Ink Supply Management Simplified

Your postage meter is smarter than you think. It can even order ink cartridges for you at exactly the right time. As a result, there's no need to:

- Closely monitor the ink level in your mailing system
- Ensure orders are placed early enough to avoid running out of ink and disrupting your mail flow
- Take time out of your schedule to call or go online to order ink
- Communicate with company purchasing staff to request an ink order

It's actually as simple as it sounds. Just leave your meter connected to your local area network. When the ink level reaches 20%, your meter alerts Quadient that you'll need a replacement cartridge soon. Quadient will promptly ship you a new ink cartridge so that it arrives before your system runs out of ink.

You'll also get notification emails when each ink order is created and when each replacement cartridge ships.

Best of all, your ink orders are charged to your Postage Funding account, so you'll get a single bill for both the postage you download and the ink cartridges you buy.

There's no fees of any kind, and you can opt out whenever you want.
