

ACTION ITEM

To: Members of the Elizabethtown Board of Education

From: Kelli Bush, Superintendent

Date: October 17, 2022

Subject: Health Science Teaching Position

FACTS: As we continue to look at community needs and student requests, increasing access to Career and Technical Education at Elizabethtown High School is important. For several years, the goal has been to find the resources to fund a health science position when opportunities for expansion were available. Recent investments in CTE at the state level have allowed for this to be the time. This position will be paid on the certified salary schedule subject to years of experience and rank.

Recommendation: I recommend the Health Sciences teaching position be approved to begin December 1, 2022.
