**Bill Benton – Transportation/Bus Driver**

Mr. Benton is a great example of the commitment you find in our transportation department. He rarely, if ever, misses a day of work. In addition to running his normal morning and afternoon routes, he also handles ATC runs during the day. This makes it possible for our students to have access to opportunities they would not have without the service provided by Mr. Benton. He is also a great example of an individual committed to doing what is asked. In order to ensure he uses the new time clock system correctly; he has set multiple alarms on his own phone, so he never misses a clock in or clock out time. Thank you for your commitment, Mr. Benton.
