# Uniform Data System Reporting Tables for 2022 Health Center Data

#### PUBLIC BURDEN STATEMENT

The Uniform Data System (UDS) provides consistent information about health centers including patient characteristics, services provided, clinical processes and health outcomes, patients' use of services, costs, and revenues. It is the source of unduplicated data for the entire scope of services included in the grant or designation for the calendar year. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. The OMB control number for this project is 0915-0193 and it is valid until 02/28/2023. This information collection is mandatory under the Health Center Program authorized by section 330 of the Public Health Service (PHS) Act (42 U.S.C. 254b). Public reporting burden for this collection of information is estimated to average 238 hours per response, including the time for reviewing instructions, searching existing data sources, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Health Resources and Services Administration (HRSA) Reports Clearance Officer, 5600 Fishers Lane, Room 14N136B, Rockville, Maryland, 20857 or paperwork@hrsa.gov.

#### DISCLAIMER

"This publication lists non-federal resources to provide additional information to consumers. Neither the U.S. Department of Health and Human Services (HHS) nor the Health Resources and Services Administration (HRSA) has formally approved the non-federal resources in this manual. Listing these is not an endorsement by HHS or HRSA."

## Changes to the Reporting Requirements

This section outlines critical reporting instruction changes made since the original calendar year release (April 15, 2022) of this manual. Use the updated manual to prepare and submit the calendar year UDS Report.

• There are no changes at this time.

#### PATIENTS BY ZIP CODE TABLE

Calendar Year: January 1, 2022, through December 31, 2022

ZIP Code (a)	None/ Uninsured (b)	Medicaid/ CHIP/Other Public (c)	Medicare (d)	Private (e)	Total Patients (f)
Other ZIP Codes					
Unknown Residence					
Total					

Note: The actual online output from the EHBs will display ZIP codes entered by the health center in Column A. Patients by ZIP Code Table Cross-Table Considerations:

- Patients by ZIP Code Table and, Tables 3A, 3B, and 4 describe the same patients and the totals must be equal.
- The number of patients by insurance source reported on the Patients by ZIP Code Table must be consistent with the number of patients by insurance category reported on Table 4.

#### TABLE 3A: PATIENTS BY AGE AND BY SEX ASSIGNED AT BIRTH

Calendar Year: January 1, 2022, through December 31, 2022

#### **Note: Table 3A Cross-Table Considerations:**

- Table 3A, Line 39 = Table 3B, Line 8 Column D = Table 3B, Lines 19 and 26 = total patients on the Patients by ZIP Code Table = Table 4, Lines 6 and 12.
- If you submit Grant Reports, the total number of patients reported on each grant table must be less than or equal to the corresponding number on the Universal Report for each cell.

#### TABLE 3B: DEMOGRAPHIC CHARACTERISTICS

Calendar Year: January 1, 2022, through December 31, 2022

25	Chose not to disclose	
25a	Unknown	
26	Total Patients (Sum of Lines 20 to 25a)	

#### **Note: Table 3B Cross-Table Considerations:**

- Table 3B, Lines 8, 19, and 26 = Table 3A, Line 39 = Patients by ZIP Code Table = Table 4, Lines 6 and 12.
- Tables 3B and 7 both report patients by race and Hispanic or Latino/a ethnicity. The data sources for identifying race and ethnicity for the two tables should be the same, and the number of patients reported on Table 7 by race and ethnicity cannot exceed the number of patients in the same category on Table 3B.
- If you submit Grant Reports, the total number of patients reported on each grant table must be less than or equal to the corresponding number on the Universal Report for each cell.

## TABLE 4: SELECTED PATIENT CHARACTERISTICS Calendar Year: January 1, 2022, through December 31, 2022

25	Total Veterans (All health centers report this line)	
26	Total Patients Served at a Health Center Located In or Immediately	
	Accessible to a Public Housing Site	
	(All health centers report this line)	

#### **Note: Table 4 Cross-Table Considerations:**

- The total patients reported by insurance type must match on Table 4 (Lines 7–12) and the Patients by ZIP Code Table. For example, total Medicare patients on Table 4 (Line 9) must match the total of the Medicare Column D on the Patients by ZIP Code Table.
- Charges and collections by payer on Table 9D relates to insurance enrollment on Table 4. For example, dividing Medicaid revenue on Table 9D, Line 3, Column B by Total Medicaid Patients on Table 4, Line 8 equals the average collection per Medicaid patient.
- Reporting of managed care revenue on Table 9D relates to member months on Table 4. Dividing managed care capitation revenue by member months equals average capitation per member per month (PMPM). For example, dividing Medicaid capitated revenue (Table 9D, Line 2a, Columns B-(c1+c2+c3-c4)) by Table 4, Line 13a, Column A equals Medicaid PMPM.
- If you submit Grant Reports, the total number of patients reported on the grant table(s) must be less than or equal to the corresponding number on the Universal Report for each cell.

#### Note: Table 5 and Addendum Cross-Table Considerations:

- Total patients on Table 5, Column C, should be greater than the total number of patients on Table 3A (unless only one type of service is offered at the health center).
- Patients with medical visits on Table 5 are generally eligible for inclusion in eCQMs reported on Tables 6B and 7.
- The personnel on Table 5 is routinely compared to the costs on Table 8A. See the crosswalk of comparable fields in <u>Appendix B</u>.
- Billable visits reported on Table 5 should relate to patient charges reported on Table 9D.
- If you submit Grant Reports, the total number of patients and visits reported on the grant table must be less than or equal to the corresponding number on the Universal Report for each cell.
- Table 6A activity reported for substance use disorder and mental health treatment are compared to the Table 5 addendum and the main part of Table 5 mental health and substance use lines.
- Visits and patients reported on the Table 5 addendum must also be included in the main part of Table 5, medical plus mental health lines.

#### **Notes: Sources of Codes:**

- ICD-10-CM (2022)–National Center for Health Statistics (NCHS)
- CPT (2022)-American Medical Association (AMA)
- Code on Dental Procedures and Nomenclature CDT Code (2022)—Dental Procedure Codes—<u>American Dental</u> Association (ADA)

"X" in a code: Denotes any number, including the absence of a number in that place. Dashes (-) in a code indicate that additional characters are required. ICD-10-CM codes all have at least four digits. These codes are not intended to reflect whether or not a code is billable. Instead, they are used to point out that other codes in the series are to be considered.

#### **Table 6A Cross-Table Considerations:**

- The count of patients by diagnosis reported on Table 6A will not be the same count as on Tables 6B and 7, due to differences in criteria that must be met for inclusion on Tables 6B or 7.
- If you submit Grant Reports, the total number of patients and visits reported on the grant table must be less than or equal to the corresponding number on the Universal Report for each cell.

#### Table 6B: Quality of Care Measures

Calendar Year: January 1, 2022, through December 31, 2022

#### O Prenatal Care Provided by Referral Only (Check if Yes)

## Section A—Age Categories for Prenatal Care Patients: Demographic Characteristics of Prenatal Care Patients

Line	Age	Number of Patients (a)
1	Less than 15 years	
2	Ages 15–19	
3	Ages 20–24	
4	Ages 25–44	
5	Ages 45 and over	
6	Total Patients (Sum of Lines 1–5)	

#### Section B—Early Entry into Prenatal Care

Line	Early Entry into Prenatal Care	Patients Having First Visit with Health Center (a)	Patients Having First Visit with Another Provider (b)
7	First Trimester		
8	Second Trimester		
9	Third Trimester		

#### Section C—Childhood Immunization Status

Line	Childhood Immunization Status	Total Patients with 2nd Birthday (a)	Number of Records Reviewed (b)	Number of Patients Immunized (c)
10	MEASURE: Percentage of children 2 years of age who received age-appropriate vaccines by their 2nd birthday			

#### Section D—Cervical and Breast Cancer Screening

Line	Cervical Cancer Screening	Total Female Patients Aged 23 through 64 (a)	Number of Records Reviewed (b)	Number of Patients Tested (c)
11	MEASURE: Percentage of women 23–64 years of age who were screened for cervical cancer			
Line	Breast Cancer Screening	Total Female Patients Aged 51 through 73 (a)	Number of Records Reviewed (b)	Number of Patients with Mammogram (c)
11a	MEASURE: Percentage of women 51–73 years of age who had a mammogram to screen for breast cancer			

#### Section E—Weight Assessment and Counseling for Nutrition and Physical Activity of Children/Adolescents

Line	Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents	Total Patients Aged 3 through 16 (a)	Number of Records Reviewed (b)	Number of Patients with Counseling and BMI Documented (c)
12	MEASURE: Percentage of patients			
	3–16 years of age with a BMI			
	percentile and counseling on nutrition			
	and physical activity documented			

#### Section F—Preventive Care and Screening: Body Mass Index (BMI) Screening and Follow-Up Plan

Line	Preventive Care and Screening: Body Mass Index (BMI) Screening and Follow-Up Plan	Total Patients Aged 18 and Older (a)	Number of Records Reviewed (b)	Number of Patients with BMI Charted and Follow-Up Plan Documented as Appropriate (c)
13	MEASURE: Percentage of patients 18 years of age and older with (1)			
	BMI documented and (2) follow-up plan documented if BMI is outside normal parameters			

#### Section G—Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention

Line	Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention	Total Patients Aged 18 and Older (a)	Number of Records Reviewed (b)	Number of Patients Assessed for Tobacco Use <i>and</i> Provided Intervention if a Tobacco User (c)
14a	MEASURE: Percentage of patients aged 18 years of age and older who (1) were screened for tobacco use one or more times during the measurement period, and (2) if identified to be a tobacco user received cessation counseling intervention			

#### Section H—Statin Therapy for the Prevention and Treatment of Cardiovascular Disease

Line	Statin Therapy for the Prevention and Treatment of Cardiovascular Disease	Total Patients at High Risk of Cardiovascular Events (a)	Number of Records Reviewed (b)	Number of Patients Prescribed or On Statin Therapy (c)
17a	MEASURE: Percentage of patients at high risk of cardiovascular events who were prescribed or were on statin therapy			

#### Section I—Ischemic Vascular Disease (IVD): Use of Aspirin or Another Antiplatelet

Line	Ischemic Vascular Disease (IVD): Use of Aspirin or Another Antiplatelet	Total Patients Aged 18 and Older with IVD Diagnosis or AMI, CABG, or PCI Procedure (a)	Number of Records Reviewed (b)	Number of Patients with Documentation of Aspirin or Other Antiplatelet Therapy (c)
18	MEASURE: Percentage of patients 18 years of age and older with a diagnosis of IVD or AMI, CABG, or PCI procedure with aspirin or another antiplatelet			

#### Section J—Colorectal Cancer Screening

Line	Colorectal Cancer Screening	Total Patients Aged 50 through 74 (a)	Number of Records Reviewed (b)	Number of Patients with Appropriate Screening for Colorectal Cancer(c)
19	MEASURE: Percentage of patients 50 through 74 years of age who had appropriate screening for colorectal cancer			

#### Section K—HIV Measures

Line	HIV Linkage to Care	Total Patients First Diagnosed with HIV (a)	Number of Records Reviewed (b)	Number of Patients Seen Within 30 Days of First Diagnosis of HIV (c)
20	MEASURE: Percentage of patients whose first-ever HIV diagnosis was made by health center personnel between December 1 of the prior year and November 30 of the measurement period and who were seen for follow-up treatment within 30 days of that first-ever diagnosis			
Line	HIV Screening	Total Patients Aged 15 through 65 (a)	Number of Records Reviewed (b)	Number of Patients Tested for HIV (c)
20a	MEASURE: Percentage of patients 15 through 65 years of age who were tested for HIV when within age range			

#### Section L—Depression Measures

Line	Preventive Care and Screening: Screening for Depression and Follow-Up Plan	Total Patients Aged 12 and Older (a)	Number of Records Reviewed (b)	Number of Patients Screened for Depression and Follow-Up Plan Documented as Appropriate (c)
21	MEASURE: Percentage of patients 12 years of age and older who were (1) screened for depression with a standardized tool <i>and</i> , if screening was positive, (2) had a follow-up plan documented			
Line	Depression Remission at Twelve Months	Total Patients Aged 12 and Older with Major Depression or Dysthymia (a)	Number of Records Reviewed (b)	Number of Patients who Reached Remission (c)
21a	MEASURE: Percentage of patients 12 years of age and older with major depression or dysthymia who reached remission 12 months (+/- 60 days) after an index event			

#### Section M—Dental Sealants for Children between 6-9 Years

Line	Dental Sealants for Children between 6–9 Years	Total Patients Aged 6 through 9 at Moderate to High Risk for Caries (a)	Number of Records Reviewed (b)	Number of Patients with Sealants to First Molars (c)
22	MEASURE: Percentage of children 6 through 9 years of age at moderate to high risk of caries who received a sealant on a first permanent molar			

#### **Note: Table 6B Cross-Table Considerations:**

- Patients with medical visits on Table 5 are generally eligible for inclusion in eCQMs reported on Table 6B.
- The relationship between the denominators on Table 6B should be verified as reasonable when compared to the total number of patients by age on Table 3A and the percentage of patients by service category on Table 5.
- The count of patients by diagnosis reported on Table 6A will not be the same count as on Table 6B, due to differences in criteria that must be met for inclusion on Table 6B.

#### **Note: Table 7 Cross-Table Considerations:**

- Patients with medical visits on Table 5 are generally eligible for inclusion in eCQMs reported on Table 7.
- The relationship between the denominators on Table 7 should be verified as reasonable when compared to the total number of patients by age on Table 3A, patients by race and ethnicity on Table 3B, and the proportion of medical patients on Table 5.
- The count of patients by diagnosis reported on Table 6A will not be the same counts as on Table 7, due to differences in criteria that must be met for inclusion on Table 7.

- Charges and collections by payer on Table 9D relate to the classification of patients by medical insurance on Table 4. See the crosswalk of comparable fields in <u>Appendix B</u>. For example, dividing Medicaid revenue on Table 9D, Line 3, Column B by Total Medicaid Patients on Table 4, Line 8 equals the average collection per Medicaid patient.
- Other Public on Table 9D should be consistent with Table 4 except that Other Public categorical grants such as Title X and BCCCP are not insurance and the patients are usually classified as Uninsured on Table 4.
- Managed care revenue on Table 9D relates to member months on Table 4. Dividing managed care capitation revenue by member months equals average capitation per member per month (PMPM). For example, dividing Medicaid capitated revenue (Table 9D, Line 2a, Column B-(c1+c2+c3-c4)) by Table 4, Line 13a, Column A equals Medicaid PMPM.
- Billable visits reported on Table 5 should relate to patient charges reported on Table 9D.

- The revenue received from indigent care programs that subsidize services rendered to patients who are uninsured are reported on Table 9E, while the charges for these services are reported on Table 9D. Follow the detailed reporting requirements included in <u>Appendix B</u> to address the cross-table reporting.

## Appendix D: Health Center Health Information Technology (HIT) Capabilities

#### Introduction

The HIT Capabilities Form collects information through a series of questions on the health center's HIT capabilities, including EHR interoperability and eligibility for CMS Promoting Interoperability programs. The HIT Form must be completed and submitted as part of the UDS submission. The form includes questions about the health center's implementation of an EHR, certification of systems, and how widely adopted the system is throughout the health center and its providers.

Several notable changes have been made to the HIT Form, as outlined below:

- Question 11a has been added to measure the total number of patients screened for social risk factors.
- Questions throughout have also been revised to provide clarity, with additional selection options added.
- Questions 1d, 1e, and 7 have been removed.

#### **QUESTIONS**

The following questions appear in the EHBs. Complete them before you file the UDS Report. Reporting requirements for the HIT questions are on-screen in the EHBs as you complete the form. Respond to each question based on your health center status **as of December 31**.

1. Does your health center currently have an electronic health record (EHR) system installed and in use, at minimum for medical care, by December 31?

a. Yes, installed at all service delivery sites and used by all providers

- For the purposes of this response, "providers" mean all medical providers, including physicians, nurse practitioners, physician assistants, and certified nurse midwives.
- Although some or all of the dental, mental health, or other providers may also be using the system, as may medical support personnel, this is not required to choose response (a).
- For the purposes of this response, "all service delivery sites" means all permanent service delivery sites where medical providers serve health center medical patients.
- It does not include administrative-only locations, hospitals or nursing homes, mobile vans, or sites used on a seasonal or temporary basis.
- You may check this option if a few newly hired, untrained personnel are the only ones not using the system.

b. Yes, but only installed at some service delivery sites or used by some providers

- Select option (b) if one or more permanent service delivery sites did not have the EHR installed or in use (even if this is planned), or if one or more medical providers (as defined on this page under [a]) do not yet use the system.
- When determining if all providers have access to the system, the health center should also consider part-time and locum providers who serve clinic patients.
- Do not select this option if the only medical providers who did not have access were those who were newly hired and still being trained on the system.

c. No

- Select "no" if no EHR was in use on December 31, even if you had the system installed and training had started.
- If the health center purchased an EHR but has not yet put it into use, answer "no."
- If response is "c. No." skip to Question 11.

If "Yes, but only installed at some service delivery sites or used by some providers" is selected, a box expands for health centers to identify how many service delivery sites have the EHR in use and how many (medical) providers are using it. Please enter the number of service delivery sites (as defined under question 1) where the EHR is in use and the number of providers who use the system (at all service delivery sites). Include part-time and locum medical providers who serve clinic patients. Count a provider who has separate login identities at more than one service delivery site as just one provider.

This next set of questions seek to determine whether the health center installed an EHR by December 31 and, if so, which product was in use, how broad system access was, and what features were available and in use. DO NC

or include PMS or other billing systems, even though they can often produce much of the UDS data.
a system is in use (i.e., if [a] or [b] has been selected), indicate that it has been certified by the Office of the ational Coordinator—Authorized Testing and Certification Bodies.
1a. Is your system certified by the Office of the National Coordinator for Health IT (ONC) Health IT Certification Program?
a. Yes
b. No
Health centers are to indicate the vendor, product name, version number, and ONC-certified health IT product list number. (More information is available at <a href="https://chpl.healthit.gov/#/search">https://chpl.healthit.gov/#/search</a> .) If you have more than one EHR (if, for example, you acquired another practice with its own EHR), report the EHR that will be the successor system or the EHR used for capturing primary medical care.
1a1. Vendor
1a2. Product Name
1a3. Version Number
1a4. ONC-certified Health IT Product List Number
1b. Did you switch to your current EHR from a previous system this year?
a. Yes
b. No
1c. Do you use more than one EHR, data collection, and/or data analytics system across your organization?
a. Yes
b. No
1c1. If yes, what is the reason?

Additional EHR/data system(s) are used during transition from one primary EHR to another b. Additional EHR/data system(s) are specific to one service type (e.g., dental, behavioral health, care

d. Additional EHR/data system(s) are used for analysis and reporting (such as for clinical quality

## Appendix E: Other Data Elements

#### Introduction

The questions on the Other Data Elements Form collect information on the changing landscape of health centers to include expanded services and delivery systems.

There are no major changes to this form.

#### **Q**UESTIONS

Report on these data elements as part of your UDS submission. Topics include medication-assisted treatment (MAT), telehealth, and outreach and enrollment assistance. Respond to each question based on your health center status **as of December 31**.

- 1. Medication-Assisted Treatment (MAT) for Opioid Use Disorder
  - a. How many physicians, certified nurse practitioners, physician assistants, and certified nurse midwives,<sup>2</sup> on-site or with whom the health center has contracts, have a Drug Addiction Treatment Act of 2000 (DATA) waiver to treat opioid use disorder with medications specifically approved by the U.S. Food and Drug Administration (FDA) (i.e., buprenorphine) for that indication during the calendar year?
  - b. During the calendar year, how many patients received MAT for opioid use disorder from a physician, certified nurse practitioner, physician assistant, or certified nurse midwife, with a DATA waiver working on behalf of the health center?
- 2. Did your organization use telemedicine to provide remote (virtual) clinical care services?

The term "telehealth" includes "telemedicine" services, but encompasses a broader scope of remote health care services. Telemedicine is specific to remote clinical services, whereas telehealth may include remote non-clinical services, such as provider training, administrative meetings, and continuing medical education, in addition to clinical services.

#### a. Yes

If "Yes" is selected, proceed to questions 2a1-2a3.

- 2a1. Who did you use telemedicine to communicate with? (Select all that apply.)
  - a. Patients at remote locations from your organization (e.g., home telehealth, satellite locations)
  - b. Specialists outside your organization (e.g., specialists at referral centers)
- 2a2. What telehealth technologies did you use? (Select all that apply.)
  - a. Real-time telehealth (e.g., live videoconferencing)
  - b. Store-and-forward telehealth (e.g., secure e-mail with photos or videos of patient examinations)
  - c. Remote patient monitoring
  - d. Mobile Health (mHealth)

<sup>&</sup>lt;sup>2</sup> With the enactment of the Comprehensive Addiction and Recovery Act of 2016, PL 114-198, opioid treatment prescribing privileges have been extended beyond physicians to include certain qualifying nurse practitioners (NPs), physician assistants (PAs), and certified nurse midwives (CNMs).

2a3	3. W	That primary telemedicine services were used at your organization? (Select all that apply.)
	a.	Primary care
	b.	Oral health
	c.	Behavioral health: Mental health
	d.	Behavioral health: Substance use disorder
	e.	Dermatology
	f.	Chronic conditions
	g.	Disaster management
	h.	Consumer health education
	i.	Provider-to-provider consultation
	j.	Radiology
	k.	Nutrition and dietary counseling
	1.	Other (Please describe)
b.	No	
	Ify	you did not have telemedicine services, please comment on why. (Select all that apply.)
	a.	Have not considered/unfamiliar with telehealth service options
	b.	Policy barriers (Select all that apply.)
		i. Lack of or limited reimbursement
		ii. Credentialing, licensing, or privileging
		iii. Privacy and security
		iv. Other (Please describe)
	c.	Inadequate broadband/ telecommunication service (Select all that apply.)

		ii. Lack of infrastructure
		iii. Other (Please describe)
	d.	Lack of funding for telehealth equipment
	e.	Lack of training for telehealth services
	f.	Not needed
	g.	Other (Please describe)

3.	Provide the number of all assists provided during the past year by all trained assisters (e.g., certified
	application counselor or equivalent) working on behalf of the health center (personnel, contracted personnel,
	or volunteers), regardless of the funding source that is supporting the assisters' activities. Outreach and
	enrollment assists are defined as customizable education sessions about third-party primary care health
	insurance coverage options (one-on-one or small group) and any other assistance provided by a health center
	assister to facilitate enrollment.
	Enter number of assists

**Note:** Assists DO NOT count as visits on the UDS tables.

## Appendix F: Workforce

#### **INTRODUCTION**

The Workforce Form collects information through a series of questions on health center workforce. It is important to understand the current state of health center workforce training and different staffing models to better support recruitment and retention of health center professionals.

There are no major changes to this form.
