

Per the scope of work provided by Jeremy Booher of the Gallatin County Board Office we propose the following:

Per Push \$ 4,811.22 (6 Ton of Salt, 11 Hours Equipment)

Salt Only \$ 3,436.22 (7.5 Ton of Salt)

Estimated Total Pavement Area: 498,326 sqft

Due to vagueness of the scope of work provided by the district we believe we can provide a better service for an annual flat rate fee. As a company we strive for excellence and professionalism in year-round lawn and snow services. Upon reviewal of past meeting minutes, we propose a 3 year agreement and an annual fee of \$64,471.06 for mowing of all non-athletic areas (ball fields) and snow removal based upon the scopes previously provided.

Respectfully,

Jeremy Berkshire LLC
