transcript.

DIPLOMAS FOR VETERANS

In keeping with statute and regulation, the Board shall award an authentic high school diploma to an honorably discharged veteran who did not complete high school prior to being inducted into the United States Armed Forces during World War II, the Korean conflict, or the Vietnam War.¹

Public Notice Confidentiality and Child Find

In accordance with the Family Education Rights and Privacy Act, written policies and procedures have been developed which describe the Floyd County School District's requirements regarding the confidentiality of personally identifiable information. Stated in this notice is a summary of your rights under the Act. These rights are passed on to the student at age eighteen (18). For the purpose of this notice, the student 18 years or older is an "eligible" student. Parents, guardians, and eligible students may review and inspect all education records relating to that student by making a request to the Principal of the school where that student attends.

The FCSD will presume that the parent has the authority to review and inspect records relating to their children unless the district has been advised in writing that the parent does not have legal authority under applicable state law governing such matters as guardianship, separation, and divorce.

Personally identifiable information is not released to another party unless there is written authorization from the parent or eligible student, or there is a "Legitimate Educational Interest" as defined in the policies and procedures for confidentiality. A current list of employees' names and positions who have access to personally identifiable information is on file in each school. The FCSD has described in its policies and procedures the conditions under which personally identifiable information is released to another person without written parental consent.

"Directory Information" is information contained in an educational record which would not generally be considered harmful or an invasion of privacy if disclosed. This information may be released to news media, athletic organizations, scholarship or college entrance committees, or official organizations whose need for data is connected with student help activities.

"Directory Information" includes, but is not limited to the student's name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members or athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended. The parent, guardian, or eligible student currently enrolled, may request all or part of the directory information be withheld. The request must be in writing to the Principal of your child's school, within 30 calendar days after this notification has been distributed. The written request must specifically state what information may not be classified as directory information.

In accordance with federal regulations concerning the release or transfer of educational records, it is the policy of this school district to forward education records on request to a school in which a student seeks or intends to enroll. Parents may obtain upon request a copy of the records transferred.

The Floyd County Schools keeps child and youth records in a secure computer system and in locked files in each school and central office.

Any parent or guardian of a student, or any eligible student, may challenge the content or accuracy of any material or entries in the student's educational records on the grounds that it is inaccurate, misleading or otherwise in violation of the privacy or other rights of the student. Requests to amend the records are submitted to the Principal of your child's school.

For students who have been determined eligible for programs for children and youth with disabilities, educational records will be destroyed at the request of the parent when they are no

longer needed to provide educational programs and services. The FCSD will destroy the educational records of a child or youth without a parent's request after the records have been maintained for a minimum period of seven years and are no longer needed to provide educational programs and services. Parents are advised that data contained in the records may later be needed for Social Security purposes. The FCSD retains for an infinite period of time, a record of the student's name, address, telephone number, grades, attendance record, classes attended, grades completed, and year completed.

Children and youth determined eligible for special education include those children and youth with disabilities who have hearing impairments, vision impairments, emotional and behavior disorders, both deafness and blindness, health impairments, specific learning disabilities, developmental delays, mental disabilities, multiple disabilities, speech and language impairments, physical disabilities, autism, or traumatic brain injuries, and who because of these impairments need specially designed instruction and related services.

The Floyd County Schools has an ongoing Child Find system, which is designed to find any child or youth, age birth up to 21 years, who may have a disability and need special education. This includes children and youth who are not in school or those who are in school but are not receiving the special education they need to have an appropriate public education.

The Floyd County Schools will make sure any child or youth who has a disability, regardless of how severe the disability, is provided an appropriate public education at no cost to the parents of the child or youth.

Parents, relatives, public and private agency employees, and concerned citizens are urged to help the Floyd County Schools find any infant, toddler, child, or youth who may have a disability and need special education and related services. The district needs to know the name and age, or date of birth of the child or youth; the name, address, and phone of the parent or guardian; the possible disability; and other information to determine if special education is needed.

Letters and phone calls are some of the ways Floyd County Schools collect the information needed. The information the school district collects will be used to contact the parents of the child or youth and find out if the child or youth needs to be evaluated or referred for special education services. If you know of a child or youth who lives in Floyd County, may have a disability, and is not receiving needed services, bring, telephone, or send the information to:

Director of Special Education, Floyd County Schools
442 Ky. Rt. 550
Eastern, KY. 41622

As part of these efforts, Floyd County Schools will use screening information, student records, and basic assessment information it collects on all children and youth in the district to help locate those children and youth who have a disability and need special education.

Any information the district collects through Child Find is maintained confidentially.

Parents, guardians, or eligible students have the right to file a complaint with the U.S. Department of Education related to perceived failures by the district to comply with confidentiality requirements. The address is:
